ORDER

On March 1, 2021, Big Rivers Electric Corporation (BREC) filed a motion, pursuant to 807 KAR 5:001, Section 13, KRS 61.878, and KRS 278.160(3), requesting that the Commission grant confidential treatment for designated material in its application. BREC requested confidential treatment for an indefinite period for the terms of special contracts, bid information, and generation system maps and design drawings. BREC further requested confidential treatment for five years for BREC's capacity position, projection of fuel and operating and maintenance costs, and energy and capacity price projections.

In support of its motion, BREC asserted that public disclosure of the generation system maps and design drawings is prohibited by KRS 61.878(1)(m) because public disclosure would have a reasonable likelihood of threatening public safety by providing the public with information to analyze vulnerabilities in BREC's system. BREC further asserted that the terms of the special contracts are exempt from public disclosure in accordance with KRS 278.160(3), which prohibits public disclosure of special contract terms containing rates and conditions of service that are not filed in a utility's general

schedule and would otherwise be entitled to confidential treatment under KRS 61.878(1)(c)(1). BREC explained that the special contracts relate to power sales contracts previously granted confidential treatment by the Commission¹ or that are pending,² and are not filed in BREC's general schedule. Finally, BREC asserted that public disclosure of the cost and price projections would result in commercial injury to BREC by hindering BREC's ability to negotiate the maximum price of power sold and to keep the cost of production as low as possible.

Having considered the motion and the material at issue, the Commission finds that the designated material is generally recognized as confidential or proprietary; it therefore meets the criteria for confidential treatment and is exempted from public disclosure pursuant to 807 KAR 5:001, Section 13, KRS 61.878(1)(c)(1), KRS 61.878(1)(m), and KRS 278.160(3).

IT IS THEREFORE ORDERED that:

1. BREC's motion for confidential treatment is granted.
2. The terms of special contracts, bid information, and generation system maps and design drawings granted confidential treatment by this Order shall not be placed in the public record or made available for public inspection for an indefinite period or until further Order of this Commission.

3. BREC's capacity position, and cost and price projections granted confidential treatment by this Order shall not be placed in the public record or made available for public inspection for a period of five years or until further Order of this Commission.

4. Use of the designated material granted confidential treatment by this Order in any Commission proceeding shall comply with 807 KAR 5:001, Section 13(9).

5. BREC shall inform the Commission if the designated material granted confidential treatment by this Order becomes publicly available or no longer qualifies for confidential treatment.

6. If a nonparty to this proceeding requests to inspect the material granted confidential treatment by this Order and the period during which the material has been granted confidential treatment has not expired, BREC shall have 30 days from receipt of written notice of the request to demonstrate that the material still falls within the exclusions from disclosure requirements established in KRS 61.878. If BREC is unable to make such demonstration, the requested material shall be made available for inspection. Otherwise, the Commission shall deny the request for inspection.

7. The Commission shall not make the requested material available for inspection for 30 days from the date of service of an Order finding that the material no longer qualifies for confidential treatment in order to allow BREC to seek a remedy afforded by law.
