PUBLIC SERVICE  
COMMISSION

IN THE MATTER OF  
WHEELWRIGHT UTILITY COMMISSION  
ALLEGED VIOLATIONS OF 49 CFR 192

*PROPOSED REMEDIATION*

---

Comes now the Wheelwright Utility Commission, by and through counsel, and for their remediation proposal, state as follows:

The Commission admits the violations exist as found in the notice of violation.

The Commission proposes to remedy these problems with the following plan:

The Commission has retained Mr. Roger Wingate, to provide training to certify three individuals to be qualified as an operator on the system, although it is anticipated that only one will serve at any one time as said operator.

This training is tentatively scheduled for May 23, 2005, but may have to be rescheduled. The Commission would ask to be given until June 30, 2005, to have this training completed.

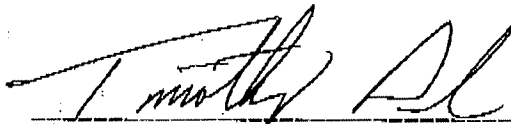

Once the training is completed, and a qualified operator is on site, the remaining violations will be rectified. The Commission asks to be given until August 31, 2005, in which to remedy all the remaining violations.

One reason for the violations occurring is the rate structure on the gas system. The Commission has instituted a rate increase to \$12.00 per mc, to allow for sufficient cash flow to complete and to remain in compliance with State Regulations.

The Commission would ask that a fine of \$10,000.00 be imposed for these violations.

Wherefore, the Wheelwright Utility Commission prays that the Public Service Commission will accept this Proposed Remediation.

Respectfully submitted,

TIMOTHY A. PARKER
