**Subject:** Calls & Meeting

Per the action items we developed during our recent call, I want to set up our next group communications.

Please check your calendars for a conference call on Wednesday July 28, 2004 at 3:00 eastern and confirm via e-mail in the next day or so if possible. If this is a suitable time I will notify you of the call arrangements.

We also need to set a time and place for a meeting. Please let me know if you are available on Friday August 6th or Friday August 13th and offer suggestions for a meeting time. I have assumed that EKPC and WREC will travel to Chattanooga, but if there are reasons to consider another location, please let me know.

Thank you

Mary Jane Warner

Do you have GPS coordinates for all of your substations? If so we need those.

We will need more information as we go, but this will give us a good start, and will be necessary to begin to develop a more detailed scope of work for the project.

Thank you  
MJ

**Subject:** RE: Calls & Meeting

Mary Jane,

Right now I have no conflicts for the call or the meeting dates. I do plan to attend an ECAR voltage stability seminar in Columbus August 4-5 and I won't be back home until late in the day August 5, but hopefully I should be available August 6. However, if we should want to travel to Chattanooga on the 5th and stay overnight, this would obviously cause a conflict. Also, please note that Darrin and Greg also plan to attend the ECAR voltage stability seminar August 4-5.

**Subject:** LGEE contact for WREC study

Please work together to prepare the information we need to get to KU on the WREC studies in order to get their input. We may not know enough yet about TVA's results, but if we get our stuff together, we can press TVA for something to send to KU. I think we should try to get the info to KU by the end of next week.

When you have decided what the information should be, go ahead and contact CAI and TVA as appropriate to assemble it.

Draft a letter or e-mail to transmit the information/request and we will review together.

Thank you

**Subject:** Future cases beyond 2010 Summer for Warren RECC Service Studies

David,

Today, I had a discussion with Al Corbett at TVA concerning future models beyond 2010 Summer which may be needed to complete the Warren RECC service studies we are conducting.

It was decided that TVA would determine if these cases are needed to complete the study.

If TVA decides they are necessary, then they will identify the cases they want, and send them to CAI within the next couple of days, in order to allow for screening for problems within the 3 week target date (beginning July 16) for completion of the study analysis.

Thanks,

**Subject:** RE: Agenda and participant list

Hi Billy -

Our final attendee list is as follows.

### EKPC

Roy Palk  
Paul Atchison  
Mary Jane Warner  
Mike Spurlock  
Darrin Adams

### WREC

Gerald Hayes  
Donna White  
Tom Martin  
Mike Eastridge  
Doug Elliott  
Ottis Jones

### CAI

Dave Shafer

I plan to speak with Chris Bradley this afternoon and finalize arrangements with him. Like you, I think he could effectively participate by telephone during the meeting and I will make sure that we know how and when Chris wishes to join us.

I had planned to bring a printed agenda based on the items proposed in my 8/10/04 e-mail as follows.

1. Summary of Studies to date
2. Preliminary results of stability screening
3. Timeline for finishing study
4. Discussion of BREC tie line
5. Interconnection Agreement
6. Caneyville Tap Ownership

We will be leaving around 2:00 p.m. today - see you tomorrow.

Mary Jane

**Sent:** Monday, August 16, 2004 9:54 AM

**To:** Mary Jane Warner

**Subject:** Agenda and participant list

Mary Jane,

I wanted to verify the agenda with you and also the participants.

From TVA we will have the following people:

Terry Boston  
David Hall  
Jim Whitehead  
Mark Brooks  
Ron Owens  
Billy Tiller

The items we discussed for the agenda were:

Clean up studies  
Interconnection Agreement  
Timeline for finishing study  
Preliminary stability information if available  
Discussion about the Big River's tie line

I only wrote down a partial list of the attendees from EKPC, Warren, and CAI. Would you mind sending me the list again?

I have not answered Chris Bradley. Have you? We don't have any problem with Chris attending via phone. If we wait to discuss Big River's tie until the end we could call him at that time and he could listen then and not have to hang on the phone for entire discussion. If he is preparing for 2 audits then he will probably need all the time he can get to get ready.

We look forward to see you on Tuesday.

Billy Tiller

**Subject:** Interconnection Agreement

Mary Jane:

We do not have a standard form Interconnection Agreement to provide you. New Interconnection Agreements between TVA and neighboring transmission systems are quite infrequent and have been individually negotiated and drafted based upon the unique circumstances and the benefits to each party.

