COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF SOUTHEASTERN WATER ASSOCIATION, INC., PULASKI, COUNTY, KENTUCKY, (1) FOR A CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY AUTHORIZING CONSTRUCTION OF MAJOR ADDITIONS AND IMPROVEMENTS TO ITS WATER DISTRIBUTION SYSTEM; (2) SEEKING APPROVAL OF REVISED WATER SERVICE RATES AND CHARGES; AND (3) SEEKING APPROVAL OF THE PROPOSED PLAN OF FINANCING, PURSUANT TO THE PROVISIONS OF KRS 278.023 AND 807 KAR 5:069.	)	CASE NO. 2004-00312

** *** **** ******* **** *** **

The Applicant, **SOUTHEASTERN WATER ASSOCIATION, INC.**, (the "Association") situated in Pulaski County, Kentucky, acting by and through its Board of Directors, respectfully tenders this Application and requests that the Public Service Commission of Kentucky (the "Commission") enter its Order, pursuant to KRS 278.023 and 807 KAR 5:069, (1) issuing a Certificate of Public Convenience and Necessity authorizing the Association to construct major additions and improvements to its water system (the "Project") for the purpose of furnishing an adequate supply of pure and potable water for domestic, agricultural

and commercial use in the area served by the Association; (2) approving the adjustment of water rates and charges to be levied and collected by the Association; (3) and approving the proposed plan of financing said Project. In support of this Application, and in conformity with the regulations of the Commission, the Association states as follows:

1. The Association is a non-profit corporation which was organized and established on December 17, 1993, pursuant to the provisions of KRS Chapter 273. The Association was created as a result of the merger of the following water associations: Barnesburg, Elihu-Rush Branch, Nelson Valley, and Tatesville pursuant to the February 22, 1988 Order of the Commission in PSC Case No. 9967. The Association is now, and has been since its inception, regulated by the Commission. All records and proceedings of the Commission with reference to the Association are incorporated into this Application by reference. A certified copy of the Articles of Incorporation (Consolidation) of the Association is attached hereto and incorporated herein by reference as **EXHIBIT 1**.

2. The mailing address of the Association is:

Southeastern Water Association, Inc.
147 East Somerset Church Road
Somerset, Kentucky 42503

ATTENTION: Morris Vaughn, General Manager
TELEPHONE: (606) 678-5501

3. The governing body of the Association is its Board of Directors. The present members of the Board of Directors, and their respective offices, are as follows: Joe Richards, I, President; Harvey Phelps, Vice-President; Ernest Stout, Jr., Secretary-Treasurer; Wade Bumgardner, Director; Joe Dale Crawford, Director; Bobby Crowe, Director; Mark Davis, Director; and Joe Richards, II, Director.

4. The Project consists of the installation of approximately 33 miles of 8 to 3 inch water distribution lines. The Project will provide new water service to approximately 191 additional customers.

5. The Project cost is $3,124,000. The Association proposes to finance the construction of the Project through a loan from the United States of America, acting by and through the U.S. Department of Agriculture, Rural Development (the "USDA-RD"). The loan is in the amount of $1,833,000. It will be for a 40 year period with an interest rate not to exceed 4.5%. The balance of the Project cost will be funded by a USDA-RD grant in the amount of $1,190,000 and connection fees totalling $101,000. The financing sources are as follows:

RD Loan	$1,833,000.
RD Grant	1,190,000.
Connection Fees	101,000.
TOTAL:	$ 3,124,000.

6. The Association has entered into an agreement with the USDA-RD which sets forth the specific terms and conditions for obtaining the loan and grant. The Letter of Conditions, which contains these terms and conditions, is attached hereto and incorporated herein by reference as **EXHIBIT 2.**

7. The schedule setting forth the water rates and charges required by the USDA-RD is contained in paragraph 25 of the Letter of Conditions.

8. The Association's consulting engineers, Kenvirons, Inc, Frankfort, Kentucky (the "Engineers"), have prepared a Preliminary Engineering Report and a Final Engineering Report, as well as detailed plans and specifications, for the construction and installation of the Project. The Preliminary Engineering Report and the Final Engineering Report are attached hereto and incorporated herein by reference as **EXHIBITS 3 and 4**. **EXHIBITS 3 and 4** contain, among other things, a description of the Project, cost figures and other pertinent financial data and projections, data justifying the proposed rate schedule, and proposed plans for the financing of the Project. A map showing the location and routes of the various water lines included in the Project is attached as **EXHIBIT 10** .

9. It is the opinion of the Board of Directors of the Association that the public health, safety and general welfare of the citizens and inhabitants of the area served by the Association will be promoted and served by the construction of the Project and the proposed method of financing the Project.

10. The Association has caused public advertising to be made according to law soliciting competitive bids for the construction and installation of the Project; has received, opened and considered the construction bids; and has received data prepared by the Engineers showing the bids received and the recommendation of the Engineers with respect thereto. The Engineers' bid tabulations and best bid recommendations are attached hereto and incorporated herein by reference as **EXHIBITS 5 and 6**.

11. The USDA-RD has approved the Association's proposed award of the best bids as evidenced by the Letter of Concurrence in Bid Award dated June 22, 2004, which is attached hereto and incorporated herein by reference as **EXHIBIT 7**.

12. Attached hereto and incorporated herein by reference as **EXHIBIT 8** is a certified statement from the President of the Association, based upon the statements, representations, and professional opinions of the Engineers for the Association, concerning the following:

A. The proposed plans and specifications for the Project have been designed to meet the minimum construction and operating requirements set out in 807 KAR 5:066, Section 4 (3) and (4); Section 5 (1); Sections 6 and 7; Section 8 (1) through (3); Section 9 (1) and Section 10;

B. All other state approvals or permits have already been obtained;

C. The proposed rates of the Association shall produce the total revenue requirements set out in the engineering reports; and

D. Setting out the dates when it is anticipated that construction will begin and end.

13. The Association does not contemplate having the Project constructed with any deviation from minimum construction standards or operating conditions of the Commission.

14. The proposed adjusted water rates and charges of the Association are set forth in paragraph 25 of the Letter of Conditions (**EXHIBIT 2**) and in the Notice of Adjustment of Water Rates which is attached hereto and incorporated herein by reference as **EXHIBIT 9**.

15. The Association has arranged for the publication, prior to or at the same time this Application is filed, of a Notice of Adjustment of Water Rates pursuant to Section 2 of 807 KAR 5:069 in The Commonwealth Journal, Somerset, Kentucky, which is the newspaper of general circulation in the Association's service area. This Notice sets out the current rates and the proposed

rates of the Association and a brief description of the Project. A copy of the newspaper clipping and an Affidavit of Publication evidencing publication in the newspaper will be submitted to the Commission promptly upon receipt thereof.

16. The Association plans to use any contingency funds remaining after construction of the Project to make additional water system improvements. These improvements will be made with the approval and under the supervision of the USDA-RD.

17. The Association respectfully represents to the Commission that there is a genuine need and demand for the Project.

WHEREFORE, the Applicant, the Southeastern Water Association, Inc., respectfully requests the Commission to issue the following:

A. A Certificate of Public Convenience and Necessity authorizing the construction and installation of the Project;

B. An Order approving the proposed plan of financing which consists of a loan in the amount of $1,833,000, at a rate not to exceed 4.5%, which will be provided by the USDA-RD; and

C. An Order approving the proposed schedule of water service rates and charges as set forth in the Letter of Conditions filed herewith as **EXHIBIT 2.**

Respectfully submitted,

SOUTHEASTERN WATER
ASSOCIATION, INC.

KNOWN ALL MEN BY THESE PRESENTS:

That we, whose names are to subscribed, acting as incorporators for the purpose of forming a non profit corporation under the provisions of Chapter 273 of the Kentucky Revised Statutes, assuming and claiming all powers, rights, privileges and immunities granted or permitted bodies corporation under said laws, and do hereby adopt the following Articles of Consolidation and set forth the following plan of consolidation.

ARTICLE I

PLAN OF CONSOLIDATION

Pursuant to KRS 74.361, 273.281 and an Order of the Public Service Commission of Kentucky dated February 22, 1988 in Case NO. 9967, the boards of the directors of the corporations enumerated below do hereby set forth their plan of consolidation as required by KRS 273.281 and affirmatively state as follows:

1. The identities of the corporations to be consolidated are: Elihu Tateville Water Association, P.O. Box 722, Somerset, Kentucky 42502, and Nelson Valley Water Association, P.O. Box 910, Somerset, Kentucky 42502.

2. The name and address of the new corporation is to be Southeastern Water Association Inc., P.O. Box 722, Somerset, Kentucky 42502.

3. Pursuant to an Order of the Public Service Commission and after an affirmative vote by the membership of each consolidating corporation, the consolidating corporations shall cease to exist and the new corporation will assume and claim all powers, rights, privileges and immunities granted or permitted by law, and previously held and adopted by the consolidating corporations and subject to all the duties and liabilities of a corporation organized under the provisions of KRS Chapter 273.

