PUBLIC SERVICE
COMMISSION

Mr. Daniel-

Thank you for your comments regarding the need for a new area code in the current area code 270 territory. Your comments will be placed into the case file for consideration by the Public Service Commission as it deliberates in this matter. For your future reference, the case number in this matter is 2006-00357.

My two cents.

I would greatly prefer to have the '270 Area Code broken into multiple Area Codes.

I realize the impact to business entities, but in my opinion, the gravity of being required to dial '10' digits on a local call is not tolerable..

Please consider breaking the '270' Area Code into enough parts so we do not have to go through this again for at least 25 years.

If memory serves me correctly, we did the '502' to '270' change about 10 years ago.

Please look over the hill far enough into the future and make appropriate plans.

Side note, I think I am correct on this, but one of the underlying reasons that we are in this dilemma is because of the large 'blocks' of numbers that were issued that long term has caused this 'running out of numbers' problem. Maybe the protocol for issuing the 'blocks' of numbers needs to be reviewed also to prevent future reoccurrences.

Thank you for your time.
