UTILITIES COMPANY FOR AN ORDER)

OF OBLIGATIONS)**

Case No. 2006 00390

APPLICATION

Kentucky Utilities Company (“KU” or the “Company”) hereby requests, pursuant to KRS 278.300, that the Commission authorize the issuance of securities, assumption of obligations and entrance into all necessary agreements and other documents relating thereto as more fully described herein.

The Company incurs filing costs and dedicates significant labor time to complying with the restrictive requirements of the Indenture of Mortgage or Deed of Trust dated May 1, 1947, as Amended (the “Company Indenture”), which imposes numerous operational and administrative burdens on the Company. Debt secured under the Company Indenture is subject to extensive filing and reporting requirements and KU sustains ongoing administrative costs attributable to the preparation of reports and external legal, accounting and printing costs associated with the reporting requirements of the Securities Exchange Act of 1934 and the Sarbanes-Oxley Act of 2002. In addition, beginning January 1, 2007, when KU becomes subject to certain additional reporting requirements relating to Section 404 of the Sarbanes-Oxley Act, the Company will incur further costs to issue secured forms of debt.

In recent years, KU's external debt documentation has included provisions that provide for the release of the security which collateralizes all outstanding first mortgage and tax-exempt pollution control bond issues upon repayment, redemption or refinancing of the first mortgage bonds, thereby rendering the bonds unsecured. The necessary steps for KU to reduce its administrative costs associated with the extensive filing requirements are the subject of this Application.

KU requests authority to (i) obtain long-term unsecured debt financing from an affiliate within the E.ON AG ("E.ON") holding company system in order to defease and discharge the one remaining series of outstanding external taxable debt and (ii) issue new, unsecured tax-exempt pollution control debt in order to refund one series of secured, tax-exempt pollution control debt. This will allow for the release of the lien as to all outstanding KU debt instruments and subsequent termination of the Company Indenture. In turn, KU will realize cost savings for lower external accounting and legal fees and for administrative cost savings on an ongoing basis, as well as obtain operational flexibility due to the elimination of the lien of the Company Indenture on the Company's assets.¹ As discussed below, these administrative savings are expected to more than offset the slightly higher interest rate associated with the new unsecured debt.

¹ KU is not alone in seeking to reduce or eliminate its secured debt. In recent years, a number of other utilities have moved in this direction, including AEP Texas Central, AEP Texas North, Dominion Resources, Pacific Gas & Electric and the Southern Companies (Alabama Power, Georgia Power, Gulf Power and Mississippi Power). A number of operating companies have also de-registered with the SEC and are reported on a consolidated basis with their parent company: NYSE&G and Central Maine Power (subsidiaries of Energy East Corporation), Orange & Rockland Utilities (subsidiaries of Consolidated Edison), West Penn Power and Potomac Edison (subsidiaries of Allegheny Energy), Southern Indiana Gas and Electric (subsidiary of Vectren Corp.), Madison Gas & Electric (subsidiary of MGE Energy), Massachusetts Electric and Narrangensett Electric (subsidiaries of National Grid) and Brooklyn Union Gas (subsidiary of KeySpan Corp.)

In support of this Application, KU states as follows:

I. Applicant

1. The Company's full name is Kentucky Utilities Company. The post office address of the Company is One Quality Street, Lexington, Kentucky 40507. KU is a Kentucky and a Virginia corporation, a utility as defined by KRS 278.010(3)(a), and, as of July 1, 2006, provides retail electric service to approximately 525,000 customers in seventy-seven counties in Kentucky and five counties in southwest Virginia. A description of KU's properties is set out in Exhibit 1 to this Application.

2. A certified copy of the Company's Articles of Incorporation was filed with the Commission in Case No. 2005-00471 (In the Matter of: Application of Louisville Gas and Electric Company and Kentucky Utilities Company for Authority to Transfer Functional Control of Their Transmission System) and is incorporated by reference herein pursuant to 807 KAR 5:001, Section 8(3).

