

Case No.
2005-00472

Route 2

December 19, 2005

[property owner (per PVA)]
[owner's address (per PVA)]

RE: Notice of Proposed Construction of Electric Transmission Line

Dear [Mr./Ms. _____]:

[Kentucky Utilities Company (KU)] plans on constructing a 345,000 volt electric transmission line from the Mill Creek generating station in Jefferson County to our Hardin County substation. This line is part of our continuing efforts to meet the increasing energy needs of our customers. Part of the planned line would cross your property. The route of this planned line is shown on the map enclosed with this letter.

This line was the subject of a public communications effort by [KU] during the past few weeks. You may be wondering why we are writing to you again. [KU] is sending this letter to officially notify you that [KU] has notified the Kentucky Public Service Commission that we plan to apply for regulatory approval for construction of the planned line. The Commission has assigned the case docket number 2005-00467.

We have also notified the Commission that [KU] plans to apply for regulatory approval of an alternative line that varies somewhat from the preferred line. The alternative line was also the subject of a public communications effort by [KU] in recent weeks. The Commission has assigned this case docket number 2005-00472. A map of the route that the alternative line would take is also enclosed with this letter. The alternative route is [KU]'s second choice and would only be approved by the Commission if the Commission declines approval of [KU]'s preferred route. While only one of the routes can be approved, either one would cross your property the same way. The portions of the routes that differ are not on your property.

If the Commission approves construction of either line, representatives of [KU] will contact you to discuss purchasing an easement allowing us to build the planned line across a portion of your property.

In addition, under Kentucky law, after [KU] has filed its application with the Commission, you have the right to request that the Kentucky Public Service Commission hold a local public hearing regarding the planned line. You also have the right to ask to intervene in the case. If you would like to request a local public hearing, the request must be made in writing to the Executive Director of the Kentucky Public Service Commission. The Executive Director's address is:

Executive Director

[property owner (per PVA)]

December 19, 2005

Page 2

Public Service Commission
211 Sower Boulevard
P.O. Box 615
Frankfort, Kentucky 40602

Any written request for a hearing must be made no later than thirty (30) days after [KU] has filed an application for a certificate of public convenience and necessity for the planned line. We have not filed that application yet but will file it on or after December 22, 2005. Any written request for a hearing will need to include the following:

1. the docket number of the case (the docket number for the preferred route is 2005-00467 and the docket number for the alternative route is 2005-00472);
2. the name, address, and telephone number of the person requesting the hearing; and,
3. a statement as to whether the person requesting the hearing wishes to participate in an evidentiary hearing or to make unsworn public comment.

If you wish to participate in an evidentiary hearing, you will also need to intervene in the case. You may request to intervene by filing a motion pursuant to 807 KAR 5:001, Section 3(8). If you would like to contact the Executive Director's office by telephone, the number is (502) 564-3940.

The planned line is very important to the continued reliability of our electric transmission system. We welcome any further comments you have regarding the line. You are welcome to call our Right-of-Way Department collect at (502) 627-3160.

Sincerely,

Mark S. Johnson
Director - Transmission

RE: Corrected Notice of Proposed Construction of Electric Transmission Line

Dear [REDACTED]

On December 20, 2005, Kentucky Utilities (KU) wrote to you to explain that we plan on constructing a 345,000 volt electric transmission line from the Mill Creek generating station in Jefferson County to KU's Hardin County substation. In that letter we explained that Part of the planned line may cross your property in [REDACTED] County. However, we only notified you of the alternative route we have proposed and indicated that our preferred route would not cross your property. Since sending the December 20 letter, we have determined that the preferred route would cross a corner of your property if approved. We are sending this letter to correct the inaccurate information in our earlier letter and notify you of the preferred route. A map of the preferred route is enclosed.

KU applied to the Kentucky Public Service Commission for regulatory approval for construction of the preferred line on December 22, 2005. The Commission has assigned the case docket number 2005-00467.

KU also applied to the Commission for regulatory approval of the alternative line described in our December 20 letter on December 22, 2005. The Commission assigned that case docket number 2005-00472. As we explained in our earlier letter, the alternative route is KU's second choice and would only be approved by the Commission if the Commission declines approval of KU's preferred route. Either route would cross your property but would cross in different places.

Under Kentucky law, you and other interested persons have the right to request that the Kentucky Public Service Commission hold a local public hearing regarding the planned line. Please note that other interested parties have already requested a local public hearing and the Commission has scheduled that hearing for 6:00 p.m., Eastern Standard Time, on February 1, 2006, in the Pritchard Community Center, 404 South Mulberry Street in Elizabethtown, Kentucky. You have a right to attend the local public hearing on February 1 and speak at that hearing if you would like to do so. Please note that the hearing date may change. You also have the right to ask to intervene in the case.

While the local public hearing has already been scheduled, we are required to inform you that if you would like make a request for a local public hearing, the request must be made in writing to the Executive Director of the Kentucky Public Service Commission. The Executive Director's address is:

Executive Director

Page 2

Public Service Commission
211 Sower Boulevard
P.O. Box 615
Frankfort, Kentucky 40602

Any written request for a hearing will need to include the following:

1. the docket number of the case (the docket number for the preferred route is 2005-00467 and the docket number for the alternative route is 2005-00472);
2. the name, address, and telephone number of the person requesting the hearing; and,
3. a statement as to whether the person requesting the hearing wishes to participate in an evidentiary hearing or to make unsworn public comment.

If you wish to participate in an evidentiary hearing, you will also need to intervene in the case. You may request to intervene by filing a motion pursuant to 807 KAR 5:001, Section 3(8). If you would like to contact the Executive Director's office by telephone, the number is (502) 564-3940. Please note that the Commission has scheduled the evidentiary hearing for 9:00 a.m., Eastern Standard Time, On February 28, 2006 in Hearing Room 1 of the Commission's offices at 211 Sower Boulevard, Frankfort, Kentucky. Please note that this hearing date may also change.

