

To: The Public Service Commission

I am writing a complaint about Interstate Natural Gas Co, asking for a triple increase in gas rates. I am really concerned no gas company should get an increase like that.

It is going to make it really hard for a person to pay their heat bill. They are asking for an increase from \$5.50/mcf to \$14.44/mcf an estimated increase per customer of \$66.16 per month that is a triple increase. I would really appreciate it if there is something you can do about this matter. What are people, on a fixed income and working people with a lower paying job suppose to do? So please if there is something you can do to help us we would really be grateful. I would really appreciate a response to this matter. My address is
