ORDER

On July 16, 2021, Kentucky Rural Water Association (KRWA) filed an application for approval and accreditation of a training program scheduled to take place on August 24, 2021, and August 25, 2021, as part of KRWA's Annual Conference, to be held at the Galt House Hotel in Louisville, Kentucky, pursuant to KRS 74.020(6) and (7) and 807 KAR 5:070. The program is entitled *Water Commissioner Training* (Training Program). Having reviewed KRWA's request and being otherwise sufficiently advised, the Commission approves the program to satisfy the six hours of training described by KRS 74.020(6) and KRS 74.020(7), subject to the conditions discussed herein. KRWA did not request that the Training program be approved and accredited to satisfy any portion of the 12 hours of initial training for newly appointed commissioners required by KRS 74.020(8).

DESCRIPTION OF TRAINING PROGRAM

The Training Program will be conducted in person at the Galt House Hotel on August 24, 2021, and August 25, 2021. The Training Program will consist of the following sessions:

1. Asset Management Dashboards: Presented by Dustin Horn and Rusty Anderson of KRWA (1 session, 1 hour). This session discusses the potential for asset management improvements through utilization of GIS technology. The session will also include a live demonstration of tools developed by KRWA for its members.

2. PSC Regulation of Municipal Utility Wholesale Rates: Presented by Gerald Wuetcher, Stoll Keenon Ogden (2 sessions, 2 hours). This session provides an overview of PSC regulation of wholesale rates – including discussion of recent decisions. The session also discusses the procedure for rate reviews and how utilities can use PSC proceedings to address wholesale rate increases.

3. Developing New Normals in an Ever-Changing Environment: Presented by John Dix, KRWA President and David Peterson, NRWA Executive Board (1 session, 1 hour). This session provides an overview of regulatory and legal changes brought about by the pandemic.

4. Energy and Environmental Issues: Presented by Rebecca Goodman, Secretary of Energy & Environmental Cabinet (1 session, 30 minutes). This session provides an update on recent developments at the Energy & Environmental Cabinet.

5. PSC Utility Regulatory Issues Update: Presented by Linda Bridwell, Executive Director of PSC (1 session, 30 minutes). This session will address regulatory issues facing utilities and also explain emergency orders issued by the Commission in response to the pandemic.

The presenters noted above include Dustin Horn and Rusty Anderson, GIS/Mapping experts at KRWA; attorneys from Stoll Keenon Ogden, PLLC who regularly practice before the Commission; John Dix, the president of KRWA; David Peterson,

member of the National Rural Water Association executive board; Secretary Rebecca Goodman of the Kentucky Energy and Environmental Cabinet; and Linda Bridwell, executive director of the Kentucky Public Service Commission. KRWA provided detailed PowerPoint slides and resources for each session that relate to the stated topics, and they indicated that copies of the slides would be provided to participants of the training.

DISCUSSION

KRS Chapter 74 authorizes the creation of water districts for the purpose of operating drinking water facilities and wastewater treatment and collection facilities. Water districts organized under KRS Chapter 74 must be administered by a board of commissioners that shall control and manage the affairs of the district.¹ KRS 74.020(8) requires each newly appointed water district commissioner to complete 12 instructional hours of training regarding the laws governing the management and operation of water districts, and other subjects as determined appropriate by the Commission within 12 months of the commissioners' initial appointment.² KRS 74.020(6) and (7) encourage water district commissioners who are not serving in their first year to complete six instructional hours of "water district management training approved by the Public Service Commission" in each additional calendar year by allowing the commissioners to receive a raise if they complete that training each year.

KRWA indicates that it is seeking to have the Training Program approved to satisfy six hours of annual training necessary for water district commissioners to satisfy KRS 74.020(6) and (7), but is not seeking to have it approved to satisfy the initial training

¹ See KRS 74.020(1).

² KRS 74.020(8)(b) (discussing the training requirements for new water district commissioners).

requirements of KRS 74.020(8). The Commission has discretion in approving “water district management training” offered by third parties to satisfy the six hours of subsequent training described in KRS 74.020(6) and (7) if it determines that the programs are “high quality” and will “enhance a water district commissioner's understanding of his or her responsibilities and duties.”³ However, third parties applying for approval of a proposed water district commissioner training program must file their applications, including a detailed description of the program, a description of the qualifications of any presenters, and a copy of the written materials to be distributed at the program among other things, 30 days prior to the first date on which the program is to be offered.⁴

KRWA provided the information required by 807 KAR 5:070 and the Commission’s Order in Case No. 2018-00085 in a timely manner. The Training Program also covers topics that will be relevant and useful to water district commissioners. Moreover, the presenters appears to have knowledge of the topics they intend to discuss, and based on a review of the materials provided, the Training Program appears to be well developed and of a high quality. Thus, the Commission finds that the Training Program will provide water district commissioners relevant and useful knowledge that will enhance the quality, management, operation or maintenance of the water systems they operate and, therefore, will conditionally approve the Training Program to satisfy the training requirements set forth in KRS 74.020(6) and (7) or a portion thereof.

³ See KRS 74.020(7)(c) (stating that the Commission “shall encourage and promote the offering of high quality water district management training programs that enhance a water district commissioner's understanding of his or her responsibilities and duties”).

⁴ Case No. 2018-00085, *Review of Training Required and Authorized by KRS 74.020 for the Commissioners of Water Districts* (Ky. PSC Mar. 15, 2018), Order at 4–5.

IT IS THEREFORE ORDERED that:

1. KRWA's Training Program scheduled to take place on August 24, 2021, and August 25, 2021, is hereby conditionally approved and accredited for up to six hours of annual water district management training for water district commissioners seeking to satisfy training requirements set forth in KRS 74.020(6) and (7).

2. KRWA's Training Program may not be used by water district commissioners seeking to satisfy any portion of the initial training requirement for water district commissioners required by KRS 74.020(8).

3. KRWA shall retain a record of all water district commissioners attending the Training Program.

4. No later than 30 days after each scheduled offering of the Training Program, KRWA shall file with the Commission:

a. A sworn statement attesting that the accredited instruction was performed, including a statement that the materials regarding each session were distributed as required by the Commission herein;

b. A description of any changes in the presenters or proposed curriculum that occurred after the application;

c. The name of each attending water district commissioner, his or her water district, and the number of hours that he or she attended; and

d. A copy of any written material given to water district commissioners attending the sessions that was not previously provided to the Commission.

5. Upon receipt of the materials identified in paragraph 4 and provided there are no material changes to the program, the Commission shall issue a final Order approving and accrediting the Training Program.

6. KRWA shall permit a representative of the Commission to attend the Training Program at the Commission's discretion, without charge, to assess compliance with this Order or the quality of instruction or for any other purpose deemed necessary by the Commission.
