Case No. 2006-00389

**BLACK MOUNTAIN UTILITY DISTRICT  
609 FOUR MILE RD.  
BAXTER KY. 40806**

We are writing this letter in response to the Timothy and Sheila Bowman complaint, BMUD has contracted Harry Gibson Construction to do four road bores he has done three of the bores, the last bore will be done at the Bowman house. BMUD received a grant to run more water line up US 119 and up HWY.522 to make a connection to Cumberland water system. We have been installing water line to areas that have the most houses that need water first. BMUD at this time does not have the money to run the 6 inch water line from the Huffs property to make the connection at the end of the line below the Bowman property, which is 1 mile in distance. BMUD has paid to have the road bore done to make the connection. Mr. Gibson said he will do the road bore this week BMUD has started today September-6-2006 digging the ditch and installing the service line from where the road bore will be done to Mr. Bowman's property, which is 1500 feet in distance. We do not have the money at this time to run the 6 inch water main line from the road bore to the Huff water main line connection, we are running a service line from the road bore to the Bowman property so that the Bowmans can have water. Soon as BMUD receives the money we will run a 6 inch water line and make the connection on the two water lines.

Thank You

Earl Hall, manager BMUD.