4. The assets and liabilities of the consolidating corporations shall be merged to the extend allowed by law with the exception that outstanding obligations of the consolidating corporations which are secured by a pledge of the income and revenues of the systems operated by each of them shall continue to be retired from such money and funds as shall be collected from the users of facilities operated by such consolidated corporations in the original area served in accordance with the terms and provisions of KRS 74.361(5) and the authorizing resolutions or indentures under which the outstanding obligations were issued, until all such obligations have been retired by payment, debt consolidation or re-issuance.

5. The existing board of directors of each consolidating

corporations shall serve on the board of the new corporation until such time as the first annual election of directors to be held no later than 120 days from the filing of these articles. Thereafter, the number and terms of directors shall be governed by the provisions of Articles IX herein.

6. On April 12, 1993, at a annual meeting of the members of Elihu Tateville Water Association, duly held in accordance with KRS Chapter 273 and the Articles of Incorporation and Bylaws of Elihu Tateville Water Association, a quorum having been present and the plan of consolidation receiving two thirds votes of those present or by proxy voting, the above Plan of Consolidation was duly adopted.

7. On March 1, 1993, at a annual meeting of the members of Nelson Valley Water Association, duly held in accordance with KRS Chapter 273 and the Articles of Incorporation and Bylaws of Nelson Valley Water Association, a quorum having been present and the plan of consolidation receiving two thirds votes of those present or by proxy voting, the above Plan of Consolidation was duly adopted.

ARTICLE II

NAME

The name of this corporation shall be SOUTH EASTERN WATER ASSOCIATION INC..

ARTICLE III

REGISTERED OFFICE AND AGENT

The registered office of the corporation shall be at Somerset, County of Pulaski, State of Kentucky; the registered agent at such address is Kenneth D. Morrow Manager

NAME TITLE

1851 West Hwy. 80 Somerset, Kentucky 42501.

ADDRESS CITY/STATE/ZIP

ARTICLE IV

PURPOSE

The purpose of said corporation shall be to establish, develop and operate a complete water supply and distribution system by purchase, development, or otherwise to construct reservoirs or water towers, erect pumping machinery lay water mains, pipes and hydrants; to furnish and sell water to members of the corporation, public bodies and local businesses, for fire protection, drinking and general farm and domestic use and collect payment for rental or sale of same and doing all things necessary, convenient and incidental thereto.

ARTICLE V

SEAL

This corporation shall have a seal, which shall contain the corporate name, Kentucky, and the words "corporate seal."

ARTICLE VI

POWERS

The corporation shall have all powers provided by law.

ARTICLE VII

MEMBERSHIP

Persons may become members of the corporation as provided in the By-Laws.

DURATION

The corporation shall be of perpetual duration.

ARTICLE IX

BOARD OF DIRECTORS

1. The affairs of this corporation shall be managed by a board of seven directors to be elected by and from the members thereof and shall serve for three years and until their successors are elected. The size of the Board may not be changed except by amendment to these articles. At the first annual election, two directors shall be elected for a term of one year; two directors shall be elected for a term of two years; three directors shall be elected for a term of three years. Thereafter, directors shall be elected for a term of three years.

2. If the office of any director become vacant by reason of death, resignation, retirement, disqualification or otherwise, except removal from office, a majority of the remaining directors thought not less than a quorum shall, by a majority vote, choose a successor who shall hold office until the next annual meeting of the members of the corporation, at which time the members shall elect a director for the unexpired term, or terms.

3. A majority of the Directors must be present at a meeting to conduct the business of the corporation.

4. Until the first annual election and as specified in Article I, paragraph 5, the following persons shall be Directors:

NAME	ADDRESS
Keith Dinsmore	180 Strawberry Rd. Somerset, Ky. 42501
Sam Davis	Box 84 S. Hwy. 27, Tateville, Ky. 42558
Joe Richards II	401 Pole Ridge Rd. Somerset, Ky. 42501
Earnest Stout	1466 Stout Hill Tateville, Ky. 42558
V.C. Wallace	Route 7 Box 96 Somerset, Ky. 42501
Valando Taylor	3572 Hwy. 39 Somerset, Ky. 42501
Leamon Colyer	4765 Hwy. 39 Somerset, Ky. 42501
Joe Crawford	777 Stilesville Rd. Science Hill, Ky. 42553
Bobby Crow	3821 East Coleman Rd. Somerset, Ky. 42501

5. The Board of Directors shall have their annual meeting after the annual meeting of members hereinafter provided for, at a time and place to be designated by the President, and will elected from their own number a President, Vice-President, Secretary and Treasurer.

6. The Board of Directors shall have other meetings as provided in the By-Laws.

ARTICLES X

MEETINGS

1. The annual meeting of the members of this corporation for the purpose of electing directors and transacting such other business as may properly come before it at such time, shall be held on the 2nd Monday in April, of each year at the time and place specified by the Board of Directors, notice of meeting may be by letter sent to each member or published in paper as per notice for special meeting.

2. Special meetings of the members of this corporation may be called by the President at any time or place within the county upon publishing in the newspaper of general circulation for three

consecutive weeks. With the first issue to run not more than 35 days prior to the meeting and the last issue to run not less than 10 days prior to the meeting, and such meeting shall be called by him at any time upon written demand of majority of the directors or of any ten (10) members and in case of his neglect or refusal to call such meeting, which shall be the same as though called by the President. If the purpose of the meeting is to amend the articles then the notice of meetings signed by the Secretary shall set forth the proposed amendment in substance. Articles may be amended by a two thirds vote of the members present at such meeting or voting by proxy.

ARTICLE XI

INCORPORATORS

The names and addresses of the incorporators are:

NAME	ADDRESS
Keith Dinsmore	180 Strawberry Rd. Somerset, Ky. 42501

ARTICLES OF MERGER OF SOUTH EASTERN WATER ASSOCIATION, INC. AND BARNESBURG WATER ASSOCIATION, INC.

** ** ** ** **

This is a Plan of Merger of South Eastern Water Association, Inc., a Kentucky non-profit corporation, and Barnesburg Water Association, Inc., a Kentucky non-profit corporation, prepared pursuant to the provisions of KRS 273.287. Barnesburg Water Association, Inc., is sometimes herein referred to as the "acquired corporation." South Eastern Water Association is sometimes hereinafter referred to as the "surviving corporation."

Neither the surviving corporation nor acquired corporation has members entitled to vote of the merger. The plan of merger as contained in these articles of merger were approved at a meeting of the board of directors of Barnesburg Water Association, Inc., held October 14, 1996 and the merger was approved by the Board of Directors of South Eastern Water Association, Inc., at a board of directors meeting held on October 14, 1996. The plan received the unanimous vote of the directors of both corporations in attendance at the meeting and a quorum of each board was present at the respective meetings.

A. THE PLAN OF MERGER:

1. Names: The names of the corporations proposing to be merged are South Eastern Water Association, Inc. and Barnesburg Water Association, Inc. Barnesburg Water Association, Inc., the acquired corporation, proposes to merge into South Eastern Water Association, Inc., the surviving corporation.

B. TERMS AND CONDITIONS:

The terms and conditions of the proposed merger and the mode of carrying it into effect are as follows:

1. The acquired corporation shall merge into the surviving corporation in a manner and with the effect provided by the statutes of Kentucky.

2. The merger shall be effective as of the date of filing of the Articles of Merger with the Kentucky Secretary of State.

3. On the effective date, the acquired corporation shall merge into the surviving corporation, the separate corporate existence of the acquired corporation shall cease, and South Eastern Water Association, Inc., shall continue as the surviving corporation. The address of the surviving corporation of the South Eastern Water Association, Inc., 147 East Somerset Church Road, Somerset, Kentucky 42503.

4. The surviving corporation shall assume all powers, rights, privileges and immunities granted or permitted by law, previously held and adopted by the acquired corporation and subject to the duties and liabilities of the corporation organized under the provisions of KRS Chapter 273.

5. The assets and liabilities of the acquired corporation shall be merge to the extent allowed by law, with the exception that outstanding obligations of the acquired corporation and the surviving corporation shall continue to be retired from such money and funds as shall be collected from the facilities operated by each such corporation in the original area served in accordance with the terms and provisions of KRS 74.361(5) as made applicable by KRS 74.361(9) and the authorizing resolution or indenture under which the outstanding obligations

were issued, until all of the obligations had been retired by payment, debt consolidation or reissuance.

6. The existing Board of Directors of South Eastern Water Association, Inc., along with two (2) directors of Barnesburg Water Association, Inc., being the president and vice president, shall serve on the board of the surviving corporation until such time as the annual election of directors to be held no more than two hundred (200) days from the filing of these articles. Thereafter, the number and term of the directors shall be governed by the provisions of Article VIII of the bylaws upon proper notice as indicated in the bylaws. The bylaws of South Eastern Water Association, Inc. shall be amended accordingly and said amended bylaws shall be the bylaws of the surviving corporation.