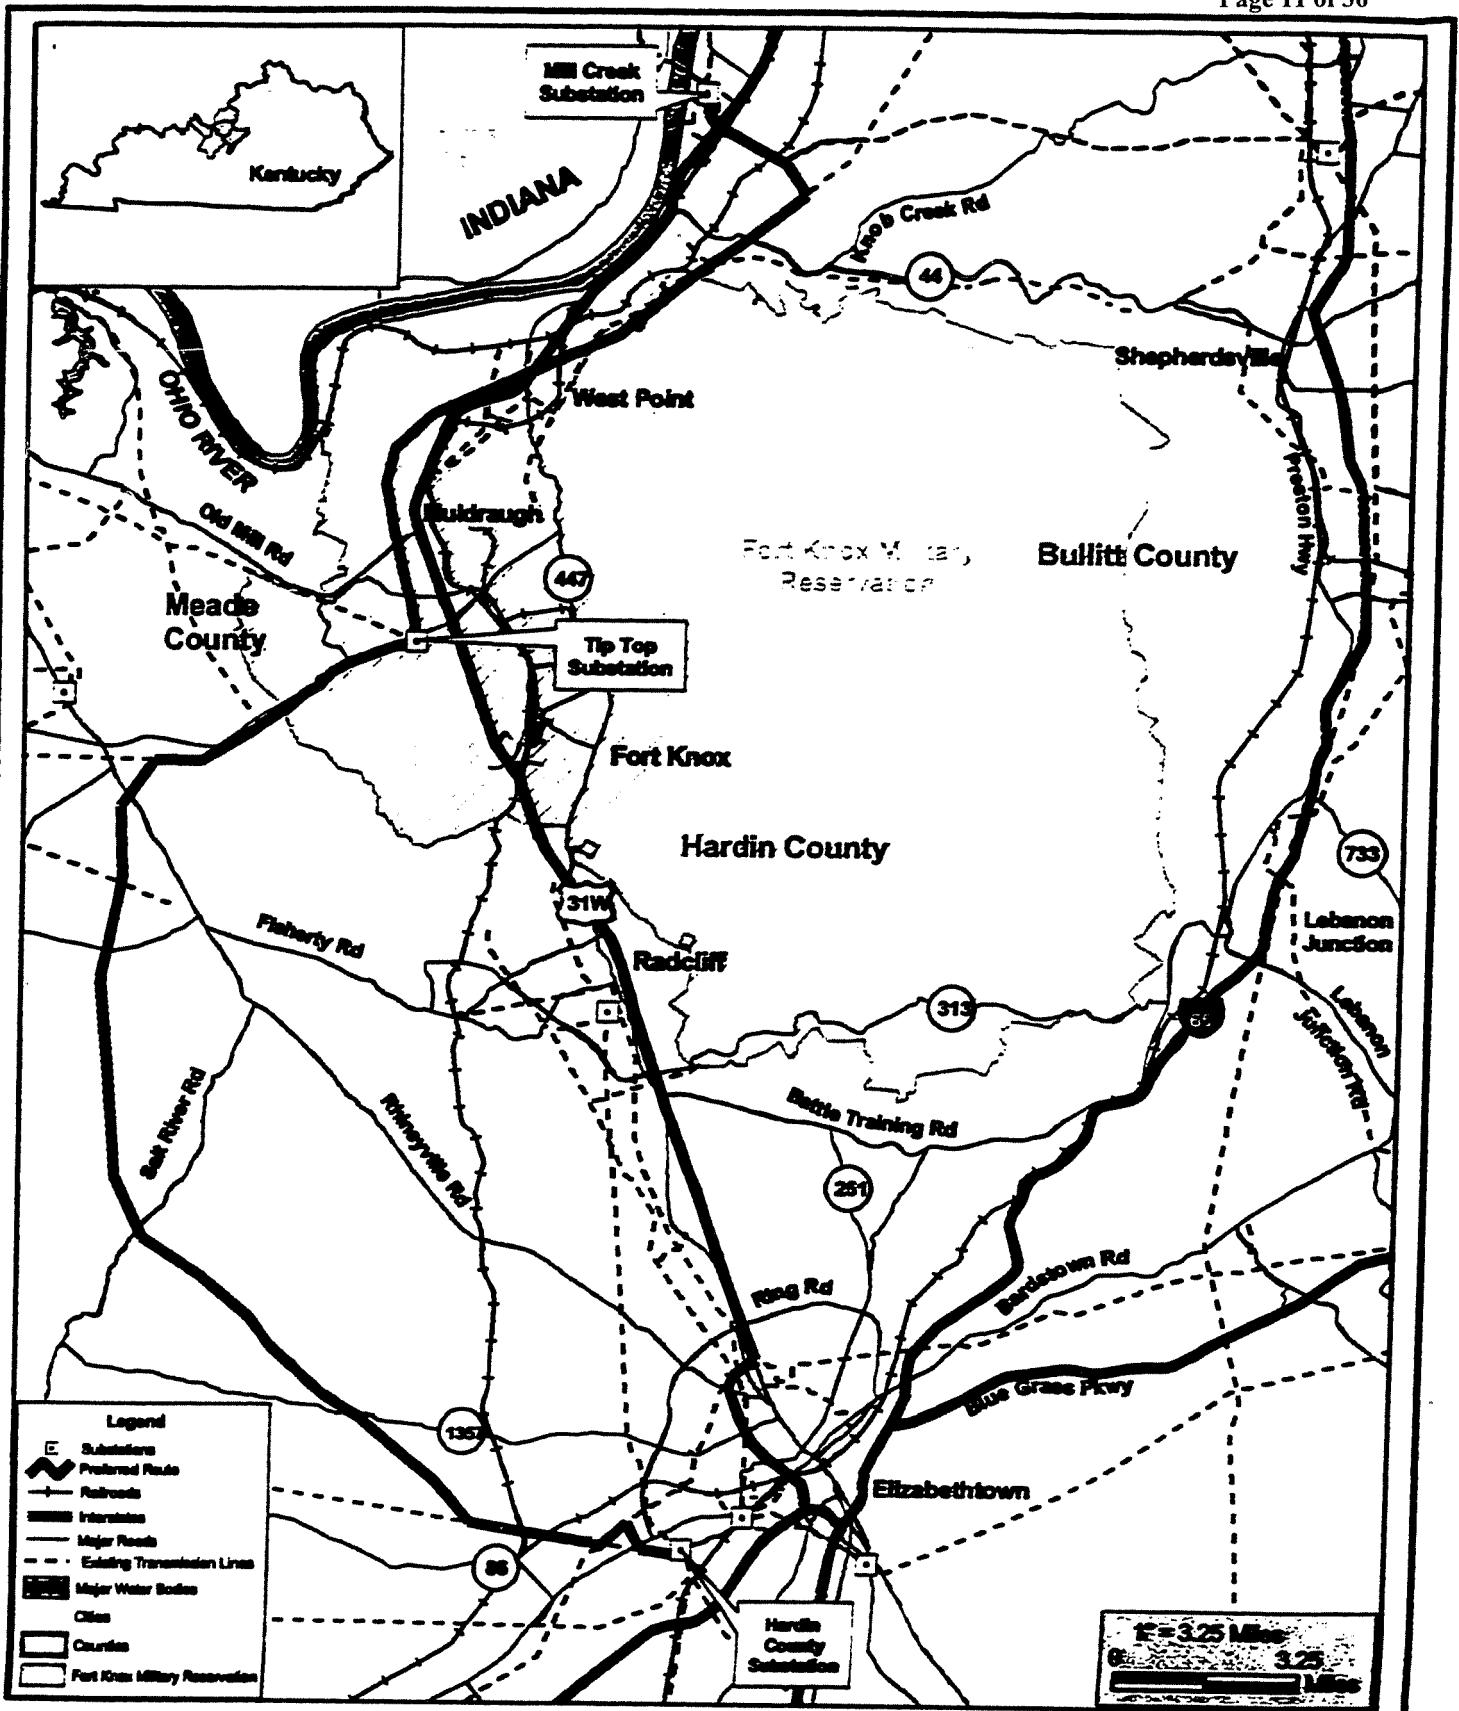

The planned line is very important to the continued reliability of our electric transmission system. We apologize for any confusion caused by inaccuracies in our earlier letter. If you have any questions, you are welcome to call our Right-of-Way Department collect at (502) 627-3160.

