MOTION TO DEVIATE

Comes Clark Energy Cooperative, Inc. (hereinafter "Clark Energy"), by counsel and Moves the Public Service Commission to permit Clark Energy to submit a CD instead of paper copies containing voltage drop reports as a part of Clark Energy's application for certificate of convenience and necessity. In support of this Motion, counsel for Clark Energy states that due to the large quantity of paper copies involved, 8,474 pages, a CD bookmarked and searchable PDF images would be the most practical method of supplying this information. Todd Peyton, Clark Energy's Manager of Engineering has certified that the information on the CD is a true, accurate and complete representation of the original documents.
