Re: Louisville Gas and Electric
Kentucky Utilities

I am writing to urge you to reject the request of Louisville Gas & Electric and Kentucky Utilities possible adding of a monthly charge for its membership to Midwest ISO to its customers bill. Not only do we have to pay it when we receive our bill but also when we buy products in Kentucky because the companies pass their increase on to their customers. As in my letter to you of November 15, 2004, it is clear to me that Louisville Gas & electric does not need a rate increase.

Respectfully

Norman L. Adwell
