When applicable, the requested information shall be separately provided for total utility operations and jurisdictional operations. 1. The *Annual Report of Middletown Waste Disposal, Inc., to the Public Service Commission for Year Ended December 31, 2013* ("2013 Annual Report") at page 13 of 44 does not contain an end of year balance amount for customer deposits. With regard to customer deposits, please answer the following:

- a. Confirm that MWD does not hold any customer deposits.
- b. If MWD holds any customer deposits, state whether MWD will refund the deposits that it holds, transfer the deposited funds to MSD, or apply or

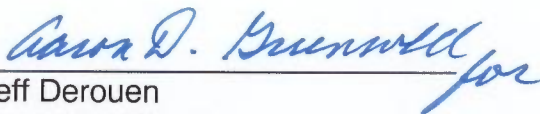

transfer the funds to another use. If MWD plans to apply or transfer the funds to another use, then identify the other use.

2. Refer to the Joint Application, page 3. It states that in order to treat the wastewater from the newly acquired collection system, MSD must divert the flows from the MWD treatment plant. Describe how wastewater flow in the existing MWD system will be conveyed to the treatment facilities in the MSD system. Include with the description a schematic which depicts any physical connections to be made between the existing MWD system and the MSD system.

3. Upon completion of the transfer, state what rates will be charged to current MWD customers.

a. If the rates to be charged are current MSD rates, provide a schedule that shows the current rates charged to MSD customers.

b. The current flat rate for a single-family residential customer is \$19.89 per month. If the rates to be charged are higher than the current flat rate, state whether MWD has provided notice of the potential increase in rates associated with this application. If so, provide a copy of the notice(s).
