Sirs:

Please, **do not** allow case No 2006-00208 to go forward. Energy bills have quadrupled already. We can't afford any more raises. Why should Kentuckians pay for something that this company should be doing anyway?

We are drowning in this company's greed as it is.

And why should we allow a corporation in Germany to make any more profit from us without returning it to Kentucky. Sponsoring Derby Festivals and Fireworks or planting trees just doesn't cut it. They should be presenting us with alternative energy like hydroelectric plants or nuclear power or God forbid paying for the schools or homeless mission's gas and electric. No, they will just continue to milk us dry and dangle silly stuff like Derby festival sponsorships claiming they are good for Kentucky.

And why?

Because they Can.

And just because they Can doesn't make it Right.
