**RE: Notice of Intent
Construct Proposed Transmission**

Dear Ms. O'Donnell:

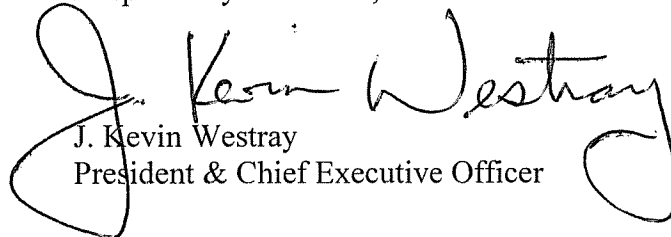

Please find the following in response to a recent Notice of Intent filed in the Daily News newspaper in Bowling Green, Kentucky. The Notice of Intent shows a proposed route of a new transmission line by East Kentucky Power Cooperative through Barren County, Kentucky.

I attempted to contact the Kentucky Public Services Commission at the phone number given in the Notice of Intent; however, the number was incorrect and represented a fax line. After several attempts, I contacted Bluegrass information service and received the correct phone number for the Kentucky Public Service Commission.

After talking to personnel at the Kentucky Public Service Commission about the Notices of Intent, no route could be given for this proposed construction. Insomuchas, Scotty's Contracting and Stone, LLC owns and operates property in the Barren County, Kentucky area, we would request a route location to help determine the impact on our business.

Thank you for your help in this matter and we look forward to your reply.

Respectfully submitted,

J. Kevin Westray
President & Chief Executive Officer