C. BOARD OF DIRECTORS:

Until the first annual election of the board of directors as specified herein, the following persons shall serve as directors:

Joe Richards, Sr.,	3735 Rush Branch Road, Somerset, Kentucky 42501
Sam Davis,	P. O. Box 320, Tateville, Kentucky 42558
Ernest Stout,	230 Stout Hill, Burnside, Kentucky 42519

771 Corporate Drive, Suite 200
Lexington, KY 40503-5477
(859) 224-7336 TTY(859) 224-7422

August 14, 2002

Mr. Joe Richards, President
Southeastern Water Association, Inc.
P.O. Box 778
Somerset, Kentucky 42502

Dear Mr. Richards:

This letter establishes conditions which must be understood and agreed to by you before further consideration may be given to the application. The loan and/or grant will be administered on behalf of the Rural Utilities Service (RUS) by the State and Area office staff of USDA Rural Development. Any changes in project cost, source of funds, scope of services or any other significant changes in the project or applicant must be reported to and approved by USDA Rural Development, by written amendment to this letter. Any changes not approved by Rural Development shall be cause for discontinuing processing of the application. It should also be understood that Rural Development is under no obligation to provide additional funds to meet an overrun in construction costs.

This letter is not to be considered as loan and/or grant approval or as a representation as to the availability of funds. The docket may be completed on the basis of a RUS loan not to exceed $1,833,000 and a RUS grant not to exceed $1,190,000.

If Rural Development makes the loan, the interest rate will be the lower of the rate in effect at the time of loan approval or the rate in effect at the time of loan closing, unless the applicant otherwise chooses. The loan will be considered approved on the date a signed copy of Form RD 1940-1, "Request for Obligation of Funds," is mailed to you.

Please complete and return the attached Form RD 1942-46, "Letter of Intent to Meet Conditions," if you desire that further consideration be given to your application.

The "Letter of Intent to Meet Conditions" must be executed within three weeks from the date of this letter or it becomes invalid unless a time extension is granted by Rural Development.

If the conditions set forth in this letter are not met within 240 days from the date hereof, Rural Development reserves the right to discontinue the processing of the application.

In signing Form RD 1942-46, "Letter of Intent to Meet Conditions," you are agreeing to complete the following as expeditiously as possible:

1. Number of Users and Their Contribution:

There shall be 5,708 water users, of which 5,517 are existing users and 191 are new users contributing $101,000 in connection fees toward the cost of the project. The connection fees will be collected prior to advertising for construction bids and will be placed in the construction account at loan pre-closing, unless spent for authorized purposes prior to loan pre-closing. The Rural Development Manager will review and authenticate the number of users and amount of connection fees prior to advertising for construction bids.

1a. Grant Agreement:

Attached is a copy of RUS Bulletin 1780-12, "Water and Waste System Grant Agreement," for your review. You will be required to execute a completed form at the time of grant closing.

1b. Drug-Free Work Place:

Prior to grant approval, the Association will be required to execute Form AD-1049, "Certification Regarding Drug-Free Workplace Requirements (Grants) Alternative I - For Grantees Other Than Individuals."

2. Repayment Period:

The loan will be scheduled for repayment over a period not to exceed 40 years from the date of the Promissory Note. Principal payment will not be deferred for a period in excess of two years from the date of the Promissory Note. The Association will be required to adopt a supplemental payment agreement providing for monthly payments of principal and interest so long as the Promissory Note is held or insured by RUS.

3. Recommended Repayment Method:

Payments on this loan can be made using the Preauthorized Debit (PAD) payment method. This procedure eliminates the need for paper checks and ensures timely receipt of RD loan payments. To initiate PAD payments, Form SF 5510, "Authorization Agreement for Preauthorized Payments," should be signed by the Association to authorize the electronic withdrawal of funds from your designated bank account on the exact installment payment due date. The Rural Development Manager will furnish the necessary forms and further guidance on the PAD procedure.

4. Funded Depreciation Reserve Account:

The Association will be required to deposit $850 per month into a "Funded Depreciation Reserve Account" until the account reaches $102,000. The deposits are to be resumed any time the account falls below the $102,000.

The required monthly deposits to the Reserve Account and required Reserve account levels are in addition to the requirements of the Association's prior note resolutions.

The monthly deposits to the Reserve Account are required to commence with the first month of the first full fiscal year after the facility becomes operational.

5. Security Requirements:

The loan will be secured by a real estate mortgage, a financing statement, and pledge of gross water revenue, in the Loan Resolution and Financing Statement.

6. Land Rights and Real Property:

The Association will be required to furnish satisfactory title, easements, etc., necessary to install, maintain and operate the facility to serve the intended users. The pipelines will be on private rights-of-way where feasible. Easements and options are to be secured prior to advertising for construction bids.

7. Organization:

The Association will be legally organized under applicable KRS, which will permit them to perform this service, borrow and repay money.

8. Business Operations:

The Association will be required to operate the system under a well-established set of resolutions, rules and regulations. A budget must be established annually and adopted by the Association after review by Rural Development. At no later than loan pre-closing, the Association will be required to furnish a prior approved management plan to include, as a minimum, provisions for management, maintenance, meter reading, miscellaneous services, billing, collecting, bookkeeping, making and delivering required reports and audits.

9. Accounts, Records and Audits:

The Association will be required to maintain adequate records and accounts and submit annual budgets and year-end reports (annual audits) in accordance with 1780.47 of RUS Instruction 1780 and RUS Staff Instruction 1780-4, a copy of which is enclosed.

10. Accomplish Audits for Years in Which Federal Financial Assistance is Received:

The Association will accomplish audits in accordance with OMB Circular A-133, during the years in which federal funds are received. The Association will provide copies of the audits to the Area Office and the appropriate Federal cognizant agency as designated by OMB Circular A-133.

11. Insurance and Bonding:

The following insurance and bonding will be required:

A. Adequate Liability and Property Damage Insurance including vehicular coverage, if applicable, must be obtained and maintained by the Association. The Association should obtain amounts of coverage as recommended by its attorney, consulting engineer and/or insurance provider.

B. Worker's Compensation - The Association will carry worker's compensation insurance for employees in accordance with applicable state laws.

C. Fidelity Bond - The Association will provide Fidelity Bond Coverage for all persons who have access to funds. Coverage may be provided either for all individual positions or persons, or through "blanket" coverage providing protection for all appropriate employees and/or officials. The amount of coverage required for all RUS loans is $399,000.

D. Real Property Insurance - The Association will obtain and maintain adequate fire and extended coverage on all structures including major items of equipment or machinery located in the structures. The amounts of coverage should be based on recommendations obtained by the Association from its attorney, consulting engineer and/or insurance provider. Subsurface lift stations do not have to be covered except for the value of electrical and pumping equipment therein.

E. Flood Insurance - The Association will obtain and maintain adequate coverage on any facilities located in special flood and mudslide prone areas.

12. Planning and Performing Development:

A. The engineer should not be authorized to commence work on final plans and specifications until a determination has been made that the project can be planned and constructed within the estimated cost shown in paragraph "22" of this letter. The engineer may then proceed to develop final plans and specifications to be completed no later than 210 days from this date, and prepare bid documents. The Rural Development Manager is prepared to furnish the necessary guide for him to follow so as to keep the project plans and documents within our guidelines and requirements. The project should not be advertised for construction bids until all easements and enforceable options have been obtained, and total funds are committed or available for the project.

B. The following documents will be submitted to Rural Development for review and must be concurred in by Rural Development prior to advertisement for construction bids:

1. Final plans, specifications and bid documents.
2. Applicant's letter on efforts to encourage small business and minority - owned business participation.
3. Legal Service Agreements.
4. Engineering Agreements.

Revision in these documents will be subject to Rural Development concurrence. Any agreements, contracts, etc. not reviewed and approved by Rural Development will not be eligible for payment from project funds or revenues from facilities financed by this Agency.

13. Compliance with Section 504 of the Rehabilitation Act of 1973:

The Association will be required to comply with Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), in order to make sure no handicapped individual, solely by reason of their handicap, is excluded from participation in the use of the water system, be denied the benefits of the water system, or be subjected to discrimination.

14. Closing Instructions:

The Office of General Counsel, our Regional Attorney, will be required to write closing instructions in connection with this loan. Conditions listed therein must be met by the Association.

15. Compliance with Special Laws and Regulations:

The Association will be required to conform with any and all state and local laws and regulations affecting this type project.

16. System Operator:

The Association is reminded that the system operator must have an Operator's Certificate issued by the State.