Sincerely,

Kathy Star

Re: Addressee on Notice of Proposed Construction of Transmission Line

Dear [REDACTED]

On December 20, 2005, Kentucky Utilities Company (KU) mailed a letter notifying [REDACTED] of KU's plans to construct an electric transmission line that would cross your property. Since mailing that letter we have learned that public records reflect that the property is also owned by [REDACTED]

Our December 20 letter was addressed only to [REDACTED]. To correct that oversight on our part, we are sending this letter addressed to both of you and enclosing a copy of the December 20 letter for your review. Should you have any questions regarding the enclosed letter or the proposed line, please contact our Right-of Way Department at (502) 627-3160.

Sincerely,

Kathy Eoblay

RE: Notice of Proposed Construction of Electric Transmission Line

Dear [REDACTED]

Louisville Gas and Electric Company (LG&E) plans on constructing a 345,000 volt electric transmission line from the Mill Creek generating station in Jefferson County to KU's Hardin County substation. This line is part of our continuing efforts to meet the increasing energy needs of our customers. Part of the planned line may cross your property on [REDACTED] in [REDACTED] County. We will be contacting you in the near future to discuss conducting a survey to determine if, in fact, your property will be crossed by the proposed line. The route of this planned line is shown on the map enclosed with this letter.

LG&E is sending this letter to notify you that LG&E applied to the Kentucky Public Service Commission for regulatory approval for construction of the planned line on December 22, 2005. The Commission has assigned the case docket number 2005-00467.

LG&E also applied to the Commission for regulatory approval of an alternative line that varies somewhat from the preferred line on December 22, 2005. The Commission has assigned this case docket number 2005-00472. A map of the route that the alternative line would take is also enclosed with this letter. The alternative route is LG&E's second choice and would only be approved by the Commission if the Commission declines approval of LG&E's preferred route. Either route would cross your property the same way. The portions of the routes that differ are not near your property.

If the Commission approves construction of either line and we determine that the route will cross your property, representatives of LG&E will contact you to discuss purchasing an easement allowing us to build the planned line across a portion of your property.

In addition, under Kentucky law, you and other interested persons have the right to request that the Kentucky Public Service Commission hold a local public hearing regarding the planned line. Please note that other interested parties have already requested a local public hearing and the Commission has scheduled that hearing for 6:00 p.m., Eastern Standard Time, on February 1, 2006, in the Pritchard Community Center, 404 South Mulberry Street in Elizabethtown, Kentucky. You have a right to attend the local public hearing on February 1 and speak at that hearing if you would like to do so. You also have the right to ask to intervene in the case.

██████████ 2006
Page 2

While the local public hearing has already been scheduled, we are required to inform you that if you would like make a request for a local public hearing, the request must be made in writing to the Executive Director of the Kentucky Public Service Commission. The Executive Director's address is:

Executive Director
Public Service Commission
211 Sower Boulevard
P.O. Box 615
Frankfort, Kentucky 40602

Any written request for a local public hearing must be made no later than January 23, 2006. Any written request for a hearing will need to include the following:

