Re: McCreary County Water District - Case No. **2004-00516**

Dear Ms. O'Donnell:

We are writing this letter in response to your letter of January 7, 2005 regarding certain filing deficiencies in the above Case.

Section 9(2)(b): Copies of franchises or permits, if any: Please be advised that the April 24, 2002 Permit Letter filed with the original Application was for the water line expansion project, phase II for the U.S. Bureau of Prisons and after said permit letter was issued, it was determined that phase II would be expedited if it was broken into phases II and III. The permit letter refers to the installation of approximately 64,500 feet of 16-inch water line, which included the 21,590 feet of line being installed under phase III. The 16-inch line size referred to in the permit letter was downsized to 12-inch due to funding constraints and the fact that the 12-inch line could carry the water flow needed for phase III. If you need further explanation, please contact the District's engineer: Mr. Deron Byrne, Monarch Engineering, (502) 839-1310.

If you need any additional documentation, please let us know.

Sincerely,

Rubin & Hays
