

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

BELLSOUTH TELECOMMUNICATIONS, INC.,)	
D/B/A AT&T KENTUCKY'S PETITION)	
REQUESTING THE COMMISSION'S)	CASE NO.
INTERVENTION IN NANPA NXX CODE)	2011-00218
ASSIGNMENTS (NPA 270))	

O R D E R

On June 28, 2011, BellSouth Telecommunications, Inc., d/b/a AT&T Kentucky ("AT&T Kentucky") filed a petition requesting this Commission review and overturn a determination by the North American Numbering Plan Administration ("NANPA").¹ The petition was filed pursuant to 47 C.F.R. Section 52.15(g)(4) wherein the Commission is granted the authority to "overturn the NANPA's decision to withhold numbering resources from the carrier based on its determination that the carrier has demonstrated a verifiable need for numbering resources and has exhausted all other available remedies."

AT&T Kentucky explains that the assignment of three separate blocks of 1,000 numbers each is needed to meet the numbering demand for three separate blocks of 1,000 consecutive numbers for Fruit of the Loom in Bowling Green, Kentucky, a customer of AT&T Kentucky. Specifically, the code assignment request is for the 2-, 4-, and 6-thousand blocks of an available central office code ("NXX") (270-NXX-2XXX, 270-

¹ The NANPA is an independent non-governmental entity selected by the Federal Communications Commission ("FCC") and is responsible for administering and managing the North American Numbering Plan ("NANP"). Neustar, Inc. is currently contracted by the FCC as the NANPA and Pooling Administrator.

NXX-4XXX, and 270-NXX-6XXX).² AT&T Kentucky does not have sufficient number resources available within its inventory in the available pool for the specified wire center in the Bowling Green rate center and is unable to meet Fruit of the Loom's specific need for numbering resources. Hence, on June 20, 2011, AT&T Kentucky electronically submitted to the NANPA an application requesting assignment of three blocks of 1,000 numbers in the Bowling Green rate center in order to address the business needs of Fruit of the Loom.³ The application process with the NANPA requires the submission of information used for a Months-To-Exhaust ("MTE") and Utilization Certification Worksheet ("Worksheet") pertaining to the affected rate center.⁴ Based on the submitted information and resulting calculations, the NANPA concluded that AT&T Kentucky did not meet the FCC's required guideline for MTE of six months or less, or the utilization threshold requirement of 75 percent.⁵ Therefore, NANPA determined that AT&T Kentucky's request for additional numbering resources should be denied.

The NANPA is not a policy-making entity. In making assignment decisions, the NANPA follows regulatory directives and industry-developed guidelines. The NANPA's

² See AT&T Kentucky's Petition for Review.

³ Specifically, the thousands blocks request submitted by AT&T Kentucky was for its Bowling Green switch, but current FCC rules require the evaluation of number utilization for the entire rate center before assignment of new numbering resources.

⁴ In accordance with 47 C.F.R. Section 52.15(g)(3), the MTE and utilization level are calculated by the Worksheet based on various inputs supplied by the applying carrier.

⁵ According to the Worksheet, the MTE for the Bowling Green rate center was calculated to be 54.541 months with a utilization rate of 62.318 percent.

responsibilities are defined in FCC rules and in comprehensive technical requirements drafted by the telecommunications industry and approved by the FCC.⁶

Pursuant to 47 C.F.R. Section 52.15(g)(4), this Commission may overturn the determination of the NANPA if the requesting carrier has demonstrated a verifiable need for numbering resources and that all other available remedies have been exhausted. The Commission finds that AT&T Kentucky has demonstrated a verifiable need for additional numbering resources by presenting the request of a specific customer, Fruit of the Loom, for three blocks of 1,000 consecutive numbers each (270-NXX-2XXX, 270-NXX-4XXX, and 270-NXX-6XXX). AT&T Kentucky advises that it will be unable to provide telecommunications services requested by the customer without additional numbering resources in the Bowling Green rate center. The Commission further finds that AT&T Kentucky has exhausted all available remedies in the Bowling Green rate center to the extent that no combination of existing numbering resources in the Bowling Green rate center can be employed to meet the customer's demand for three blocks of 1,000 numbers. According to AT&T Kentucky, its Bowling Green switch serving the Bowling Green rate center does not have large enough blocks of sequential numbers to meet the customer's need.

This Commission finds that the NANPA determination to deny AT&T Kentucky the additional numbering resources described herein should be overturned and the NANPA be directed to assign to AT&T Kentucky the 2-, 4-, and 6-thousand blocks of an available NXX in the Bowling Green rate center (270-NXX-2XXX, 270-NXX-4XXX, and 270-NXX-6XXX). The Commission notes that the numbering resources considered in

⁶ See generally, 47 C.F.R. Section 52.

this Order are to be assigned for the sole use of serving AT&T Kentucky's customer, Fruit of the Loom, in the Bowling Green rate center. If the service requested by Fruit of the Loom is withdrawn, declined, or terminated, the associated numbering resources approved in this Order should be returned to the NANPA and may not be utilized to serve other customers without first meeting the NANPA numbering resource guidelines.

IT IS THEREFORE ORDERED that:

1. AT&T Kentucky's Petition regarding the NANPA's denial of its application for assignment of additional numbering resources in the 270 Numbering Plan Area is granted.

2. The decision of the NANPA denying AT&T Kentucky's request for assignment of three blocks of 1,000 sequential numbers in the Bowling Green rate center is hereby overturned.

3. The NANPA shall assign AT&T Kentucky the 2-, 4-, and 6-thousand blocks of an available NXX (270-NXX-2XXX, 270-NXX-4XXX, and 270-NXX-6XXX) for the Bowling Green switch in the Bowling Green rate center.

4. The numbering resources considered in this Order are to be assigned for the sole use of serving AT&T Kentucky's customer, Fruit of the Loom, in the Bowling Green rate center. If the service requested by Fruit of the Loom is withdrawn, declined, or terminated, the associated numbering resources approved in this Order shall be returned to the NANPA.

By the Commission