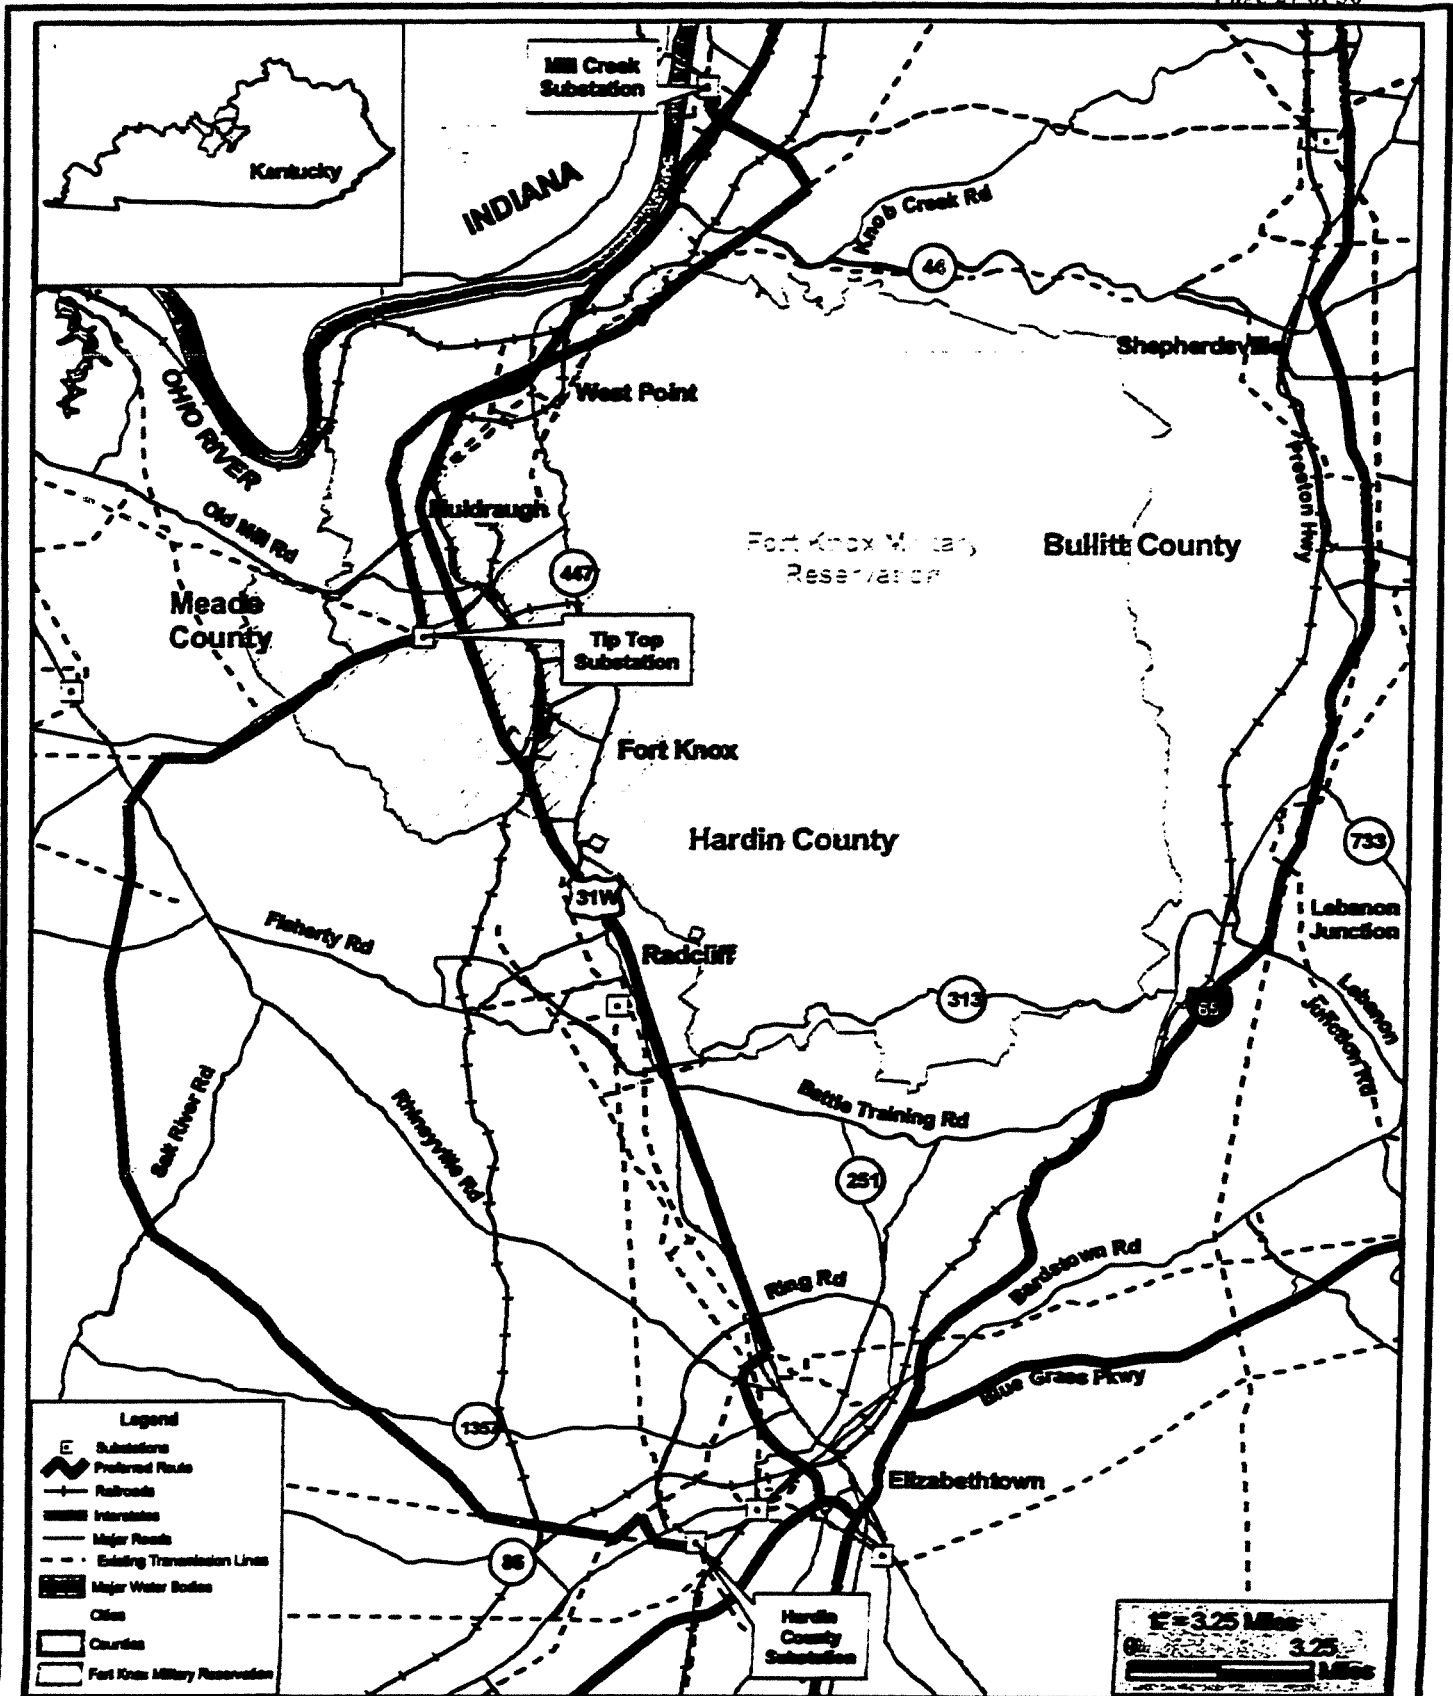

1. the docket number of the case (the docket number for the preferred route is 2005-00467 and the docket number for the alternative route is 2005-00472);
2. the name, address, and telephone number of the person requesting the hearing; and,
3. a statement as to whether the person requesting the hearing wishes to participate in an evidentiary hearing or to make unsworn public comment.

If you wish to participate in an evidentiary hearing, you will also need to intervene in the case. You may request to intervene by filing a motion pursuant to 807 KAR 5:001, Section 3(8). The Commission has set a deadline of January 23, 2006 for any motions to intervene. If you would like to contact the Executive Director's office by telephone, the number is (502) 564-3940. Please note that the Commission has scheduled the evidentiary hearing for 9:00 a.m., Eastern Standard Time, On February 28, 2006 in Hearing Room 1 of the Commission's offices at 211 Sower Boulevard, Frankfort, Kentucky.

The planned line is very important to the continued reliability of our electric transmission system. We will be contacting you shortly to request your comments regarding the proposed line. If you have any questions in the meantime, you are welcome to call our Right-of-Way Department collect at (502) 627-3160.

