RE: Case No. 2005-00535  
Status Request

The Commission entered the enclosed Final Order in this case on March 3, 2006. It was ordered that "Levee Road shall furnish documentation of the total costs of this project including the cost of construction and all other capitalized costs (engineering, legal, administrative, etc.) within 60 days of the date that construction is substantially completed. Construction costs should be classified into appropriate plant accounts in accordance with the Uniform System of Accounts for Water Utilities prescribed by the Commission."

Also "Levee Road shall file a copy of the "as-built" drawings and a certified statement that the construction has been satisfactorily completed in accordance with the contract plans and specifications within 60 days of the substantial completion of the construction certificated herein."

On September 25, 2006, the Commission received a letter from Mr. Hank Spalding, from H.A. Spalding Engineering, Inc., stating some unexpected delays with right-of-way issues. This letter is to request a status on the information requested in said Order. We would appreciate receiving a response to this letter within 15 days. Please mail this response to Michael F.
