Chairman of Public Service Commission  
To The Chairman

I Just Recently Read where The Muhlenberg Co. Water District has Applied For A Rate increase of +27%. I do Not believe this is good for A. County that has one of the largest Unemployment Rate's in the State. People living on Fixed incomes sometimes does not have Money to purchase Food And on medicine. The Water District should Look At Adjusting their Purse String's. We As Retirees CANNOT ASK the Social Security or Retirement Checks For An increase because we Run out of money.

I would suggest A increase of 6% to 8%. 27% is too much of A increase.

Thanks