Sincerely,

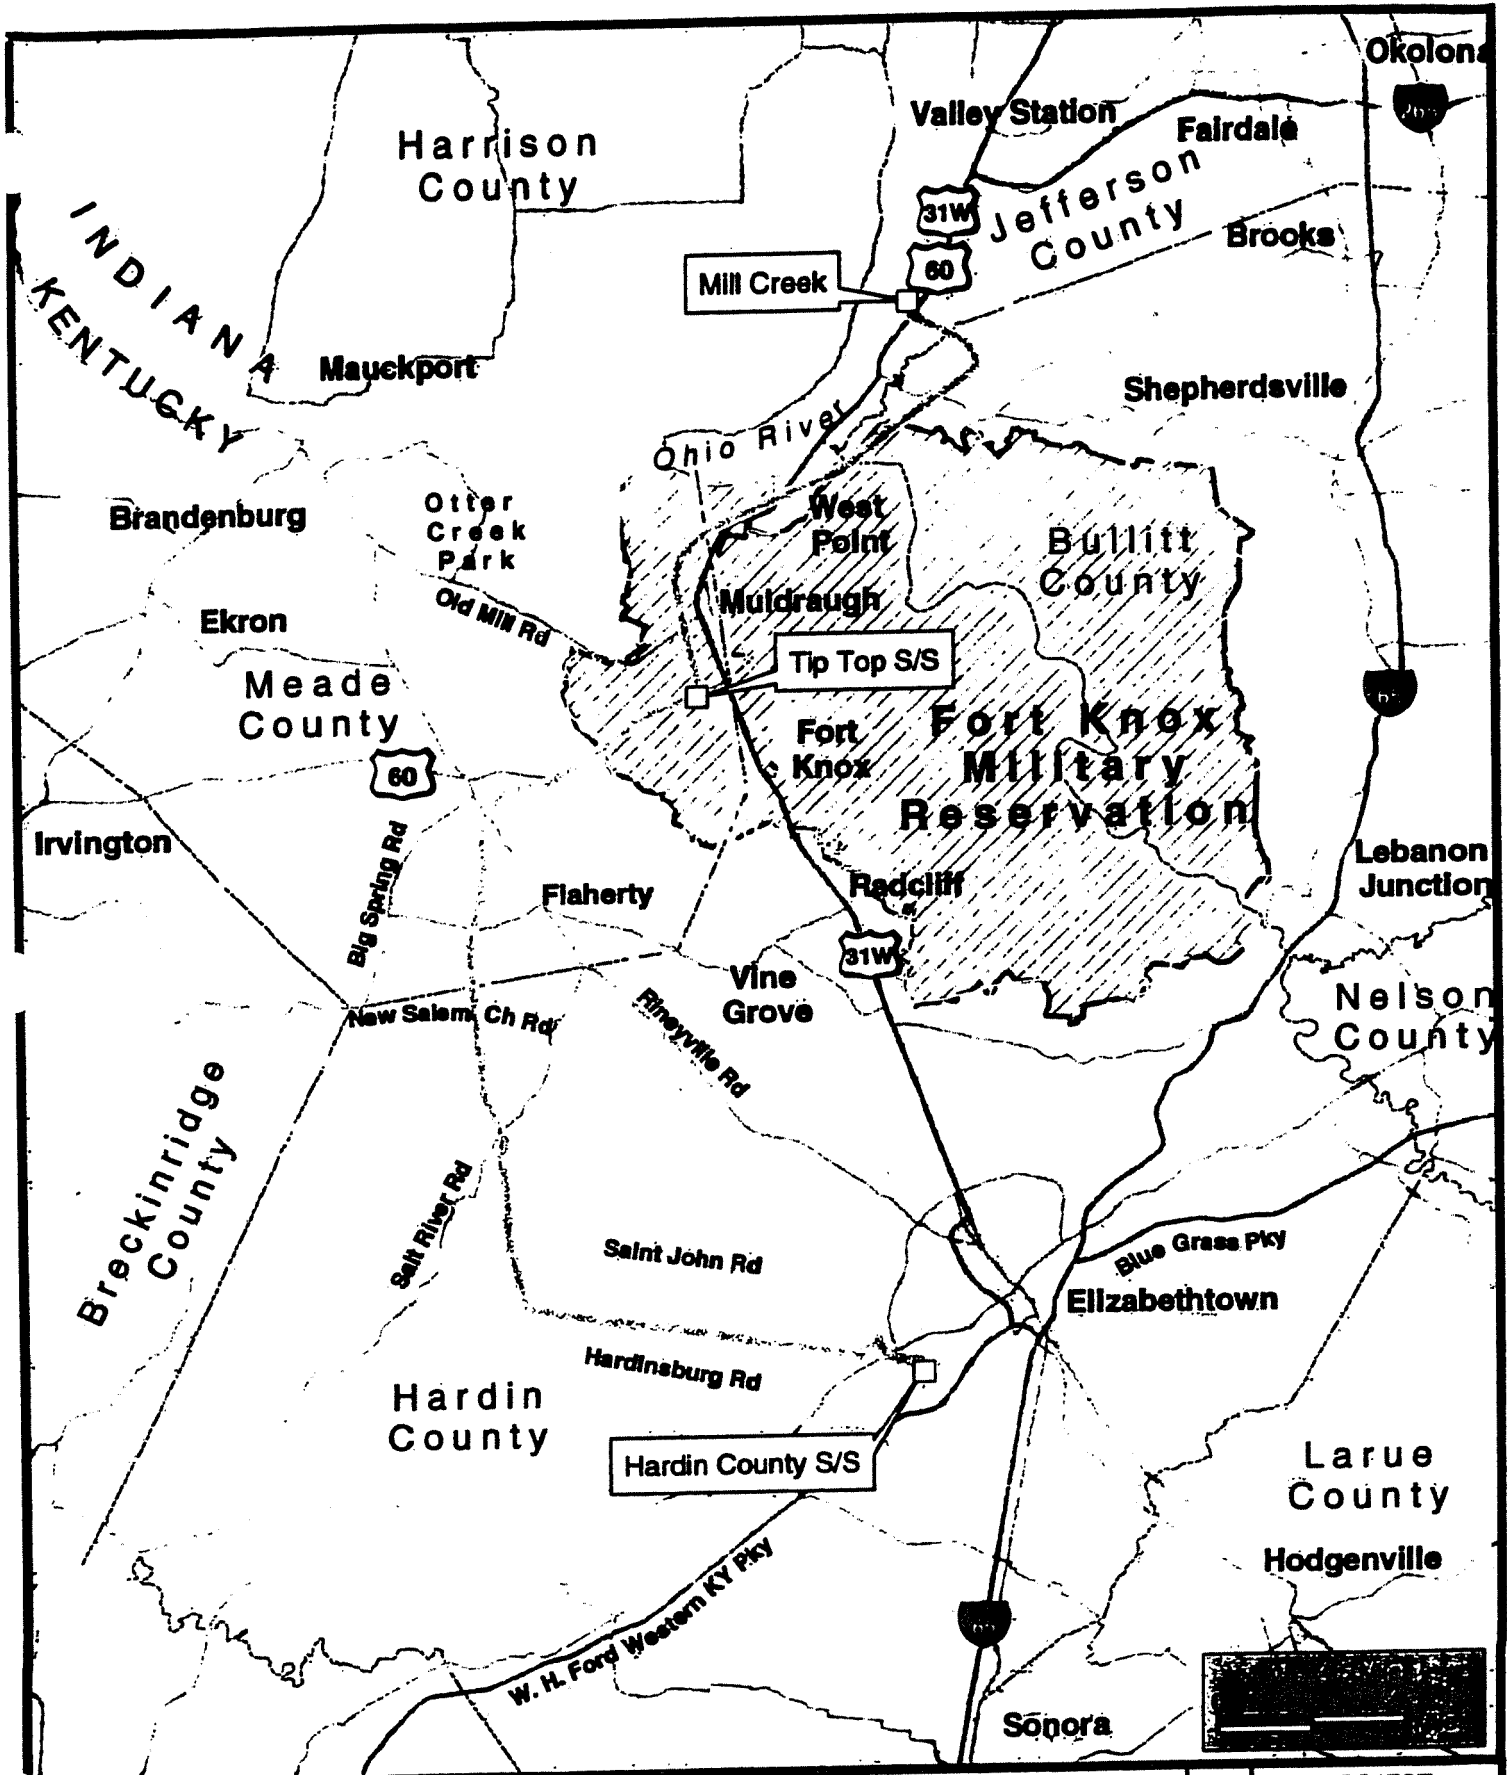

Kathy Slay

RE: Notice of Proposed Construction of Electric Transmission Line

Dear [REDACTED]

Kentucky Utilities Company (KU) plans on constructing a 345,000 volt electric transmission line from the Mill Creek generating station in Jefferson County to our Hardin County substation. This line is part of our continuing efforts to meet the increasing energy needs of our customers. Part of the planned line may cross your property in [REDACTED] County. We will be contacting you in the near future to discuss conducting a survey to determine if, in fact, your property will be crossed by the proposed line. The route of this planned line is shown on the map enclosed with this letter.

KU is sending this letter to notify you that KU applied to the Kentucky Public Service Commission for regulatory approval for construction of the planned line on December 22, 2005. The Commission has assigned the case docket number 2005-00467.

KU also applied to the Commission for regulatory approval of an alternative line that varies somewhat from the preferred line on December 22, 2005. The Commission has assigned this case docket number 2005-00472. A map of the route that the alternative line would take is also enclosed with this letter. The alternative route is KU's second choice and would only be approved by the Commission if the Commission declines approval of KU's preferred route. Either route would cross your property the same way. The portions of the routes that differ are not near your property.

