Grayson fails or refuses to furnish all or part of the requested information, Grayson shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention should be given to copied material to ensure that it is legible. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations.

1. Provide the workpapers, spreadsheets, etc. which show the calculation of the increase, by individual wholesale rate schedule, in Grayson's cost of power from East Kentucky Power Cooperative, Inc. that Grayson is proposing to flow through to its customers. Provide the information in hard copy as well as electronic format with the formulas intact and unprotected. Include a brief narrative description of the data being provided.

2. Refer to Exhibit 3 of the application.

- a. Provide this exhibit in electronic format with the formulas intact and unprotected.

- b. The billing analysis shows various rate schedules with escalation percentages applied to the billing determinants. Provide workpapers, spreadsheets, etc. for the calculation of the percentages, as well as a narrative explanation of how the percentages were determined.

c. Refer to pages 1 and 6 of 6. Explain why Schedule 5, Street Lighting Service, found on page 6 is not included in the Lighting totals on page 1. If a correction is necessary, file a copy of all schedules that would require updating as a result.

d. Refer to page 3 of 6, Schedule ETS. Grayson's ETS tariff includes on-peak and off-peak rates. Explain why only the off-peak rate is included on page 3. If the on-peak rate is included on the Farm and Home Schedule on page 2 of 6, explain whether the customer charges for the ETS customers are included twice, in both the Farm and Home and ETS schedules.

e. Refer to page 6 of 6. Explain why fuel adjustment clause and environmental surcharge revenue is not included in Schedule 6, Outdoor Lighting Service.
