"To Whom it may Concern"

I am strongly opposed to the Kentucky Utilities rate increase because, I feel the Kentucky Utilities is inefficient run Company.

They employ the Asphurl tree trimming Co. from Nicholasville, Ky. they do very little work on the job sit in their truck two hours at a time. Some workers dont seem to have the ability to operate the equipment.

They barely trim limbs under the lines and at the same time cut trees away from the lines. such workers as these are a waste of money to the Kentucky Utilities Customers and therefore Kentucky Utilities doesnt deserve a rate increase.

Yours truly,

Joe M. Birkhead
