RE: Case No. 2005-00331
Filing Deficiencies

Dear Mr. Burford:

We are in receipt of your letter dated September 19, 2005 concerning the remaining deficiency as follows:

1. Filing deficiencies pursuant to 807 KAR 5:011:
Section 10(3) 807 KAR 5:011: Section 10(3) No more than two (2) such tariff filings under this procedure shall be made between general rate cases. Additional tariff filings for non-recurring charges will be processed according to general rate case procedures.

When we filed our response of August 31, 2005 we did not realize that the Public Service Commission does not consider rate changes in accordance with KRS 278.023 as general rate cases.

Warren County Water District received approval of a rate change in Case No. 2005-00299 dated August 15, 2005 and really do not see a need for another rate case at this time. We request the Commission to deviate from the rules in 807 KAR 5:011 Section 10(3) in accordance with Section 14.

The deviation in the rules would allow the Water District to recover its cost of installing new water service connections on one inch and larger meters since a general rate case is not anticipated to be needed in the next few years.

If we can provide you additional information, please let us know.

Sincerely,

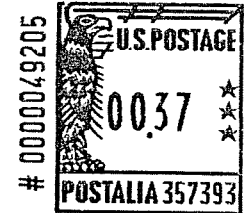

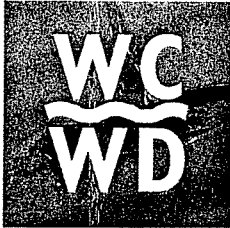

Alan Vilines
General Manager
