RE: Case No. 2004-00056

Dear Ms. Talley:

In response to your inquiry date June 8, 2005 concerning the status of the above project. The project is near completion at this time. The District was of the understanding that your engineer was handling the necessary requirements of notifying the PSC of the projects progression. As I stated earlier the project has been installed per the plans, with modification, and the final cleanup should be done in a couple of weeks. The project began April 12, 2004 and should be completed by July 1, 2005. I do not know when the final "as built plans" will be available.

If there are any questions please contact me.

Sincerely,

Eddie A Chinn, Supt
BCWD