If the Commission approves construction of either line and we determine that the route will cross your property, representatives of KU will contact you to discuss purchasing an easement allowing us to build the planned line across a portion of your property.

Page 2

In addition, under Kentucky law, you and other interested persons have the right to request that the Kentucky Public Service Commission hold a local public hearing regarding the planned line. Please note that other interested parties have already requested a local public hearing and the Commission has scheduled that hearing for 6:00 p.m., Eastern Standard Time, on February 1, 2006, in the Pritchard Community Center, 404 South Mulberry Street in Elizabethtown, Kentucky. You have a right to attend the local public hearing on February 1 and speak at that hearing if you would like to do so. You also have the right to ask to intervene in the case.

While the local public hearing has already been scheduled, we are required to inform you that if you would like make a request for a local public hearing, the request must be made in writing to the Executive Director of the Kentucky Public Service Commission. The Executive Director's address is:

Executive Director
Public Service Commission
211 Sower Boulevard
P.O. Box 615
Frankfort, Kentucky 40602

Any written request for a local public hearing must be made no later than January 23, 2006. Any written request for a hearing will need to include the following:

1. the docket number of the case (the docket number for the preferred route is 2005-00467 and the docket number for the alternative route is 2005-00472);
2. the name, address, and telephone number of the person requesting the hearing; and,
3. a statement as to whether the person requesting the hearing wishes to participate in an evidentiary hearing or to make unsworn public comment.

