Re: 2003-00431

Dear Ms. O'Donnell:

Please file the attached tariff pages of Commonwealth Wastewater Systems, LLC. These tariffs have been revised to conform to the agreed changes discussed in the conference of May 16<sup>th</sup>.

If additional information is needed, please contact me. A copy of this letter has been mailed to the Attorney General.

Very truly yours,  
  
John N. Hughes

Attorney for Commonwealth  
Wastewater Systems, LLC

Attachments

12. Pumping Station -The words Pumping Station shall mean a tank that contains pumps and receives effluent from STEG Tanks and / or Collector Lines.

**Service Area**

Commonwealth Wastewater Systems, LLC is a corporation organized and engaged in business as a public utility with a service area in Boyle County, Kentucky.

**Availability of Service**

Service is available to any residential or commercial customer that applies for service, executes a Sewer Subscription Agreement, (copy attached and made apart of these tariffs) and complies With all applicable rules and regulations!.

**Effect of Rules and Regulations**

All provisions of these rules and regulations shall be incorporated into each contract with each wastewater system customer of the Company.

**Utility Items on Private Property**

The Company shall maintain all STEP and STEG tanks, control systems and service lines required to provide sewer service on the Customer's premises. The Customer must execute an agreement granting an easement to the Company for maintenance of the sewer system. The building plumbing and Building Outfall Line shall be maintained by the Customer.

3. STEP and STEG Tanks are to be installed near the building to be served. The tanks are to be set in a level condition and tested for water tightness before backfilling.
4. All pipe is to be PVC .Classes and sizes will be per Engineer's design and in all cases SDR 21 class 200 will be the minimum allowable.
5. Only wastewater drains are to be connected to the sewer system. No water sources such as roof drains, sump pumps, condensate lines and swimming pools shall be connected to the sewer system.
6. Toning Wire shall be installed on all lines for future marking and locating.

**Special Pretreatment Wastewater Requirements**

For all wastewater connections the Company reserves the right to require any commercial, non-residential user to provide special pre-treatment for any high strength effluent before discharge into its wastewater system. The Company may, upon the basis of recognized engineering standards and treatment costs, increase the rate charged to cover the cost of high strength effluent or industrial waste, and may impose recognized engineering standards as to the maximum size of solids and constituents in such waste discharged into its wastewater system.

Additionally, if excessive volumes of wastewater are received, the Company may require the Customer to monitor flow volume and increase surge holding capacity at the Customer's expense. All customers will be required to follow the Do's and Don'ts list for an Effluent collection System, supplied to them by the Company (Copy Attached), which is incorporated and made a part of these tariffs.

defects in Customer's building lines or fixtures. The customer shall at all times comply with all regulations of the Kentucky Public Service Commission and of the Company.

All leaks in any building pipe or fixture on the premises of the Customer shall be immediately repaired by the Customer. On failure to repair any such leak, the service may be discontinued until repairs are made.

### **Inspection**

All pipes, valves and fixtures shall at all reasonable hours, be subject to inspection by the Company or its duly authorized agent.

### **In Event of Emergency**

The Company shall not be liable to the Customer for interruption in service, or for damages or inconvenience as a result of any interruption, stoppage, etc., which was beyond the reasonable control of the Company. In case of an emergency, call 800 315 9243

### **Service Area**

The Company will provide service within Boyle County, Kentucky.

### **Extension Plan**

The Company may furnish sewer service to property owners whose lands abut the Main Line other Company's existing sewer systems. The sewer service charges listed in the sewer billing structure do not include any costs for construction of any sewer extensions. Any sewer system components required to service such abutting properties shall be those parties desiring