17. Prior to Pre-Closing the Loan, the Association will be Required to Adopt:

A. Form RD 1942-8, "Resolution of Members or Stockholders."

B. Form RUS Bulletin 1780-28, "Loan Resolution Security Agreement."

C. Form RD 400-1, "Equal Opportunity Agreement."

D. Form RD 400-4, "Assurance Agreement."

E. Form AD-1047, "Certification Regarding Debarment, Suspension, and Other Responsibility Matters - Primary Covered Transaction."

F. Form RD 1910-11, "Applicant Certification Federal Collection Policies for Consumer or Commercial Debts."

G. FmHA Instruction 1940-Q, Exhibit A-1, "Certification for Contracts, Grants and Loans."

The Association must offer the opportunity for all residents in the service area to become users of the facilities regardless of race, creed, color, religion, sex, national origin, marital status, physical or mental handicap or level of income.

18. Refinancing and Graduation Requirements:

The Association is reminded that if at any time it shall appear to the Government that the Association is able to refinance the amount of the RUS indebtedness then outstanding, in whole or in part, by obtaining a loan from commercial sources at reasonable rates and terms, upon the request of the Government, the Association will apply for and accept such loan in sufficient amount to repay the Government.

19. Commercial Interim Financing:

The Association will be required to use commercial interim financing for the project during construction for the RUS loan portion of the financing, if available at reasonable rates and terms.

Before the loan is closed, the Association will be required to provide Rural Development with statements from the contractor, engineer and attorneys that they have been paid to date in accordance with their contract or other agreements and, in the case of the contractor, that he has paid his suppliers and sub-contractors.

20. Disbursement of Project Funds:

A construction account for the purpose of disbursement of project funds (RUS) will be established by the Association prior to start of construction. The position of officials entrusted with the receipt and disbursement of RUS project funds will be covered by a "Fidelity Bond," with USDA Rural Development as Co-Obligee, in the amount of construction funds on hand at any one time during the construction phase.

During construction, the Association shall disburse project funds in a manner consistent with subsection 1780.76 (e) of RUS Instruction 1780. Form RD 1924-18, "Partial Payment Estimate," or similar form approved by Rural Development, shall be used for the purpose of documenting periodic construction estimates, and shall be submitted to Rural Development for review and acceptance. Prior to disbursement of funds by the Association, the Board of Directors shall review and approve each payment estimate. All bills and vouchers must be approved by Rural Development prior to payment by the Association.

Form RD 440-11, "Estimate of Funds Needed for 30-Day Period Commencing _____," will be prepared by the Association and submitted to Rural Development in order that a periodic advance of federal cash may be requested.

Monthly audits of the Association's construction account records shall be made by Rural Development.

21. Disbursement of Grant Funds:

The RUS funds will be advanced as they are needed in the amount(s) necessary to cover the RUS proportionate share of obligations due and payable by the Association. Interest earned on grant funds in excess of $250 (as applicable) per year will be submitted to RUS at least quarterly, as required in 7CFR part 3019 (as applicable).

22. Cost of Facility:

Breakdown of Costs:

Development		$ 2,500,000
Land and Rights		13,000
Legal and Administrative		10,000
Engineering		277,500
Interest		60,000
Contingencies		263,500
	TOTAL	$ 3,124,000

Financing:

RUS Loan		$ 1,833,000
RUS Grant		1,190,000
Applicant Contribution		101,000
	TOTAL	$ 3,124,000

23. Debt Collection Improvement Act (DCIA) of 1996:

The Debt Collection Improvement Act (DCIA) of 1996 requires that all federal payments after January 1, 1999, must be made by Electronic Funds Transfer/Automated Clearinghouse (EFT/ACH). Borrowers receiving payments by EFT will have funds directly deposited to a specified account at a financial institution with funds being available to the recipient on the date of payment. The borrower should complete Form SF-3881, "Electronic Funds Transfer Payment Enrollment Form," for each account where funds will be electronically received. The completed form(s) must be received by Rural Development at least thirty (30) days prior to the first advance of funds.

24. Use of Remaining Project Funds:

The applicant contribution shall be considered as the first funds expended. After providing for all authorized costs, any remaining project funds will be considered to be RUS grant funds and refunded to RUS. If the amount of unused grant funds exceeds the grant, that part would be RUS loan funds.

25. Rates and Charges:

Rates and charges for facilities and services rendered by the Association must be at least adequate to meet cost of maintaining, repairing and operating the water system and meeting required principal and interest payments and the required deposits to debt service and/or depreciation reserve.

Water rates will be at least:

First	2,000	gallons @ $	14.70 - Minimum Bill.
All Over	2,000	gallons @ $	6.25 - per 1,000 gallons.

26. Water Purchase Contract:

The Association will submit a Water Purchase Contract for approval by Rural Development before advertising for construction bids. If the contract is not on Form RD 442-30, "Water Purchase Contract," the contract will require approval by our Regional Attorney. The contract must meet the requirements of subsection 1780.62 of RUS Instruction 1780.

27. Floodplain Construction:

The Association will be required to pass and adopt a Resolution or amend its By-Laws whereby the Association will deny any water service to any future customer wishing to build on or develop property located within a designated floodplain. If a customer or developer requests service for construction in a designated floodplain, the customer or developer must provide evidence and a justification for approval by the Association and Rural Development officials that there are no other alternatives to construction or development within the designated floodplain. The community must be a participant in the National Flood Insurance Program (NFIP) and the customer or developer must obtain the required permits prior to the tap on restrictions being waived.

28. Mitigation Measures:

A. The Association shall be required to comply with the requirements of the Kentucky State Clearinghouse as detailed by letter to Mr. Carlos F. Miller of Kenvirons, Inc., dated April 18, 2002 and signed by Mr. Ronald W. Cook.

B. The Association shall be required to comply with the requirements of the U.S. Fish and Wildlife Service as requested by letter dated March 13, 2002, and signed by Lee A. Barclay, Ph.D., Field Supervisor.

C. The Water District will comply with all applicable executive orders and regulations that are applicable to the preservation of prime farmlands, wetlands, floodplains, and cultural resources.

29. Final Approval Conditions:

Final approval of this loan will depend on your willingness, with the assistance of all your co-workers, to meet the conditions of this letter in an orderly and systematic manner. Then too, final approval will depend on funds being available.

If you desire to proceed with your application, the Rural Development Manager will allot a reasonable portion of time to provide guidance in application processing.

Sincerely,

Vernon C Bruce

PRELIMINARY ENGINEERING REPORT

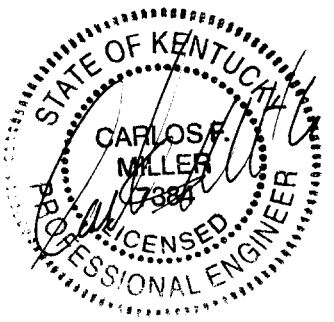
for

SOUTHEASTERN WATER ASSOCIATION

PHASE 2 SYSTEM REINFORCEMENTS AND EXTENSIONS

PROJECT NO. 2000170

JUNE, 2002



6/27/02

INTRODUCTION

The potable water supply for the eastern half of Pulaski County was initially provided by four water utilities beginning in the latter part of the 1960s. The water providers were Nelson Valley, Elihu-Rush Branch, Tateville and Barnesburg Water Associations. Customer growth and system expansion has been significant over the years for all four utilities. The Public Service Commission, in recognition of the advantages of consolidated operation, sought a merger of these four entities into one water association. The merger was accomplished in 1996 consolidating the four utilities into the Southeastern Water Association. The service rates were revised from four separate rates to one system-wide rate. SEWA now operates from a new office facility on East Somerset Church Road.

GEOGRAPHIC LOCATION

Pulaski County is located in southcentral part of Kentucky. The county seat is Somerset which is located near the geographical center of the county. The water association's service area presently comprises the territory from the northern Pulaski-Lincoln County boundary around the east side of Somerset including the eastern half of the county to the southern boundary with McCreary County. Figure 1 shows the location of the county.

PROJECT NEED

The only sources of water available to county residents are wells, springs and cisterns. Widespread contamination of wells and springs has been thoroughly documented. Over seventy percent of wells tested in the association's service area have been judged unfit for human consumption. The health and welfare of the county residents depend on a good water supply. Extension of the association's facilities throughout the county is the only source of potable water available. Extensions of water lines into presently unserviced areas will abate an existing potential health hazard.

There are some specific areas in the merged service area that currently experience low pressures. In some cases the tanks were not constructed to an appropriate elevation to allow drawdown and offset friction losses during high demand periods. In some instances, due to customer growth and resulting increased demands, the system is incapable of delivering water in the required quantities at the required pressures. Pipeline reinforcements are needed in specific areas in order for the association to continue providing good and reliable services.

It has been five years since the four utilities have merged into the Southeastern Water Association. There has been a tremendous improvement in the operation, service and financial integrity of the merged utility relative to the previously separate utilities. SEWA is presently attempting to extend service into the unserved areas of Pulaski County and reinforce the weak points in the system. Federal loans and grants are desperately needed to accomplish this objective.

