RE: Case# 2006-00309 "Gradyville"

Dear Ms. O'Donnell,

Enclosed, please find both the FAA's Determination of No Hazard as well as the Kentucky Airport Zoning Commission's (KACZ) approval in reference to our Case# 2006-00309 as requested in your certificate Of Service and Order dated September 7, 2006.

The approvals were granted in reference for our site located at 550 Willie Nell Rd; Columbia, KY 42728.

Please feel free to contact me with any questions regarding this information

Sincerely,

David Jantzi

SUBJECT: AS-001-196-06-182

STRUCTURE: Antenna Tower
LOCATION: Columbia, KY
COORDINATES: 37-04-03.1 N / 85-23-14.32 W
HEIGHT: 165'AGL/1005'AMSL

The Kentucky Airport Zoning Commission has approved your application for a permit to construct 165'AGL/1005'AMSL Antenna Tower near Columbia, KY 37-04-03.1 N / 85-23-14.32 W.

This permit is valid for a period of 18 Month(s) from its date of issuance. If construction is not completed within said 18-Month period, this permit shall lapse and be void, and no work shall be performed without the issuance of a new permit.

A copy of the approved application is enclosed for your files.

Dual obstruction lighting is required in accordance with 602 KAR 50:100.

PUBLIC SERVICE
 COMMISSION

**** DETERMINATION OF NO HAZARD TO AIR NAVIGATION ****

The Federal Aviation Administration has completed an aeronautical study under the provisions of 49 U.S.C., Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, concerning:

Structure Type: Antenna Tower
 Location: Columbia, KY
 Latitude: 37-4-3.10 N NAD 83
 Longitude: 85-23-14.32 W
 Heights: 286 feet above ground level (AGL)
 1126 feet above mean sea level (AMSL)

This aeronautical study revealed that the structure does not exceed obstruction standards and would not be a hazard to air navigation provided the following condition(s), if any, is(are) met:

As a condition to this Determination, the structure is marked and/or lighted in accordance with FAA Advisory Circular 70/7460-1 AC 70/7460-1K Change 1, Obstruction Marking and Lighting, a med-dual system - Chapters 4,8 (M-Dual), & 12.

It is required that the enclosed FAA Form 7460-2, Notice of Actual Construction or Alteration, be completed and returned to this office any time the project is abandoned or:

At least 10 days prior to start of construction
 (7460-2, Part I)

Within 5 days after the construction reaches its greatest height
 (7460-2, Part II)

See attachment for additional condition(s) or information.

This determination expires on 01/14/2008 unless:

- (a) extended, revised or terminated by the issuing office.
- (b) the construction is subject to the licensing authority of the Federal Communications Commission (FCC) and an application for a construction permit has been filed, as required by the FCC, within 6 months of the date of this determination. In such case, the determination expires on the date prescribed by the FCC for completion of construction, or the date the FCC denies the application.

NOTE: REQUEST FOR EXTENSION OF THE EFFECTIVE PERIOD OF THIS DETERMINATION MUST BE POSTMARKED OR DELIVERED TO THIS OFFICE AT LEAST 15 DAYS PRIOR TO THE

EXPIRATION DATE.

This determination is based, in part, on the foregoing description which includes specific coordinates, heights, frequency(ies) and power. Any changes in coordinates, heights, and frequencies or use of greater power will void this determination. Any future construction or alteration, including increase to heights, power, or the addition of other transmitters, requires separate notice to the FAA.

This determination does include temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the structure. However, this equipment shall not exceed the overall heights as indicated above. Equipment which has a height greater than the studied structure requires separate notice to the FAA.

This determination concerns the effect of this structure on the safe and efficient use of navigable airspace by aircraft and does not relieve the sponsor of compliance responsibilities relating to any law, ordinance, or regulation of any Federal, State, or local government body.

A copy of this determination will be forwarded to the Federal Communications Commission if the structure is subject to their licensing authority.

If we can be of further assistance, please contact our office at (817)222-5538. On any future correspondence concerning this matter, please refer to Aeronautical Study Number 2006-ASO-3273-OE.

7460-2 Attached

Additional Information for ASN 2006-ASO-3273-OE

The 24-hour medium intensity white lighting sytem preferred by the sponsor cannot be recommended within three nautical miles of a public use airport. The FAA would have no objection to use of aviation orange and white paint for marking and red obstruction lights, if the sponsor prefers that to the dual ligting recommended in this determination. However, the sponsor should request a revision of this dtermination to reflect that marking and lighting if it is preferred.
