My sister, Anita Harden, and I own property in Ballard County, LaCenter, Kentucky, on State Road 310 west of State Road 358. We received a notice from the Pike Legal Group indicating that a proposed cellular tower site is within a 500-foot radius of our property or our property is contiguous to the property on which the tower is to be constructed. The notice indicated that we could obtain additional information concerning this matter by contacting your office.

We are concerned that there may be safety or environmental hazards and/or interference associated with the wireless communications tower. Such hazards and/or interference could result in a negative impact on the value of our property. We would like to receive information regarding your assessment of this issue.

We would also like to receive a more descriptive (to scale) map showing the tower site in relationship to our property.

You may contact me by mail, phone, fax, or e-mail as shown above.

Thank you for your assistance,

PERCY L. HARDEN