ALTERNATIVE SOURCES

The City of Somerset is the regional provider of treated water in Pulaski County. The raw water source is Lake Cumberland which is virtually unlimited in quantity and excellent in quality. SEWA purchases all of its treated water from Somerset. There is no other source of treated water and SEWA is the only source for distributing water throughout the eastern portion of the county.

EXISTING FACILITIES

The existing facilities consist of approximately:

1. 463 miles of water lines in sizes 3-inch through 8-inch.
2. Storage Tanks

Elevated [4]	300,000
Ground [6]	800,000
Standpipe[2]	350,000 (Bandy)
Total Storage	1,450,000

3. Pump Stations
   (1) 400 gpm; (3) 100 gpm; (2) 75 gpm; (1) 160 gpm; (1) 90 gpm

SEWA purchases all of its water from Somerset at a rate of $2.00 per thousand gallons. The SEWA is the merger result of four water utilities and under essentially new management. The system is widespread over a major part of one of the largest counties in the state. The condition of all aspects of the system is not fully known. The continued efforts of the management over the past five years have greatly enhanced the efficiency and reliability of this large system. Generally, the system appears to be in good physical condition. The system contains inordinately large quantities of 4-inch and 3-inch lines. Customer growth with the attendant increased demand is severely stressing the capacity of these small lines in some areas. System reinforcements are presently needed and will become increasingly necessary in the future.

(502) 695-4357

PROPOSED FACILITIES

There were several line extensions, into presently unserved areas, that were investigated including house counts. There are also some problem areas in the existing system that need immediate attention. The cost of correcting the problem areas and extending all of the new lines is approximately $7,000,000 and beyond the practical scope of funding. Consequently, the capital improvements program will need to be done in phases. The extent of the facilities improvements and extensions is limited by funding allocations. The primary objective is to correct the existing problem areas and, if there are monies left, to extend water service into presently unserviced areas. Priority will be given to extensions into unserved areas that will also alleviate a problem or render a better operation.

The proposed facilities consist of the following:

1. The line extensions are shown in Exhibits 2 and 3. The prioritization was generally based on cost per customer and serving permanent residents. In some cases, the cost of a single extension required more monies than were available. It is the intent of the water association to continuously endeavor to seek funding and extend the system until all areas that desire water service are covered.

2. If monies are left after the improvements and extensions in the initially proposed project are completed, line extensions will be installed until the funds are fully utilized. The availability of funds will dictate whether these extensions, in part or entirety, can be done in this phase. Decisions will be made relative to line extensions when the amount of left over monies is specifically determined.

The maps bound in this report show the lines proposed in this project. Maps for the total plan are contained in Appendix 1.

WATER SYSTEM OPERATION

Preliminary hydraulic analysis utilizing computer modeling has been done to determine line sizes and need for other hydraulic elements. The system was designed and sized to meet the anticipated peak demand conditions and to allow for normal growth. The maps in the back of this report show all water lines recommended as a part of this construction project. The system has been designed so that water pressures at the meters of individual customers will not be less than 30 psi at peak flow conditions. Where static pressures exceed 100 psi, individual pressure regulators will be required to protect fixtures from high pressure.

Storage tanks are used in the water system to stabilize the pressure throughout the system, to provide sufficient water to take care of instantaneous peak requirements, to provide water in the event of temporary failure of the source and to provide water during peak days if the water demand exceeds the capacity of the source. The tanks must be of sufficient elevation to maintain a minimum of 30 psi pressure in the zone they serve and to provide for at least a one day water requirement under average conditions.

The existing tanks are filled by pumping stations equipped with duplicate pumps which run alternately.

Pumps are designed to maintain an operating level in the tanks about 10 to 12 feet lower than the overflow level of the tanks. This requires pumping to begin when the water level in the tanks drop to the operating level; pumping stops when the tanks are refilled to the overflow level. This procedure provides adequate pressure stabilization of the system. Some of the pumps are controlled by telemetering, some with pressure switches and some have virtually no control.

LAND, WATER AND OTHER RIGHTS AND PERMITS

Land

There are no tanks nor pump stations in this project therefore no land acquisition is required.

Water

SEWA purchases all of its water from Somerset at a rate of $2.00 per thousand gallons. The estimated demand for the 273 potential customers located along the proposed extensions is 55,000 GPD. The Somerset treatment capacity is adequate to provide the additional demand proposed in this project.

Other Rights and Permits

The majority of all transmission mains will be laid on private property. This will require both a permanent easement and a temporary construction easement; both are usually combined on one easement form. A description of the easements necessary will be prepared by the engineer. From these descriptions, the attorney will prepare the easement and right-of-way documents. SEWA will then be responsible for obtaining the signatures of property owners, conveying these easements. If for any unforeseen reason private easements cannot be obtained, water mains may be constructed on highway rights-of-way. A permit for this type of construction must be obtained from the affected highway department (either state or county). This permit can be incorporated into the permit necessary for line crossings of highways.

Several other permits and approvals will be necessary before completion of the project. Among these are: Kentucky Division of Water; a permit for stream crossing from the Kentucky Department for Natural Resources and Environmental Protection; Kentucky Public Service Commission; and the U.S. Army Corps of Engineers for stream crossings. The District's attorney, engineer and the Rural Development county supervisor will advise and assist in procuring the necessary and proper permits and approvals.

PROJECT FUNDING

The proposed funding for this project is a Rural Development loan and grant. Application has been submitted to the Appalachian Regional Commission for a grant from that agency if available.

APPENDIX 1

RURAL DEVELOPMENT
SUMMARY / ADDENDUM

KENTUCKY GUIDE 7
MAY 1998

SUMMARY ADDENDUM

TO

PRELIMINARY ENGINEERING REPORT

DATED June 21, 2002

FOR

SOUTHEASTERN WATER ASSOCIATION
PHASE 2 WATER SYSTEM EXTENSIONS
(Name of Project)

APPLICANT CONTACT PERSON Morris Vaughn

APPLICANT PHONE NUMBER (606) 678-5501

APPLICANT TAX IDENTIFICATION NUMBER (TIN) 61-1282354

ITEMS IN BOLD ITALIC PRINT ARE APPLICABLE TO SEWER SYSTEMS.

In order to avoid unnecessary delays in application processing, the applicant and its consulting engineer should prepare a summary of the preliminary report in accordance with this Guide.

Please complete the applicable sections of the Summary Addendum. ***Please note, if water and sewer revenue will <u>both</u> be taken as security for the loan, all user information and characteristics of <u>both</u> utility systems will be needed even though the project will benefit only <u>one</u> utility.***

Feasibility reviews and <u>grant determinations</u> may be processed more accurately and more rapidly if the Summary/Addendum is submitted simultaneously with the preliminary engineering report, or as soon thereafter as possible.

I. GENERAL

A. Proposed Project: Provide a brief description of the proposed project. In addition to this summary, the applicant/engineer should submit a project map of the service area.

Water system extensions including 42 miles of pipelines in 4, 6, and 8-inch sizes. No tanks nor pumps stations are planned for this phase.

II. FACILITY CHARACTERISTICS OF EXISTING SEWER SYSTEM

A. Sewage Treatment:

1. Type _____

2. Method of Sludge Disposal _____

_____

3. Cost per 1,000 gallons if sewage treatment is contracted:

$ _____

4. Date Constructed _____

B. Treatment Capacity of Sewage Treatment Plant _____

C. Type of Sewage Collector System (Describe) _____

_____

_____

D. Number and Capacity of Sewage Lift Stations _____

_____

E. Sewage Collection System:

Lineal Feet of Collector Lines, by size 6" _____ *8"* _____

10" _____ *12"* _____, *Larger* _____

Date(s) Constructed _____

F. Conditions of Existing System: Briefly describe the conditions and suitability for continued use of facility now owned by the applicant. Include any major renovation that will be needed within five to ten years.

_____

_____

_____

III. FACILITY CHARACTERISTICS OF EXISTING WATER SYSTEM

A. Water Source: Describe adequacy of source (quality and quantity). Include an explanation of raw water source, raw water intake structure, treatment plant capacity, and current level of production (WTP). Also describe the adequacy of Water Purchase Contract if applicable.

Raw water source: Lake Cumberland - Excellant Quality and Quantity

Somerset WTP: Capacity 10MGD AVG. Prod. 6MGD Peak Day 7.1MGD

Raw water intake structure in Lake Cumberland is currently being upgraded from 7.5 to 10MGD. Water purchase contract will be revised if required.

