Dear Director:

I am writing with concern about Mallard Point Disposal Systems increasing our rates from \$35.29 to \$52.78. I feel this is a very steep jump considering we do not receive any kind of maintenance or repairs on our sewer systems. They just raised our rates a few dollars this past year. I don't know anyone who pays almost \$53.00 a month for sewer disposal.

I would also like to express concern about the smell the Disposal System lets off around Northern Elementary School. I am not sure if you are the person to address this to, but I have two children who attend Northern and any time you go to the school there is an overwhelming smell of sewage. I wonder if this safe for the children?

Thank you for your time and consideration.

Sincerely,

Lisa Bell