The existing Interconnection Agreement between TVA and EKPC, TV-24847A, dated January 22, 1964, as amended, would probably be the best starting reference point.

**Subject:** RE: Interim Teleconference

Phil/Dave,

My Peabody contact is out for the week. However, since we need the ability to evaluate the system with and without Thoroughbred, I feel comfortable with CAI providing the model to TVA for use in this study. Since the model is based on a MMWG dynamics case, the standard confidentiality rules should be followed (the same rules that TVA follows when receiving a dynamics case from SERC or the MMWG).

Dave,

Please provide the discussed model to Phil.

Thank You,

EKPC-WRECC-TVA August 17th meeting

Thank you for the prompt responses on our meeting change.

We will meet in Chattanooga on Tuesday August 17, 2004 9:00 a.m. (eastern) to discuss the conclusion of the coordinated planning studies.

Mary Jane Warner

Please note my e-mail address change - [maryjane.warner@ekpc.coop](mailto:maryjane.warner@ekpc.coop)

From: Yum, Phil Soo [mailto:psyum@tva.gov]  
Sent: Wednesday, August 11, 2004 10:30 AM  
To: Mary Jane Warner; Tiller, William R.; Douglas Elliott (E-mail);

Subject: Interim Teleconference

Please review the action item list below resulting from our call this morning and note any items that require your attention.

Also please let me know if there are errors or omissions.

I added one item (Caneyville Tap) we did not discuss as a planning issue, but that is a current issue we would like to review.

Thank you

Mary Jane Warner

Action Item list - 8/10/2004

Parties represented - EKPC, WREC, Ottis Jones, TVA, BREC, CAI

- 1) Billy Tiller will send detailed study results of overloads, fixes currently planned by TVA and impacts to transfers into and out of TVA, to Mary Jane Warner, Dave Shafer, Darrin Adams, Mike Spurlock and Chris Bradley.
- 2) Dave Shafer and Billy Tiller will exchange cases as soon as possible for evaluation and reconciliation of results.
- 3) John Gardner will look for generic provisions related to an Transmission Interconnection Agreement and contact Mary Jane by e-mail regarding same.
- 4) Chris Bradley will check on permission to share MMWG stability cases - then notify Dave Shafer who (if permitted) will forward the

stability model to Phil Yum.

5) Using the model in 4) above, Phil Yum and Dave Shafer will perform stability screening for the proposed transmission plan based on the detailed analysis done for the Thorobred generator addition.

6, Phil Yum will develop a stability model with the 69kV system in detail and forward to Dave Shafer as soon as it is available.

7) Billy Tiller and Dave Shafer will coordinate the discussions necessary to resolve or explain discrepancies between the two studies in preparation for a summary at the 8/17 meeting - all parties can be kept up to date via e-mail, as appropriate.

The following agenda has been proposed for our meeting on Tuesday August 17, 2004 in Chattanooga.

- \* Summary of Thermal Studies
- \* Transmission Interconnection Agreement
- \* Preliminary results of stability screening based on Thorobred analysis
- \* BREC tie - transfer implication, etc.
- \* Ownership of Caneyville Tap
- \* Miscellaneous
- \* Timeline for moving forward

Please note my e-mail address change - maryjane.warner@ekpc.coop

FYI - please see attached, Billy's recent e-mail.

I think everyone will be in Chattanooga early enough to have a dinner meeting. Just check at the desk when you arrive and if you are there before EKPC, leave a message for me at the desk that includes your room #. I will call everyone when we arrive to set up dinner - probably around 7:00 p.m. eastern.

Chris - you are welcome to join us, likewise please leave a message at the Marriott front desk for me and I can contact you too. The phone # at the Marriott is 423/756-0002.

I assume that dress will be business casual - please let me know if you think otherwise.

Thank you - See you Monday!!

**Cc:** Hall, David  
**Subject:**

Mary Jane and Company,

Here are TVA's answers for our action items.