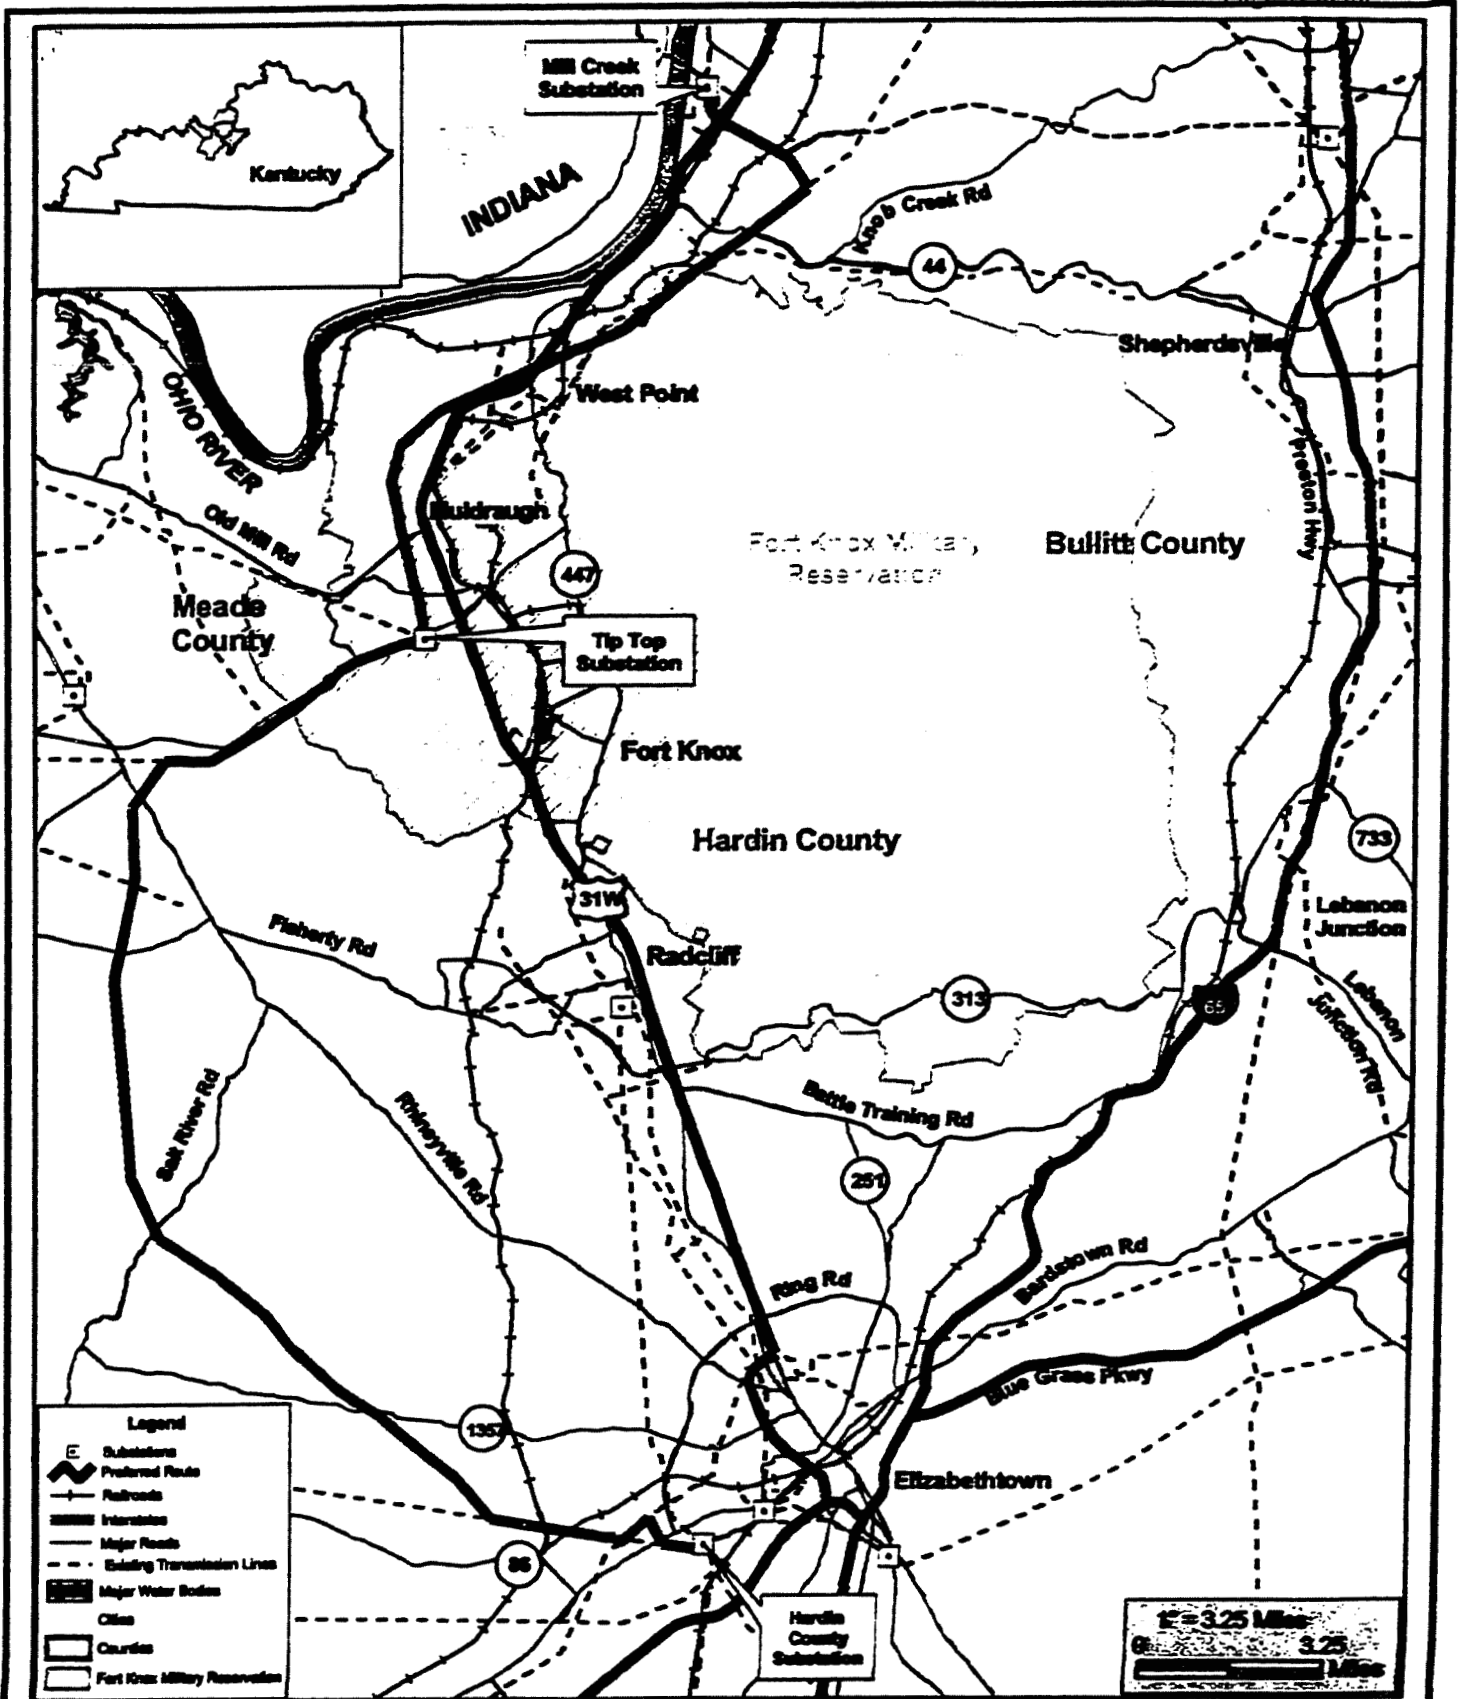

If you wish to participate in an evidentiary hearing, you will also need to intervene in the case. You may request to intervene by filing a motion pursuant to 807 KAR 5:001, Section 3(8). The Commission has set a deadline of January 23, 2006 for any motions to intervene. If you would like to contact the Executive Director's office by telephone, the number is (502) 564-3940. Please note that the Commission has scheduled the evidentiary hearing for 9:00 a.m., Eastern Standard Time, On February 28, 2006 in Hearing Room 1 of the Commission's offices at 211 Sower Boulevard, Frankfort, Kentucky.

The planned line is very important to the continued reliability of our electric transmission system. We will be contacting you shortly to request your comments regarding the proposed line. If you have any questions in the meantime, you are welcome to call our Right-of-Way Department collect at (502) 627-3160.

Sincerely,

Kathy Slay

RE: Notice of Proposed Construction of Electric Transmission Line

BY:.....

Dear [REDACTED]

Louisville Gas and Electric Company (LG&E) plans on constructing a 345,000 volt electric transmission line from the Mill Creek generating station in Jefferson County to KU's Hardin County substation. This line is part of our continuing efforts to meet the increasing energy needs of our customers. Part of the planned line may cross your property on [REDACTED] in [REDACTED] county. We will be contacting you in the near future to discuss conducting a survey to determine if, in fact, your property will be crossed by the proposed line. The route of this planned line is shown on the map enclosed with this letter.

LG&E is sending this letter to notify you that LG&E applied to the Kentucky Public Service Commission for regulatory approval for construction of the planned line on December 22, 2005. The Commission has assigned the case docket number 2005-00467.

LG&E also applied to the Commission for regulatory approval of an alternative line that varies somewhat from the preferred line on December 22, 2005. The Commission has assigned this case docket number 2005-00472. A map of the route that the alternative line would take is also enclosed with this letter. The alternative route is LG&E's second choice and would only be approved by the Commission if the Commission declines approval of LG&E's preferred route. Either route would cross your property the same way. The portions of the routes that differ are not near your property.

If the Commission approves construction of either line and we determine that the route will cross your property, representatives of LG&E will contact you to discuss purchasing an easement allowing us to build the planned line across a portion of your property.

In addition, under Kentucky law, you and other interested persons have the right to request that the Kentucky Public Service Commission hold a local public hearing regarding the planned line. Please note that other interested parties have already requested a local public hearing and the Commission has presently scheduled that hearing for 6:00 p.m., Eastern Standard Time, on February 1, 2006, in the Pritchard Community Center, 404 South Mulberry Street in Elizabethtown, Kentucky. The date of that hearing is subject to change. You have a right to attend any local public hearing and speak at that hearing if you would like to do so. You also have the right to ask to intervene in the case.

Page 2

We are also required to inform you that if you would like make a request for a local public hearing, the request must be made in writing to the Executive Director of the Kentucky Public Service Commission. The Executive Director's address is:

Executive Director
Public Service Commission
211 Sower Boulevard
P.O. Box 615
Frankfort, Kentucky 40602

Under the existing procedural schedule, any written request for a local public hearing must be made no later than January 23, 2006. Again, however, that date is subject to change and may be extended by the Commission. Any written request for a hearing will need to include the following:

1. the docket number of the case (the docket number for the preferred route is 2005-00467 and the docket number for the alternative route is 2005-00472);
2. the name, address, and telephone number of the person requesting the hearing; and,
3. a statement as to whether the person requesting the hearing wishes to participate in an evidentiary hearing or to make unsworn public comment.

