Case No. 2005-00539

RE: Formal Application for a Purchased Water Adjustment

This is an application for a purchased water rate adjustment for the Union County Water District. The adjustment is necessary to recover an increase in the cost of water attributable to our supplier's new wholesale rates.

The District will publish the enclosed public notice of these requested rate revisions in the local newspaper. In accordance with PSC rules and regulations, the notice will be published before the new bills are issued and will be published one time. A copy of the newspaper notice will be forwarded to you upon publication.

Sincerely,

Dickie Berry, Manager

The increased water cost is the cost difference between purchases at base (current rate) and purchases at new rate.

6. Purchased water adjustment factor \$0.18.

The purchased water adjustment factor is obtained by dividing the increased cost of water by the total gallons sold.

Note: The purchased water adjustment factor is added to each thousand gallons sold. If the minimum usage is 2,000 gallons then the purchased water adjustment factor would be added to the minimum bill twice. Revised tariff sheets must be attached showing the rate to be charged by the utility and the effective date of the increased rates.

7. Proposed effective date January 1, 2006.

Dear Dickie:

Please find enclosed your revised water rate for the calendar year 2006. The rate has been computed by the City's auditing firm using the criteria in the contract. The new rate is \$1.6606. The increase is due mainly to the capital expenditure on the raw water line.

I have enclosed a copy of the calculation, if you have any questions regarding this matter, please feel free to contact me or David Presser.

Sincerely,

Jerry R. Freer, Mayor
