

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF BALLARD RURAL TELEPHONE)	CASE NO.
COOPERATIVE CORPORATION, INC. FOR A)	2014-00330
GENERAL ADJUSTMENT IN RATES)	

ORDER

Ballard Rural Telephone Cooperative Corporation, Inc. (“Ballard”) filed an application with the Commission for a general adjustment of its rates for basic local exchange service that was deemed filed on October 23, 2014. Ballard informed the Commission of its intent to place its proposed rates into effect on and after November 30, 2014, in order to meet the rate floor mandated in 47 C.F.R. § 54.318.

Ballard filed its proposed increased rates to comply with the 2011 directive of the Federal Communications Commission (“FCC”) that, *inter alia*, comprehensively reformed intercarrier compensation.¹ In addition to establishing a glide path to reduce access charges to zero, the FCC’s ICC/USF Order also established a rate floor for local exchange rates.² The FCC required that Local Exchange Carriers, such as Ballard, shall be eligible to receive high-cost support in a study area only if their rates for local exchange service are at or above the rate floor on June 1 of every subsequent year. Failure to meet the rate floor will result in forfeiture of the high-cost support that the

carrier would have otherwise received for that year.³ On March 20, 2014, the FCC released the results of its urban rate floor survey that established the 2014 rate floor of \$20.46 and also sought comment on a petition to extend the deadline for compliance with the 2014 rate floor.⁴ On June 10, 2014, the FCC issued an order on reconsideration that modified the schedule for imposition of rate floor penalties and allowed for a phase-in of the residential floor.⁵ The revised schedule allowed for a four-year period to meet the rate floor of \$20.46.⁶ The first phase of the modified schedule required that the residential rates of companies be no lower than \$16.00 beginning December 1, 2014.

The Commission is cognizant that Ballard's ability to receive High Cost Loop Support ("HCLS") will be jeopardized if its rates for basic local exchange service are not at or above the \$16.00 rate floor mandated in the FCC's ICC/USF Order. The loss of HCLS would necessitate even larger rate increases in the future to offset loss of federal funding.

Ballard is a rural incumbent local exchange carrier serving individuals and businesses within all of Ballard County and the western part of McCracken County, Kentucky ("Service Territory"). Ballard was established in 1951 as a member-owned cooperative to provide local telephone service to business and individual customers

within the exchanges of Bandanna, LaCenter, Barlow, Wickliffe, Gage, Heath, and Kevil. Ballard provides service to approximately 3,639 residential lines and 979 business lines. Ballard is an eligible telecommunications carrier in the communities it serves and is also the carrier of last resort (“COLR”) in its Service Territory. In 2013, Ballard received approximately \$833,388 from the HCLS to support its COLR responsibilities in its Service Territory.

Prior to increasing its rates in 2012,⁷ and 2013,⁸ to meet the rate floor, Ballard has not had a general rate increase since 1976 and states it would not otherwise make this filing if not for the FCC’s ICC/USF Order. Ballard has provided ample notice to its members and is fearful that the increase will result in service abandonment. Because Ballard’s rates are below the December 1, 2014 rate floor established by the FCC, Ballard had to increase its rate in order to avoid a loss of HCLS. Based on its current access line count, failure to meet the FCC’s \$16.00 rate floor would deprive Ballard of approximately \$87,336 in HCLS to which the company would otherwise be entitled. To meet the \$16.00 residential rate floor established by the FCC, Ballard proposes to increase its residential service rate by \$2.00, which will produce an annual increase in revenue of approximately \$87,336.

Additionally, as part of the FCC’s ICC/USF Order, the FCC established that the intercarrier compensation collected in 2011 fiscal year, from October 1, 2010, to September 30, 2011, was the maximum amount of allowed revenues from intercarrier

⁷ Ballard increased its rates in 2012 to meet the \$10.00 residential rate floor, TFS2012-00304, Effective June 1, 2012.

⁸ Ballard increased its rates in 2013 to meet the \$14.00 residential rate floor. Case No. 2013-00190, In the Matter of Tariff Filing of Ballard Rural Telephone Cooperative Corporation, Inc. (Ky. PSC Mar. 26, 2014)

compensation. In addition, the FCC's ICC/USF Order established a phase-down schedule of those maximum amounts allowed, requiring that the maximum intercarrier compensation amount be reduced by 5 percent for the 2012 fiscal year and 4.75 percent for the 2013 fiscal year. With this change, Ballard cannot collect more than the maximum intercarrier compensation revenue amount established by the FCC. The reduction in intercarrier compensation has grown larger each fiscal year,⁹ and when this reduction in revenue is combined with the increase in revenue from the proposed rate increase, Ballard's revenue will be lower than its level prior to the FCC's ICC/USF Order.

The Commission also notes that the telecommunications market has gone through and continues to go through major changes. The General Assembly has enacted significant changes to the authority of the Commission in light of competitive choices and options available to consumers.¹⁰ For example, the Commission has jurisdiction only over basic service rates of telecommunication companies, which includes only a single business or residential service line.¹¹ All other retail rates of the telecommunications companies are not subject to the Commission's rate regulation. The Commission also notes that in the case of Ballard, it is a cooperative organization subject to the board of directors of the cooperative and its member owners.

The Commission finds that, based on the foregoing information submitted by Ballard and the potential loss of high-cost support, the rate increase should be granted

⁹ Application of Ballard Rural Telephone Cooperative Corp., Confidential Exhibit 1, filed October 23, 2014.

¹⁰ KRS 278.541–544.

¹¹ KRS 278.541(1).

Ballard has demonstrated that the proposed rate increase is necessitated by the FCC's ICC/USF Order and is reasonable.

IT IS THEREFORE ORDERED that:

1. Ballard's proposed increases in basic local exchange residential and business service rates, as set forth in the tariffs attached to its application filed Oct. 23, 2014, are approved.

2. Within 20 days of the date of this Order, Ballard shall file, using the Commission's electronic Tariff Filing System, its revised tariff sheets containing the rates approved herein and signed by an officer of the utility authorized to issue tariffs. The tariff sheets shall reflect that they were approved pursuant to this Order, and shall contain an effective date of November 30, 2014.

3. Any future increases to basic local exchange rates necessitated by the FCC's ICC/USF Order shall be filed as an application in compliance with Commission regulations.

By the Commission