If the applicant purchases water:

Seller(s):

1. City of Somerset
2. _____
3. _____

Price/1,000 gallons:

1. $2.00
2. _____
3. _____

Present Estimated Market Value of Existing System: $ 1,373,000

B. Water Storage:

Type: Ground Storage Tank 6 Elevated Tank 4

Standpipe 2 Other _____

Number of Storage Structures 12

Total Storage Volume Capacity 1,450,000

Date Storage Tank(s) Constructed 1968-2001

C. Water Distribution System:

Pipe Material _____

Lineal Feet of Pipe: 3" Diameter 975,300 4" 736,900

6" 512,000 8" 46,300

10" _____ 12" _____

Date(s) Water Lines Constructed 1967-2002

Number and Capacity of Pump Station(s) 400 GPM (3); 100 GPM (2)

75 GPM (1); 160 GPM (1); 90 GPM (1)

D. Condition of Existing Water System:

Briefly describe the condition and suitability for continued use of facility now owned by the applicant. Include any major renovation that will be needed within five to ten years.

Condition of system is good. Reinforcements for 3" and 4" pipelines in Nelson Valley area will be needed if present growth continues.

E. Percentage of Water Loss Existing System 15

IV. EXISTING LONG-TERM INDEBTEDNESS

A. List of Bonds and Notes:

Date of Issue	Bond/Note Holder	Principal Balance	Payment Date	Bond Type Water/Sewer*	Amount on Deposit in Reserve Account
19 91 Issue	RD	$ 338,840	Feb. 12	% %	
19 95 Issue	RD	$ 847,216	Sept. 4	% %	
19 97 Issue	RD	$ 1,991,512	Oct. 17	% %	
19 92 Issue	GECC	$ 46,196	June. 1	% %	
19 96 Issue	GECC	$ 303,730	June. 1	% %	
2002	RD	1,279,000			

* If a combined issue, show attributable portion to each system.

B. Principal and Interest Payments: (Begin with Next Fiscal Year Payment)

Date of Issue	Bond/Note Holder	Payment Year 2002 Principal Payment	Payment Year 2002 Interest Payment	Payment Year 2003 Principal Payment	Payment Year 2003 Interest Payment	Payment Year 2004 Principal Payment	Payment Year 2004 Interest Payment
19 91 Issue	RD	5,278	17,016	5,616	16,678	5,897	16,397

20 02 Issue(1)	RD	-	57,555	-	57,555	13,442	57,555
TOTALS		61,549	237,890	69,662	229,778	86,585	226,296

(1) Current Phase 1 Extension project.

V. EXISTING SHORT-TERM INDEBTEDNESS

A. List of All Short Term Debts: (Do Not Show Any Debt Listed in Paragraph IV Above)

Lender or Lessor	Date of Issue (Month & Year)	Principal Balance	Purpose (Water and/ or Sewer)	Payment Date	Principal & Interest Payment (P&I)	Date to Be Paid In Full
Citizens Nat'l. Bank		37,358	Water		10,800	2006 (EST.)

VI. LAND AND RIGHTS - EXISTING SYSTEM(S)

Number of ~~Treatment Plant~~ Office Sites: Water 1 *Sewer* _____

Number of Storage Tank Sites Water 12 *Sewer* _____

Number of Pump Stations: Water 8 *Sewer* _____

Total Acreage: Water 12 Acres *Sewer* _____ *Acres*

Purchase Price: Water $ 37,300 *Sewer* $ _____

VII. NUMBER OF EXISTING USERS

	Water	*Sewer*
Residential (In Town) *		
Residential (Out of Town) *	5632	
Non-Residential (In Town)		
Non-Residential (Out of Town)	72	
Total	5704	
Number to Total Potential Users Living in the Service Area	6500	

*Note: Residential Users: Classify by type of user regardless of quantity of water used. This classification should include those meters serving individual rural residence.

VIII. CURRENT WATER AND SEWER CONNECTION FEES FOR EACH SIZE WATER METER CONNECTION

Meter Size	Water Connection Fee	*Sewer Connection Fee*
5/8" x 3/4"	$ 525	$
1 - Inch	$ At Cost	$

IX. SEWER RATES - EXISTING SYSTEM

Percentage of Water Bill _____ ***%*** ***Minimum Charge $*** _____

Other: (If Charge Not Based on Water Bill) _____

_____

Date This Rate Went Into Effect _____

X. WATER RATES - EXISTING SYSTEM

Existing Rate Schedule:

First	2000	Gallons @ $	13.60	Minimum.
Next	_____	Gallons @ $	_____	per 1,000 Gallons.
Next	_____	Gallons @ $	_____	per 1,000 Gallons.
Next	_____	Gallons @ $	_____	per 1,000 Gallons.
Next	_____	Gallons @ $	_____	per 1,000 Gallons.
Next	_____	Gallons @ $	_____	per 1,000 Gallons.
All Over	2000	Gallons @ $	5.76	per 1,000 Gallons.

Date This Rate Went Into Effect June 2001

If More Than One Rate Schedule, Please Include All Schedules.

XI. *ANALYSIS OF ACTUAL SEWER USAGE - EXISTING SYSTEM - 12 MONTH PERIOD*

For Period _____ *to* _____.

All Meter Sizes	*Monthly Sewer Usage*	*Average*	*Residential*		*Non-Residential*	
			No. of Users	*Usage (1000)*	*No. of Users*	*Usage (1000)*
	0 - 2,000 Gallons	*1,000*				
	2,000 - 3,000 Gallons	*2,500*				
	3,000 - 4,000 Gallons	*3,500*				
	4,000 - 5,000 Gallons	*4,500*

XII. ANALYSIS OF ACTUAL WATER USAGE - EXISTING SYSTEM - 12 MONTH PERIOD

For Period January to December, 2001.

All Meter Sizes	Monthly Water Usage	Average	Residential No. of Users	Residential Usage (1000)	Non-Residential No. of Users	Non-Residential Usage (1000)
	0 - 2,000 Gallons	1,000	25,242	29,386.8	489	256.2
	2,000 - 3,000 Gallons	2,500	9,816	25,527.0	36	89.9
	3,000 - 4,000 Gallons	3,500	8,841	31,648.7	27	94.9
	4,000 - 5,000 Gallons	4,500	6,846	31,575.7	18	85.5
	5,000 - 6,000 Gallons	5,500	4,773	26,880.9	17	94.9
	6,000 - 7,000 Gallons	6,500	3,036	20,184.3	13	86.7
	7,000 - 8,000 Gallons	7,500	1,945	14,882.6	7	60.9
	8,000 - 9,000 Gallons	8,500	1,282	11,125.8	6	52.0
	9,000 - 10,000 Gallons	9,500	854	8,812.7	18	163.4
	10,000 - 11,000 Gallons	10,500	596	6,802.0	11	117.3
	11,000 - 12,000 Gallons	11,500	378	4,726.5	5	58.0
	12,000 - 13,000 Gallons	12,500	262	3,557.4	6	89.8
	13,000 - 14,000 Gallons	13,500	177	2,643.8	10	95.2
	14,000 - 15,000 Gallons	14,500	145	2,194.5	10	145.5
	15,000 - 16,000 Gallons	15,500	154	2,605.6	6	93.7
	16,000 - 17,000 Gallons	16,500	103	1,871.8	7	115.4
	17,000 - 18,000 Gallons	17,500	100	1,896.4	5	87.7
	18,000 - 19,000 Gallons	18,500	82	1,650.5	2	37.3
	19,000 - 20,000 Gallons	19,500	60	1,211.3	3	58.6
	OVER - 20,000 Gallons		750	42,874.7	42	2,604.2
	- Gallons					
	- Gallons					
		Total	(65,442)	(272,059)	(738)	(4,496.1)
		Average Usage		(4.22)		(6.09)
	Burnside Water Works				12	12,322

Total Water Purchased and/or Produced 383,191,700

Total Water Sold 288,876,997

XIII. FACILITY CHARACTERISTICS OF PROPOSED SEWER SYSTEM

A. *Sewage Treatment:*

1. *Type* _____

2. *Method of Sludge Disposal* _____

_____

3. *Cost per 1,000 gallons if sewage treatment is contracted:*

$ _____

B. *Treatment Capacity of Sewage Treatment Plant* _____

C. *Type of Sewage Collector System (Describe)* _____

_____

_____

D. *Number and Capacity of Sewage Lift Stations* _____

_____

E. *Sewage Collection System:*

Lineal Feet of Collector Lines, by size 6" _____ *8"* _____

10" _____ *12"* _____*, Larger* _____

XIV. LAND AND RIGHTS - PROPOSED SEWER SYSTEM

Number of Treatment Plant Sites _____

Number of Pump Sites _____

Number of Other Sites _____

Total Acreage _____ *Acres*

Purchase Price *$* _____

XV. FACILITY CHARACTERISTICS OF PROPOSED WATER SYSTEM

A. Water Source: Describe adequacy of source (quality and quantity). Include an explanation of raw water source, raw water intake structure, treatment plant capacity, and current level of production (WTP). Also describe the adequacy of Water Purchase Contract if applicable.