II. Defeasance of 7.92% First Mortgage Bonds, Series P

3. E.ON U.S. LLC ("E.ON US") is an indirect subsidiary of E.ON. The Company is a wholly owned subsidiary of E.ON US. E.ON US Holding GmbH, is also a subsidiary of E.ON. Fidelia Corporation ("Fidelia"), a finance company subsidiary organized in Delaware, is a subsidiary of E.ON US Holding GmbH. Fidelia lends money to companies in the E.ON Holding Company System, and upon request of the Company will lend money to the Company as set out in this Application. The Commission has previously approved similar long-term debt financing between KU and Fidelia. See Case No. 2006-00155, Order of May 22, 2006, Case No. 2005-00117, Order of May 10, 2005,

Case No. 2003-00301, Order of September 22, 2003 and Case No. 2003-00059, Orders of April 14, 2003 and April 30, 2003.²

The Company proposes to use proceeds from a loan from Fidelia to defease and discharge \$53,000,000 in principal amount of KU's 7.92% First Mortgage Bonds, Series P, due May 15, 2007. Pursuant to the terms of the initial financing documents, the Series P First Mortgage Bonds are not redeemable and can only be defeased until discharged at maturity. Relevant provisions of the Official Statement with respect to these Bonds are attached as Exhibit 2. The defeasance will require KU to deposit with the bond trustee an amount of cash or U.S. Treasury securities which, upon the maturity of these bonds, will be sufficient to cover both principal and accrued interest. The cost of this defeasance is approximately \$100,000 which includes incremental interest charges, trustee and legal fees.

4. The 7.92% First Mortgage Bonds, Series P were authorized by this Commission by Order dated February 28, 1992, in Case No. 92-032. The following table shows (i) the initial public offering price, (ii) proceeds to KU from the sale (after deducting underwriting discounts and commissions), and (iii) KU's expenses associated with the sale of the 7.92% First Mortgage Bonds, Series P:

<u>7.92% First Mortgage Bonds, Series P</u>	<u>Public Offering Price</u>	<u>Proceeds</u>	<u>Expenses</u>
	\$53,000,000	\$52,602,500	\$618,416

5. The proceeds of the Company's First Mortgage Bonds, Series P which the Company proposes to defease, were used to (a) redeem the Company's outstanding Series

² A total of \$108 million of the existing intercompany debt is secured. To prevent this intercompany debt from becoming senior to the Company's external debt, the affiliate, Fidelia Corporation, would release its lien on KU's assets, thus giving the Fidelia debt equal seniority with KU's external debt.

L, 9.125% First Mortgage Bonds issued in April 1974, (b) to redeem the Company's outstanding Series M, 9.25% First Mortgage Bonds issued in May 1976, and (c) to redeem the Company's outstanding Series O, 9.625% First Mortgage Bonds issued in August 1979. The proceeds of the series of bonds identified in (a) and (b) above, were used to reduce the Company's short-term borrowings incurred in connection with the Company's construction program, and the proceeds of the series of bonds identified in (c) were used to pay off a \$35,000,000 long-term unsecured bank note and for the repayment of additional short-term borrowings.³

6. The Company proposes to borrow money from Fidelity in an amount not to exceed \$53,000,000 for the purpose of defeasing the 7.92% First Mortgage Bonds, Series P. To fund this transaction, the Company anticipates issuing unsecured notes to Fidelity with final maturity not to exceed 30 years. Such borrowing would only occur if the interest rate on the loan will result in an equal or lower cost of borrowing than the Company could obtain in the capital markets on its own. All borrowings from Fidelity would be at the lowest of (1) E.ON's effective cost of capital; (2) Fidelity's effective cost of capital; and (3) the Company's effective cost of capital determined by reference to the effective cost of a direct borrowing by the Company from an independent third-party for a comparable term loan that could be obtained at the time of the loan ("The Best Rate Method"). The Best Rate Method assures the Company that it will not pay more for a loan from Fidelity than it would pay in the capital markets for a similar loan. The

³ In addition to the Company's 7.92% First Mortgage Bonds, Series P, \$33,000,000 of 8.55% First Mortgage Bonds, Series P were also authorized by the Commission in Case No. 92-032 by Order dated February 28, 1992 and in Case No. 90-423 by Orders dated March 18, 1992 and January 16, 1992. The 8.55% First Mortgage Bonds, Series P have been previously redeemed and discharged.