Action item #1

Facilities we see overloaded:

1. Glasgow tap to Bristow tap for the outage of Lafayette to Summershade (TVA) - Line will be uprated
2. Lafayette to Summershade (TVA) for the outage of E. Bowling Green to Summershade (TVA) - Line will be uprated
3. Summershade (TVA) to Summershade (EKPC) for the outage of Summershade (TVA) to Summershade tap - Line will be uprated
4. Summershade (TVA) to Summershade tap for the outage of the Summershade (TVA) to Summershade (EKPC) - Line will be uprated

Overloads that EKPC/CAI discovered (Case A, WRECC service via TVA) that we have fixes for.

1. Bowling Green to Lost City for the outage of Paradise to Bowling Green - Line to be uprated
2. Gallatin to Hartsville for the outage of E Gallatin to Fountainhead - Line to be uprated.

Overloads that EKPC/CAI discovered (Case A, WRECC service via TVA) that does not overload in TVA analysis

1. Franklin to Portland Switching Station for the outage of ?
2. Summershade (TVA) to Summershade (EKPC) for the outage of ?
4. Memphis Junction to South Bowling Green tap for the outage of ?
5. Bowling Green to South Bowling Green tap for the outage of ?
6. Paradise to Aberdeen tap for the outage of Paradise to Bowling Green

Transfer limit details:

Exports to:

1. AEP reduced by 52 MW. Limit caused by E Bowling Green to Bristow tap for the outage of Lafayette to Summershade.
2. BREC reduced by 563 MW. Limit caused by E Bowling Green to Bristow tap for the outage of Lafayette to Summershade.
3. EKPC reduced by 33 MW. Limit caused by E Bowling Green to Bristow tap for the outage of Lafayette to Summershade.
4. LGEE reduced by 105 MW. Limit caused by E Bowling Green to Bristow tap for the outage of Lafayette to Summershade.

Action item #2 - Case has been sent to Dave Shafer

A note about the limits that are being seen. There seems to be a disconnect between TVA and EKPC on the nature of the "base case" to be used in evaluating the study results. TVA's "base case" is a case in which the Warren RECC load is served by EKPC with the EKPC line from Barren County to Wilson line in service, but no free flowing interconnections to TVA. In our opinion this is the best starting point for comparing to other scenarios. We have compared this case to the proposal as submitted by EKPC.

If you have any questions let me know.

Billy Tiller

Mike and all,

I think it would be good if we studied out that far, but I am concerned about many aspects of the cases that far into the future.

For this reason I do not see us studying beyond 2010.

Billy

**Subject:** Future cases beyond 2010 Summer for Warren RECC Service Studies

David,

Today, I had a discussion with Al Corbett at TVA concerning future models beyond 2010 Summer which may be needed to complete the Warren RECC service studies we are conducting.

It was decided that TVA would determine if these cases are needed to complete the study.

If TVA decides they are necessary, then they will identify the cases they want, and send them to CAI within the next couple of days, in order to allow for screening for problems within the 3 week target date (beginning July 16) for completion of the study analysis.

Thanks,

**Subject:** Calls & Meeting

Per the action items we developed during our recent call, I want to set up our next group communications.

Please check your calendars for a conference call on Wednesday July 28, 2004 at 3:00 eastern and confirm via e-mail in the next day or so if possible. If this is a suitable time I will notify you of the call arrangements.

We also need to set a time and place for a meeting. Please let me know if you are available on Friday August 6th or Friday August 13th and offer suggestions for a meeting time. I have assumed that EKPC and WREC will travel to Chattanooga, but if there are reasons to consider another location, please let me know.

Thank you

**Subject:** Warren Transmission Study

Billy,

We noted in your contingency list below that you have the Memphis Junction (TVA) -MJN (EKPC) as a single contingency and as part of a double contingency. We have reviewed the breaker arrangement at Memphis Junction and note that TVA has two lines into Memphis Jct each terminated in a 161 kV circuit breaker. The Memphis Junction (TVA)-MJN (EKPC) represents the change in ownership between TVA and-EKPC systems (i.e. essentially the bus) and would therefore not be considered a single line contingency. We believe a single contingency simulation would be either the outage of the Franklin-Memphis Jct or the S. Bowling Green-Memphis Jct but not both simultaneously. A double contingency would be both out simultaneously. Please let me know if we have correctly interpreted the switching arrangement at Memphis Junction.

Billy,

Here is the N-2 critical contingency list, which violated our criteria in our cases. The selected contingency lines are only based on our first phase study, and it doesn't necessary that it contains every critical N-2. Thanks.

