SURCHARGE)	

ORDER

On March 31, 2020, Louisville Gas and Electric Company (LG&E) filed an application requesting approval of its 2020 Environmental Compliance Plan (2020 Plan) and amendments to its Environmental Cost Recovery Surcharge tariff to reflect its 2020 Environmental Compliance Plan. LG&E asserts that the projects included in its 2020 Plan are required by the United States Environmental Protection Agency's 2015 Effluent Limitations Guidelines (ELG) Rule and that such costs are properly recoverable under KRS 278.183. LG&E's proposed 2020 Environmental Compliance Plan includes an ELG water treatment system and a wastewater diffuser at Mill Creek Generating Station (collectively, Project 31) and the construction of an ELG water treatment system at Trimble County Generating Station (Project 32). LG&E asserts that Certificates of Public Convenience and Necessity are not necessary for the systems contained in its 2020 Plan.

Having reviewed LG&E's application, the Commission finds that an investigation will be necessary to determine the reasonableness of the request. To provide for orderly consideration of this application, the Commission further finds that a procedural schedule should be established in this case.