See III-A

B. Water Storage: N/A

Type: Ground Storage Tank _____ Elevated Tank _____

Standpipe _____ Other _____

Number of Storage Structures _____

Total Storage Volume Capacity _____

C. Water Distribution System:

Pipe Material PVC

Lineal Feet of Pipe: 3" Diameter _____ 4" 163,400

6" 30,000 8" 29000

10" _____ 12" _____

Number and Capacity of Pump Station(s) N/A

XVI. LAND AND RIGHTS - PROPOSED WATER SYSTEM N/A

Number of Treatment Plant Sites _____

Number of Pump Sites _____

Number of Other Sites _____

Total Acreage _____ Acres

Purchase Price $ _____

XVII. NUMBER OF NEW SEWER USERS

*Residential (In Town) * _____*

*Residential (Out of Town) * _____*

Non-Residential (In Town) _____

Non-Residential (Out of Town) _____

Total _____

Number to Total Potential Users Living in the Service Area _____

**Note: Residential Users: Classify by type of user regardless of quantity of water used. This classification should include those meters serving individual rural residences.*

XVIII. PROPOSED SEWER CONNECTION FEES FOR EACH SIZE WATER METER CONNECTION

Meter Size	Connection Fee
5/8" x 3/4"	$ _____
1 - Inch	$ _____
1-1/2 Inch	$ _____
2 - Inch	$ _____
3 - Inch	$ _____
4 - Inch	$ _____
5 - Inch	$ _____
6 - Inch	$ _____

XIX. NUMBER OF NEW WATER USERS

Residential (In Town) *	
Residential (Out of Town) *	191
Non-Residential (In Town)	
Non-Residential (Out of Town)	
Total	
Number to Total Potential Users Living in the Service Area	273

*Note: Residential Users: Classify by type of user regardless of quantity of water used. This classification should include those meters serving individual rural residences.

XX. PROPOSED WATER CONNECTION FEES FOR EACH SIZE WATER METER CONNECTION:

Meter Size	Connection Fee
5/8" x 3/4"	$ 525
1 - Inch	$
1-1/2 Inch	$
2 - Inch	$
3 - Inch	$
4 - Inch	$
5 - Inch	$
6 - Inch	$

XXI. SEWER RATES - PROPOSED

A. Proposed Rate Schedule without RUS Grant:

Percentage of Water Bill _____ *% Minimum Charge $* _____

Other: (If Charge Not Based on Water Bill) _____

_____

Proposed Rate Schedule: (Without RUS Grant)

First _____ *Gallons @ $* _____ *Minimum.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

All Over _____ *Gallons @ $* _____ *per 1,000 Gallons.*

The above proposed rate, without RUS grant, must be completed for each grant. If the applicant/engineer desires, there is no objection to recommending a proposed rate with an estimated RUS grant in the Table below. However, the preparer should remember that the Table (A) above must be completed prior to Table (B).

B. Recommended Rate Schedule with RUS Grant:

Percentage of Water Bill _____ *% Minimum Charge $* _____

Other: (If Charge Not Based on Water Bill) _____

_____

Recommended Rate Schedule: (With RUS Grant)

First _____ *Gallons @ $* _____ *Minimum.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

Next _____ *Gallons @ $* _____ *per 1,000 Gallons.*

All Over _____ *Gallons @ $* _____ *per 1,000 Gallons.*

If more than one rate, use additional sheets.

XXII. WATER RATES - PROPOSED

A. Proposed Rate Schedule without RUS Grant:

First	2000	Gallons @ $	15.08	Minimum.
Next		Gallons @ $		per 1,000 Gallons.
Next		Gallons @ $		per 1,000 Gallons.
Next		Gallons @ $		per 1,000 Gallons.
Next		Gallons @ $		per 1,000 Gallons.
Next		Gallons @ $		per 1,000 Gallons.
All Over	2000	Gallons @ $	6.41	per 1,000 Gallons.

The above proposed rate, without RUS grant, must be completed for each grant. If the applicant/engineer desires, there is no objection to recommending a proposed rate with an estimated RUS grant in the Table below. However, the preparer should remember that the Table (A) above must be completed prior to Table (B).

B. Recommended Rate Schedule with RUS Grant:

First	2000	Gallons @ $	14.70	Minimum.
Next		Gallons @ $		per 1,000 Gallons.
Next		Gallons @ $		per 1,000 Gallons.
Next		Gallons @ $		per 1,000 Gallons.
Next		Gallons @ $		per 1,000 Gallons.
Next		Gallons @ $		per 1,000 Gallons.
All Over	2000	Gallons @ $	6.25	per 1,000 Gallons.

If more than one rate, use additional sheets.

XXIII. FORECAST OF SEWER USAGE - INCOME - EXISTING SYSTEM - EXISTING USERS

Meter Size*	Monthly Sewer Usage	Average	Average Rate	Residential			Non-Residential		
				No. of Users**	Usage (1000)	Income	No. of Users	Usage (1000)	Income
	0 - 2,000 Gallons	1,000	_____						
	2,000 - 3,000 Gallons	2,500	_____						
	3,000 - 4,000 Gallons	3,500	_____

XXVII. CURRENT OPERATING BUDGET - (SEWER SYSTEM)

(As of the last full operating year.)

A. Operating Income:

Sewer Revenue	$ _____
Late Charge Fees	_____
Other (Describe)	_____
Less Allowances and Deductions	(_____)
Total Operating Income	$ _____

B. Operation and Maintenance Expenses:
(Based on Uniform System of Accounts prescribed by National Association of Regulatory Utility Commissioners)

Operation Expense	$ _____
Maintenance Expense	_____
Customer Accounts Expense	_____
Administrative and General Expense	_____
Total Operating and Maintenance Expenses	$ _____
Net Operating Income	$ _____

C. Non-Operating Income:

Interest on Deposits	$ _____
Other (Identify)	_____
Total Non-Operating Income	$ _____

D. Net Income $ _____

E. Debt Repayment:

RUS Interest	$ _____
RUS Principal	_____
Non-RUS Interest	_____
Non-RUS Principal	_____
Total Debt Repayment	$ _____

F. Balance Available for Coverage $ _____

XXVIII. *PROPOSED OPERATING BUDGET - (SEWER SYSTEM) - EXISTING SYSTEM AND NEW USERS* *(1st Full Year of Operation) Year Ending* _____

A. Operating Income:

Sewer Revenue	$ _____
Late Charge Fees	_____
Other (Describe)	_____
Less Allowances and Deductions	(_____)
Total Operating Income	$ _____

B. Operation and Maintenance Expenses:
(Based on Uniform System of Accounts prescribed by National Association of Regulatory Utility Commissioners)

Operation Expense	$ _____
Maintenance Expense	_____
Customer Accounts Expense	_____
Administrative and General Expense	_____
Total Operating and Maintenance Expenses	$ _____
Net Operating Income	$ _____

C. Non-Operating Income:

Interest on Deposits	$ _____
Other (Identify)	_____
Total Non-Operating Income	$ _____

D. Net Income $ _____

E. Debt Repayment:

RUS Interest	$ _____
RUS Principal	_____
Non-RUS Interest	_____
Non-RUS Principal	_____
Total Debt Repayment	$ _____

F. Balance Available for Coverage $ _____

XXIX. *PROPOSED OPERATING BUDGET - (SEWER SYSTEM) - NEW USERS - EXTENSION ONLY (1st Full Year of Operation) Year Ending* _____

A. *Operating Income:*

Sewer Revenue	$ _____
Late Charge Fees	_____
Other (Describe)	_____
Less Allowances and Deductions	(_____)
Total Operating Income	$ _____

B. *Operation and Maintenance Expenses:*
(Based on Uniform System of Accounts prescribed by National Association of Regulatory Utility Commissioners)

Operation Expense	$ _____
Maintenance Expense	_____
Customer Accounts Expense	_____
Administrative and General Expense	_____
Total Operating and Maintenance Expenses	$ _____
Net Operating Income	$ _____

C. *Non-Operating Income:*

Interest on Deposits	$ _____
Other (Identify)	_____
Total Non-Operating Income	$ _____

D. *Net Income* $ _____

E. *Debt Repayment:*

RUS Interest	$ _____
RUS Principal	_____
Non-RUS Interest	_____
Non-RUS Principal	_____
Total Debt Repayment	$ _____

F. *Balance Available for Coverage* $ _____

XXX. CURRENT OPERATING BUDGET - (WATER SYSTEM)
(As of the last full operating year.)

A. Operating Income:	
Water Sales	$ 1,744,282
Disconnect/Reconnect/Late Charge Fees	79,920
Other (Describe)	
Less Allowances and Deductions	( )
Total Operating Income	$ 1,824,202
B. Operation and Maintenance Expenses: (Based on Uniform System of Accounts prescribed by National Association of Regulatory Utility Commissioners)	
Source of Supply Expense	$ 769,519
Pumping Expense	23,760
Water Treatment Expense	
Transmission and Distribution Expense	105,815
Customer Accounts Expense	120,451
Administrative and General Expense	259,661
Total Operating Expenses	$ 1,279,206
Taxes	21,907
Capital Improvements	261,000
Net Operating Income	$ 262,089
C. Non-Operating Income:	
Interest on Deposits	$ 4,772
Other (Identify)	
Total Non-Operating Income	$ 4,772
D. Net Income	$ 266,861
E. Debt Repayment:	
RUS Interest	$ 162,535
RUS Principal	48,073
Non-RUS Interest	20,729
Non-RUS Principal	10,546
Total Debt Repayment	$ 241,883
F. Balance Available for Coverage	$ 24,978