N-1: Memphis Junction (TVA) -MJN (EKPC)  
N-2: Aberdeen Tap -Wilson 161KV and E.Bowling (TVA)- EBG (EKPC)  
MJN(EKPC) -BGMU (EKPC) and Memphis Junction (TVA) - MJN (EKPC)  
Memphis Junction (TVA) -MJN (EKPC) and E.Bowling Green - EBG (EKPC)

**Cc:** Roy Palk; 'WTBoston@tva.gov'  
**Subject:** EKPC-WREC-TVA Interim Conference Call

I spoke with Billy Tiller this morning and would like to propose that we hold a conference call on Tuesday morning August 10th at 9:00 (eastern) to discuss results thus far on our respective studies. This will give us a few days before our meeting (scheduled for the 13th) if there are issues we need to examine or resolve prior to our "end of study" discussions.

Please let me know if you are available for this call.

Thank you

Mary Jane

August 13th was confirmed by all parties as the date we will meet to discuss the results of our coordinated interconnection

**Sent:** Tuesday, July 20, 2004 7:56 AM  
**To:** Michael Spurlock; Darrin Adams; Greg McKinney; Paul Atchison; 'Billy Tiller (E-mail)'; 'Al Corbett (E-mail)'; 'David Hall (E-mail)'; 'Thomas PE Martin (E-mail)'; 'Douglas Elliott (E-mail)'; 'Chris Bradley (E-mail)'; 'Dave Shafer (E-mail)'; 'donnaw@wrecc.com'  
**Subject:** Calls & Meeting

Per the action items we developed during our recent call, I want to set up our next group communications.

Please check your calendars for a conference call on Wednesday July 28, 2004 at 3:00 eastern and confirm via e-mail in the next day or so if possible. If this is a suitable time I will notify you of the call arrangements.

We also need to set a time and place for a meeting. Please let me know if you are available on Friday August 6th or Friday August 13th and offer suggestions for a meeting time. I have assumed that EKPC and WREC will travel to Chattanooga, but if there are reasons to consider another location, please let me know.

Thank you

listed in priority order.

1. East Bowling Green
2. Memphis Junction
3. Franklin

These interconnections are needed for EKPC to become the power supplier for WRECC. I have enclosed a one-line diagram indicating the system improvements we propose and details of the respective interconnection points.

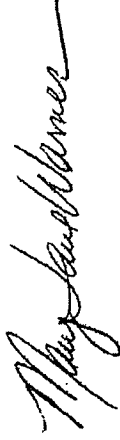

Please note that EKPC has also requested studies with Big Rivers Electric Corporation (BREC) for a 161 kV transmission interconnection between Aberdeen and the BREC Wilson Plant. This reconfiguration is indicated on the one-line diagram and should be modeled accordingly in the study. We believe this connection will eliminate the need for a fourth interconnection between EKPC and TVA at Aberdeen (as originally considered), and provide enough support for the East Bowling Green area to eliminate dependence on your existing 161 kV line from Paradise to East Bowling Green. This plan will also enhance reliability by providing a second major feed to the WRECC system that would be critical in the event of an outage of the proposed Barren County –Magna line, which is to serve as the main tie to EKPC's system.

- 2) **Dave Shafer and Billy Tiller** will exchange cases as soon as possible for evaluation and reconciliation of results.
- 3) **John Gardner** will look for generic provisions related to an Transmission Interconnection Agreement and contact Mary Jane by e-mail regarding same.
- 4) **Chris Bradley** will check on permission to share MMWG stability cases - then notify **Dave Shafer** who (if permitted) will forward the stability model to Phil Yum.
- 5) Using the model in 4) above, **Phil Yum and Dave Shafer** will perform stability screening for the proposed transmission plan based on the detailed analysis done for the Thorobred generator addition.
- 6) **Phil Yum** will develop a stability model with the 69kV system in detail and forward to Dave Shafer as soon as it is available.
- 7) **Billy Tiller and Dave Shafer** will coordinate the discussions necessary to resolve or explain discrepancies between the two studies in preparation for a summary at the 8/17 meeting - all parties can be kept up to date via e-mail, as appropriate.

The following agenda has been proposed for our meeting on Tuesday August 17, 2004 in Chattanooga.

