To whom it may concern,

I am writing today in regards to the proposed rate increase, requested by the Fleming County Water Association. I am against any rate increase; I feed my cattle from an automatic water feeder. Also, I have a mobile home on my property that I have to pay \$11.95 minimum each month. I have paid a \$20.00 fee to have the water turned on; if I turn the water off to save the \$11.95 it would cost me another \$20.00 fee to have the water turned back on. Why should I have to pay \$11.95 for water that I don't use? Now they want to raise it. No thanks. Give us a break!

Sincerely,

Charlene Sullivan