XXXI. PROPOSED OPERATING BUDGET - (WATER SYSTEM) - EXISTING SYSTEM AND NEW USERS (1st Full Year of Operation) Year Ending 2004

A. Operating Income:

Water Sales	$ 2,068,150
Disconnect/Reconnect/Late Charge Fees	
Other (Describe)	
Less Allowances and Deductions	( )
Total Operating Income	$ 2,068,150

B. Operation and Maintenance Expenses:
(Based on Uniform System of Accounts prescribed by National Association of Regulatory Utility Commissioners)

Source of Supply Expense	$ 804,347
Pumping Expense	25,231
Water Treatment Expense	-
Transmission and Distribution Expense	176,015
Customer Accounts Expense	139,451
Administrative and General Expense	274,861
Total Operating Expenses	$ 1,419,905
Taxes	21,907
Capital Improvements	147,844
Net Operating Income	$ 478,494

C. Non-Operating Income:

Interest on Deposits	$
Other (Identify)	
Total Non-Operating Income	$

D. Net Income $ 478,494

E. Debt Repayment:

CITIZENS BANK NOTE	10,800
RUS Interest	$ 311,125
RUS Principal	82,777
Non-RUS Interest	18,837
Non-RUS Principal	12,438
Total Debt Repayment	$ 435,977

F. Balance Available for Coverage $ 42,517

XXXII. PROPOSED OPERATING BUDGET - (WATER SYSTEM) - NEW USERS - EXTENSION ONLY (1st Full Year of Operation) Year Ending 2004

A. Operating Income:	
Water Sales	$ 40,843
Disconnect/Reconnect/Late Charge Fees	
Other (Describe)	
Less Allowances and Deductions	( )
Total Operating Income	$ 40,843
B. Operation and Maintenance Expenses: (Based on Uniform System of Accounts prescribed by National Association of Regulatory Utility Commissioners)	
Source of Supply Expense	$ 13,482
Pumping Expense	404
Water Treatment Expense	-
Transmission and Distribution Expense	40,200
Customer Accounts Expense	9,550
Administrative and General Expense	7,640
Total Operating Expenses	$ 71,276
Net Operating Income	$ (30,433)
C. Non-Operating Income:	
Interest on Deposits	$
Other (Identify)	
Total Non-Operating Income	$
D. Net Income	$ (30,433)
E. Debt Repayment:	
RUS Interest	$ 91,035
RUS Principal	21,262
Non-RUS Interest	
Non-RUS Principal	
Total Debt Repayment	$ 112,297
F. Balance Available for Coverage	$ (142,730)

XXXIII. ESTIMATED PROJECT COST - SEWER

(Round to nearest $100)

	Collection	*Treatment*	*Total*
Development			
Land and Rights			
Legal			
Engineering			
Interest			
Contingencies			
Initial Operating and Maintenance

FINAL ENGINEERING REPORT

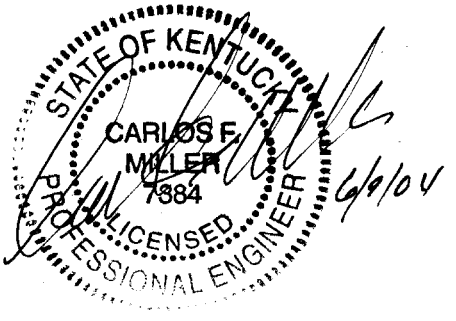
for

SOUTHEASTERN WATER ASSOCIATION

PHASE 2 SYSTEM REINFORCEMENTS AND EXTENSIONS

PROJECT NO. 2000170

JUNE, 2004



Kenvirons, Inc.

Civil & Environmental Engineering and Laboratory Services

A Preliminary Engineering Report dated June, 2002 describes, in detail, the scope and need for this project.

Bids were received on June 8, 2004 with three (3) bidders responding. The low bid was submitted by K. Carrender Construction Co., Somerset, Kentucky, in the amount of $2,564,351.50 for the base project and $3,760,314.50, which included Additive Alternates 1-6. A copy of the certified bid tabulation is included in this report.

The construction bid for the base project was within the project budget. A revised project cost breakdown is as follows:

BUDGET ITEM	R.D. LETTER OF CONDITIONS	REVISED
Development	$2,500,000	$2,564,351
Land & Rights	13,000	13,000
Legal & Administrative	10,000	10,000
Engineering	277,500	281,800
Interest	60,000	60,000
Contingencies	263,500	194,849
	$3,124,000	$3,124,000

RECOMMENDATIONS

1. The bid amounts for this project are in the acceptable range for the types of work involved. The contractor that submitted the low bid is experienced and acceptable. It is recommended that the contract be awarded to the low bidder named herein in the amount of the base project bid of $2,564,351.50.

2. Proceed with the application to the Public Service Commission for authority to construct the facilities.

3. Additive alternates may be considered at approximately 80% completion.

RE: Phase 2 Water System Extensions

Dear Mr. Richards:

Bids were received for the referenced project on June 8. Three (3) bids were submitted.

The low bidder was K. Carrender Construction Co. located in Somerset. The bid amount for the base project is within the project funds. The Additive Alternates will be added as funds allow when the base project is approximately 80% complete.

K. Carrender Construction Co. has previously done several water system projects for Kenvirons, Inc. It is hereby recommended to award the contract to K. Carrender Construction Co. in the amount of the Base Project Bid of $2,564,351.50.

A Final Engineering Report is submitted herewith.

Sincerely,

Carlos F. Miller, P.E.
Vice President

CERTIFICATE OF PRESIDENT OF SOUTHEASTERN WATER ASSOCIATION, INC. AS TO STATEMENT REQUIRED BY SECTION 1(5) OF 807 KAR 5:069

I, JOE RICHARDS, I, hereby certify that I am the duly qualified and acting President of the Southeastern Water Association, Inc. of Pulaski County, Kentucky, and that said Association, in cooperation with Kenvirons, Inc., Frankfort, Kentucky, the Engineers for the Association (the "Engineers"), is in the process of arranging for the finance and construction of extensions, additions and improvements to the waterworks system of the Association (the "Project").

Based on information furnished to me by said Engineers for the Association, I hereby certify as follows:

1. That the proposed plans and specifications for the Project have been designed to meet the minumum construction and operating requirements set out in 807 KAR 5:066 Section 4 (3) and (4); Section 5 (1); Sections 6 and 7; Section 8 (1) through (3); Section 9 (1) and Section 10.

2. That all other state approvals and/or permits have already been obtained.

3. That the water rates proposed by the Association in its attached Application filed with the Public Service Commission of Kentucky are contemplated to produce the total revenue requirements set out in the Engineering Reports prepared by such Engineers and filed with the Public Service Commission.

4. That it is now contemplated that construction of the Project will begin on or about September 15, 2004, and will end on or about July 15, 2005.

IN TESTIMONY WHEREOF, witness my signature this August 5th, 2004.

SOUTHEASTERN WATER ASSOCIATION, INC.

BY: Joe Richards, I

JOE RICHARDS, I, PRESIDENT

STATE OF KENTUCKY)
) SS:
COUNTY OF PULASKI)

Subscribed and sworn to before me by JOE RICHARDS, I, President of the Board of Directors of the SOUTHEASTERN WATER ASSOCIATION, INC., on this August 5th, 2004.

Tamara C. Gregory Davis
NOTARY PUBLIC, STATE AT LARGE

MY COMMISSION EXPIRES: 10/27/05

EXHIBIT 9

NOTICE OF ADJUSTMENT OF WATER RATES

SOUTHEASTERN WATER ASSOCIATION, INC.

Notice is hereby given that, pursuant to an application filed with the Public Service Commission of Kentucky under KRS 278.023 by the Southeastern Water Association, Inc. (the "Association"), the Association proposes to adjust its monthly water service rates as follows:

Usage Block	Current Rates	Proposed Rates
First 2,000 gallons	$13.60 Minimum Bill	$ 14.70 Minimum Bill
All over 2,000 gallons	5.76 per 1,000 gallons	6.25 per 1,000 gallons

The proposed rate adjustment is required by the U. S. Department of Agriculture, Rural Development ("RD") in connection with a loan by RD to the Association in the amount of $1,833,000.

The RD loan proceeds will be used in conjunction with a RD Grant in the amount of $1,190,000 and connection fees in the amount of $101,000 to finance a water system improvement project which consists of the installation of approximately 33 miles of 8" to 3" water distribution lines.
