Kentucky Pioneer Energy, Case No. 2002-00312

Date: September 8, 2003

Re: Your Memorandum Dated 5 September

For the record, I had called Judge Drew Graham simply to schedule an informal meeting to discuss the Kentucky Pioneer Energy project. Judge Graham preferred to include the full Fiscal Court and scheduled the meeting for 9/24/03 at 9:30 a.m.

I was surprised to hear that this simple scheduled meeting, organized between two parties who did not attend the August 22nd Siting Board hearing, could be twisted and mangled to the point of cancellation by the Siting Board Hearing events. This does not speak well for the ability to conduct a fair and objective process, which should encourage and enable the parties to communicate with each other.

Kentucky Pioneer Energy has fulfilled all of the requirements necessary to receive a Siting Board Certificate as certified by your own consultant, Jason Associates, and as per the Statute. The project remains 100% committed to fulfilling all of the commitments required and certified in the Siting Board process including compliance with all local planning and zoning rules in effect when the Siting Board Application was filed.
