

Dear Sirs,

January 10th 05

I request leave to intercede in this ~~is~~ Case number 2004 - 00426. You all are always raising the cost of your electric service now. I was against the last 22 cents raise too that you all just put on ~~our~~ our bill about a month or so ago. You should also remove the 5 dollars for reading the meters to + have one flat-rate for your charge of electric service. You should also remove the tap on the bill. The last 22 cents raise on the bill, Gudy Stumbo the Attorney General of Ky, was complaining about it + I am too. There should only be a flat rate for electric + no keeping ~~of~~ on

of any add-on

charges.

Who ever heard of anything different ~~over~~

Yours truly

Walter Coghill

people are suppose to
sell stuff for only one price
~~including~~ including electric service