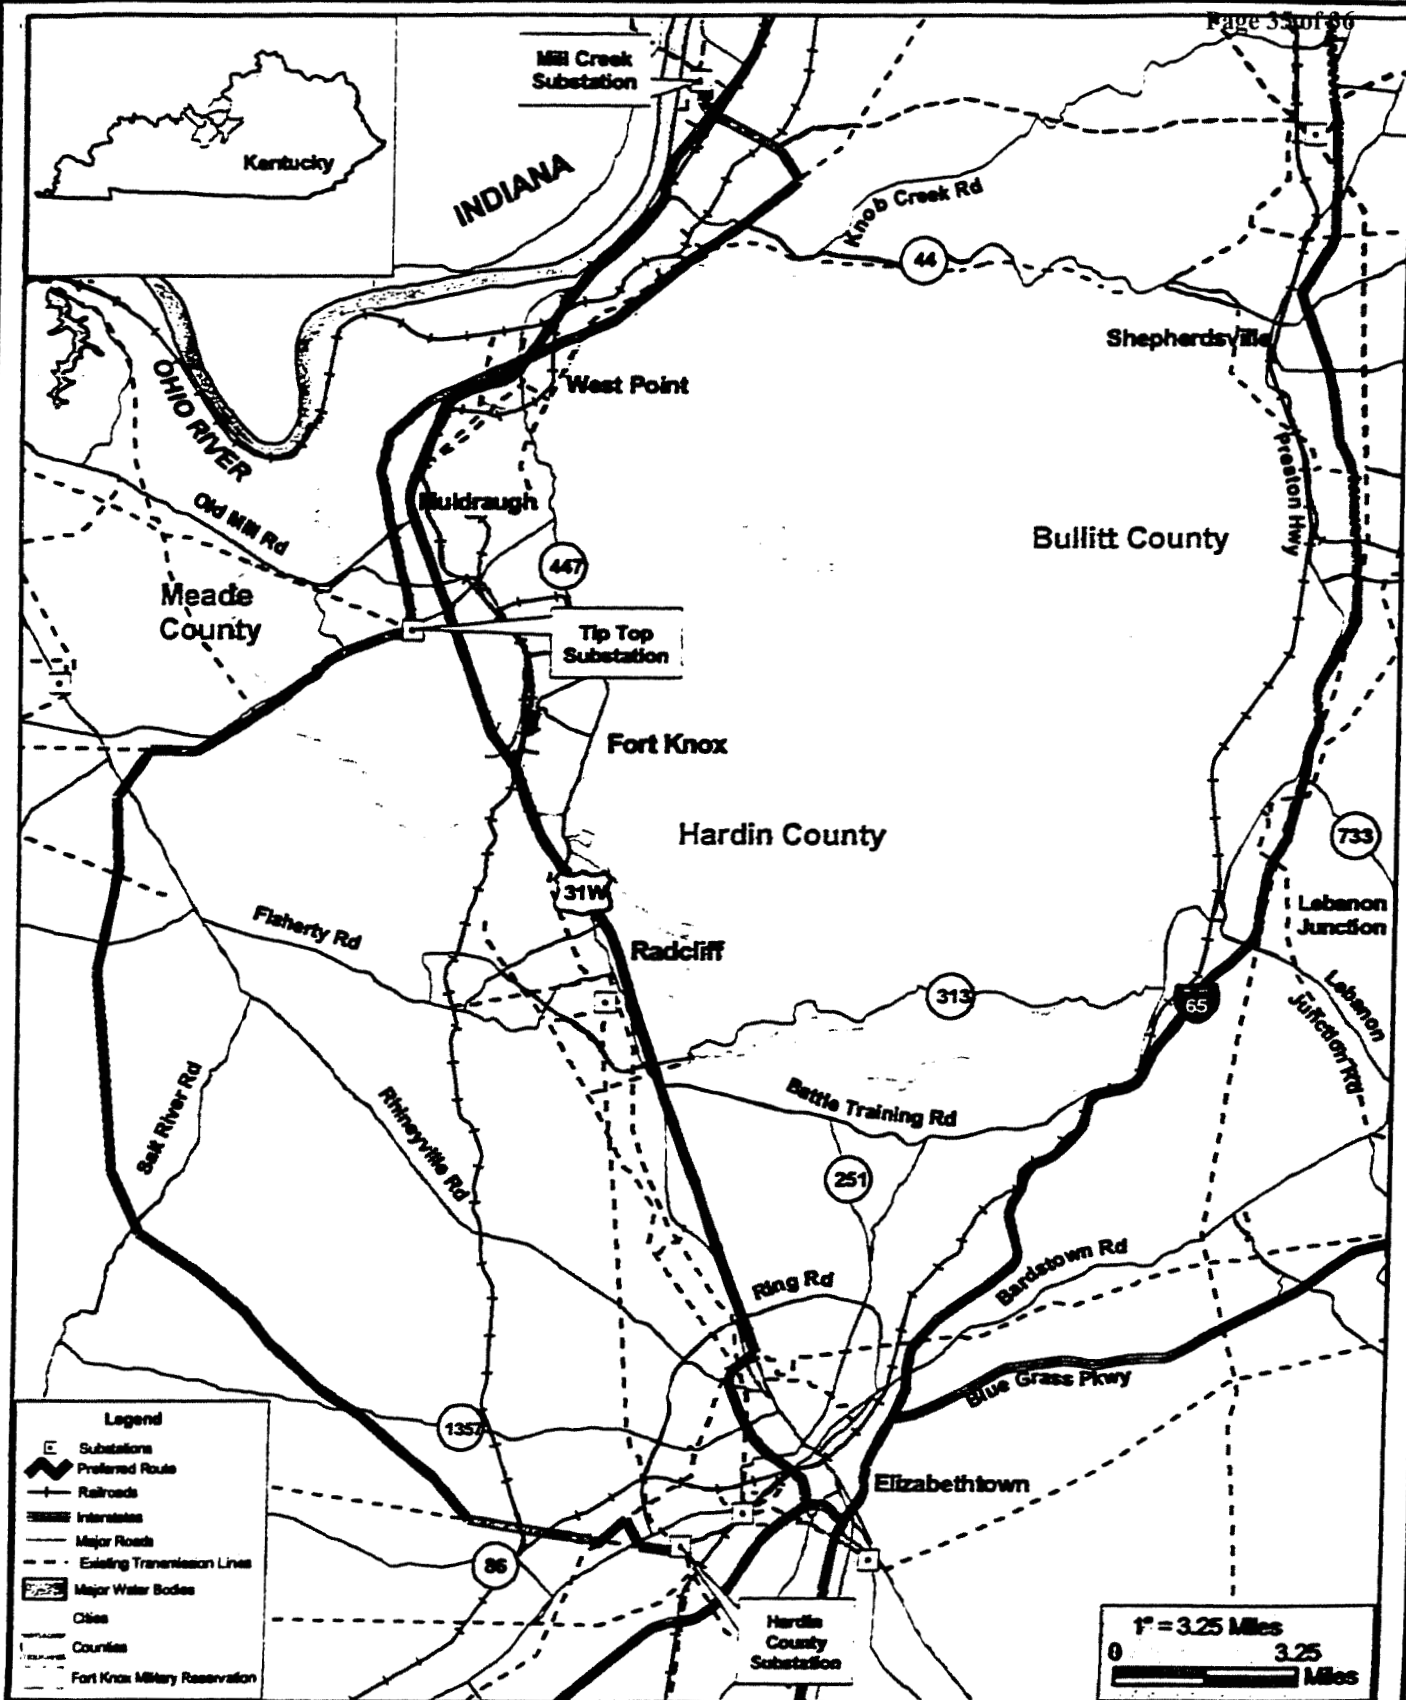

If you wish to participate in an evidentiary hearing, you will also need to intervene in the case. You may request to intervene by filing a motion pursuant to 807 KAR 5:001, Section 3(8). At present, the Commission's deadline for any motions to intervene is January 23, 2006, and the evidentiary hearing is scheduled for 9:00 a.m., Eastern Standard Time, on February 28, 2006 in Hearing Room 1 of the Commission's offices at 211 Sower Boulevard, Frankfort, Kentucky. As is the case with the local public meeting, the dates for intervention and an evidentiary hearing are also subject to change and may be extended by the Commission.

Please note that if you have any questions about the proceedings before the Commission, including any questions regarding any of the dates or deadlines discussed above, you should contact the Commission directly. The phone number for the Commission is 502-564-3940.

The planned line is very important to the continued reliability of our electric transmission system. We will be contacting you shortly to request your comments regarding the proposed line. If you have any questions in the meantime, you are welcome to call our Right-of-Way Department collect at (502) 627-3160.

Sincerely,

Kathy Slay
