COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the matter of:

Harold Barker  
Dora Barker  
Brooke Barker  
(Your Full Name)

COMPLAINANT

VS.

East Ky Power Cooperative  
(Name of Utility)

DEFENDANT

RECEIVED

JUL 05 2013

PUBLIC SERVICE  
COMMISSION

COMPLAINT

The complaint of Harold, Dora + Brooke Barker respectfully shows:  
(Your Full Name)

(a) Harold Barker, Dora Barker + Brooke Barker  
(Your Full Name)  
5450 Mt. Sterling Road  
Shinchester, Ky 40391  
(Your Address)

(b) East Ky Power Cooperative  
(Name of Utility)  
4758 Lexington Road  
Shinchester, Ky 40391  
(Address of Utility)

(c) That: Am a letter dated October 7, 2005 EKPC's  
(Describe here, attaching additional sheets if necessary,

attorney, Sherman Goodpaster, requested a  
the specific act, fully and clearly, or facts that are the reason.

staff opinion) in regards to the replacement and  
and basis for the complaint.)

upgrading of the existing Smith-Hunt-Sidewalk.

Page 2 of 2

transmission lines in Clark Co, Ky. EKPC indicated this  
approximately 12 miles would be upgraded from a single  
circuit 69 KV lines to a double circuit 345 KV/69 KV and they  
would be moving the 345 KV circuit less than 4000 feet  
to a new centerline easement. In our opinion the PSC  
was misled and on October 26, 2005 ruled that  
no CPCN would be required per KR 9 278.020 (1) + (2). \*

\* See  
attached page  
Item 1

Wherefore, complainant asks

(Specifically state the relief desired.)

We ask that this easement be moved far enough  
away from our home to eliminate the health and  
safety hazards that exist today and future problems  
when the load on the lines is increased. We  
own adequate land beside the residence \*

Date

\*Complaints by corporations or associations, or any other organization having the right to file a complaint, must be signed by its attorney and show his post office address. No oral or unsigned complaints will be entertained or acted upon by the commission.

Attachment from Page 2 (Item #1)

Essentially EKPC installed a double circuit 3.5 KV / 139 KV line (and moved three sections) for a total of 14,697 feet to a new location / placement.

As a result EKPC's placement placed the lines in the middle of our front yard, and thus the carport and garage of our home. Because of this large upgrade we receive a shock if you touch the metal on a vehicle in the driveway and the EMF levels have been as high as 23 milligauss inside our home. These lines now are only approximately 30 percent load capacity per EKPC. Since no CPCN was required Harold Barker, Ann Barker + Brook Barker were denied adequate time to investigate, file claims and have a hearing with the PSC. We are filing this claim because of the health and safety concerns we have not only for ourselves but the public because of the location of these massive transmission lines.

Attachment from Page 2 (Item #2)

to accommodate this change which should have been used in the original route of this line.

We also ask to be reimbursed for damages caused by EKPC's construction of this lines
