

To whom it may concern:

I am referring to Case no #2006-00028.
I am a resident of the Farmdale
area and I am definitely opposed to
the sewer rate increase. I understand
that some increase is probably necessary,
but not to the extent of the proposed increase.
I think an increase of a few dollars
is enough to cover any change of time
expenses. Once again, due to the cost
of living, I would understand some
increase but I think the proposed
increase is ~~too~~ unnecessary and
ridiculous.

Sincerely,

Charlotte Wagoner