- Summary of Thermal Studies
- Transmission Interconnection Agreement
- Preliminary results of stability screening based on Thorobred analysis
- BREC tie - transfer implication, etc.
- Ownership of Caneyville Tap
- Miscellaneous
- Timeline for moving forward

Please review the action item list below resulting from our call this morning and note any items that require your attention.

Also please let me know if there are errors or omissions.

I added one item (Caneyville Tap) we did not discuss as a planning issue, but that is a current issue we would like to review.

Thank you

Mary Jane Warner

Action Item list - 8/10/2004

Parties represented - EKPC, WREC, Ottis Jones, TVA, BREC, CAI

- 1) Billy Tiller will send detailed study results of overloads, fixes currently planned by TVA and impacts to transfers into and out of TVA, to Mary Jane Warner, Dave Shafer, Darrin Adams, Mike Spurlock and Chris Bradley.
- 2) Dave Shafer and Billy Tiller will exchange cases as soon as possible for evaluation and reconciliation of results.
- 3) John Gardner will look for generic provisions related to an Transmission Interconnection Agreement and contact Mary Jane by e-mail regarding same.

**Subject:** RE: Interim Teleconference

Phil/Dave,

My Peabody contact is out for the week. However, since we need the ability to evaluate the system with and without Thoroughbred, I feel comfortable with CAI providing the model to TVA for use in this study. Since the model is based on a MMWG dynamics case, the standard confidentiality rules should be followed (the same rules that TVA follows when receiving a dynamics case from SERC or the MMWG).

Dave,

Please provide the discussed model to Phil.

Thank You,

Chris Bradley

Thanks, Mary.

I just want to make sure that Item 4. has to be decided first as soon as possible before developing the study case for stability study.

Phil Yum.

**cc:** Roy Palk; Paul Atchison; Michael Spurlock; Darrin Adams; 'GeraldH@WRECC.com'; 'DonnaW@WRECC.com'; Thomas Martin (E-mail); Douglas Elliott (E-mail); 'MikeE@WRECC.com'; Chris Bradley (E-mail)  
**Subject:** RE: Agenda and participant list

Hi Billy -

Our final attendee list is as follows.

### EKPC

Roy Palk  
Paul Atchison  
Mary Jane Warner  
Mike Spurlock  
Darrin Adams

### WREC

Gerald Hayes  
Donna White  
Tom Martin  
Mike Eastridge  
Doug Elliott  
Ottis Jones

### CAI

Steve Shafer

I plan to speak with Chris Bradley this afternoon and finalize arrangements with him. Like you, I think he could effectively participate by telephone during the meeting and I will make sure that we know how and when Chris wishes to join us.

I had planned to bring a printed agenda based on the items proposed in my 8/10/04 e-mail as follows.

1. Summary of Studies to date
2. Preliminary results of stability screening
3. Timeline for finishing study
4. Discussion of BREC tie line
5. Interconnection Agreement
6. Caneyville Tap Ownership

We will be leaving around 2:00 p.m. today - see you tomorrow.

Mary Jane

**To:** Mary Jane Warner  
**Subject:** Agenda and participant list

Mary Jane,

I wanted to verify the agenda with you and also the participants.

From TVA we will have the following people:

Terry Boston  
David Hall  
Jim Whitehead  
Mark Brooks  
Ron Owens  
Billy Tiller

The items we discussed for the agenda were:

Clean up studies  
Interconnection Agreement  
Timeline for finishing study  
Preliminary stability information if available  
Discussion about the Big River's tie line

I only wrote down a partial list of the attendees from EKPC, Warren, and CAI. Would you mind sending me the list again?

I have not answered Chris Bradley. Have you? We don't have any problem with Chris attending via phone. If we wait to discuss Big River's tie until the end we could call him at that time and he could listen then and not have to hang on the phone for entire discussion. If he is preparing for 2 audits then he will probably need all the time he can get to get ready.

We look forward to see you on Tuesday.

Billy Tiller

**Subject:** Interconnection Agreement

Mary Jane:

We do not have a standard form Interconnection Agreement to provide you. New Interconnection Agreements between TVA and neighboring transmission systems are quite infrequent and have been individually negotiated and drafted based upon the unique circumstances and the benefits to each party.

The existing Interconnection Agreement between TVA and EKPC, TV-24847A, dated January 22, 1964, as amended, would probably be the best starting reference point.

**John Gardner**
