IF WE ARE GOING TO SPEND THE

Comment No. 1

Issue Code: 16

Comment noted. The relatively small amounts and generally widely dispersed nature of MSW in Kentucky does not economically support exclusive utilization of Kentucky-generated MSW to produce RDF supplies. Importing RDF from a densely populated metropolitan area is more economically viable in order to supply the necessary amount of RDF required to operate the plant. The issue of the Nation's funds are beyond the scope of the EIS.

Comment No. 2

Issue Code: 22

Comment noted. The issue of alternate power sources are outside the scope of the EIS.