Company has determined that it is cost effective to borrow money from Fidelia through the proposed intercompany loan facility and desires to take advantage of this opportunity.

7. The interest rate on the proposed Fidelia loan will be set at the time of issuance of the note and would depend on the maturity of the note. The interest rate on the note would be lower of (a) the average of three quotes obtained by the affiliate company from international investment banks for an unsecured bond issued by E.ON for the applicable term of the loan and (b) the lowest of three quotes obtained by the Company from international investment banks for an unsecured bond issued by the Company with the applicable term of the loan. This method complies with the Best Rate Method because this rate would be determined using the lower of the average of actual quotes obtained based upon the credit of E.ON or the lowest of three actual quotes obtained by the Company. The proposed restructuring should not impact the rates paid by KU in these intercompany loans because E.ON's quotes are typically lower than KU's quotes due to the superior bond rating of E.ON.

8. The interest rate would be determined as described in Paragraph 7 herein. The term of the loan would not exceed 30 years as determined by the Company based on, among other things, the Company's financing needs. A note would be executed by the Company at the time of the loan stating the interest rate, maturity date and payment terms. Attached to the Application as Exhibit 3, is the form of the intercompany loan agreement and note. Issuance expenses for the intercompany loan described herein will not exceed in total, the sum of \$50,000. In connection with the issuance of the debt, KU may enter into one or more interest hedging agreements (T-Bill lock, swap or similar agreement, collectively the "Intercompany Loan Hedging Facility") either with an

affiliate within the E.ON system or with a bank or financial institution. The Intercompany Loan Hedging Facility would be an interest rate agreement designed to allow the Company to lock in the underlying interest rate on the loan in advance of the closing of the loan. The Intercompany Loan Hedging Facility will set forth the specific terms under which the Company will agree to make payments, and the other terms and conditions of any rights or obligations thereunder.

III. Redemption of Pollution Control Debt

9. The Company also proposes to redeem the \$54,000,000 principal amount of County of Carroll, Kentucky Solid Waste Disposal Facilities Revenue Bonds (Kentucky Utilities Company Project) 1994 Series A, due November 1, 2024 (“Carroll County 1994 Series A Bonds” or the “Existing Bonds”), secured by KU’s First Mortgage Bonds, Series 10. The KU First Mortgage Bonds Series 10 are herein referred to as the “Outstanding First Mortgage Bonds.”

10. KU was authorized to undertake its obligations in regard to the Carroll County 1994 Series A Bonds and the Outstanding First Mortgage Bonds by this Commission by Order dated September 23, 1992, in Case No. 92-249. The following table shows: (i) the initial public offering price, (ii) proceeds to KU from the sale (after deducting underwriting discounts and commissions), and (iii) KU’s expenses associated with the sale.

<u>Carroll County 1994 Series A Bonds</u>	<u>Public Offering Price</u>	<u>Proceeds</u>	<u>Expenses</u>
	\$54,000,000	\$53,652,240	\$614,989

11. The proceeds of the Carroll County 1994 Series A Bonds were used in connection with financing or replacing funds used in the construction of solid waste

disposal facilities qualifying for tax-exempt financing, incident to the operation of a flue gas desulfurization system and associated retrofit facilities at KU's Ghent Generating Station.

The Carroll County 1994 Series A Bonds are currently redeemable at 100% of par, plus accrued interest to the date of redemption. A copy of the redemption provisions with respect to the Carroll County 1994 Series A Bonds is attached hereto as Exhibit 4.

12. KU requests authority to assume certain obligations under various agreements in an aggregate principal amount not to exceed \$54,000,000 in connection with the proposed issuance of one or more series of new County of Carroll, Kentucky Environmental Facilities Revenue Bonds (the "Refunding Bonds").

13. In connection with refinancing the Existing Bonds, KU would assume certain obligations under one or more Loan Agreements with Carroll County, and may enter into Guarantee Agreements guaranteeing payment of all or any part of the obligations under the Refunding Bonds for the benefit of the holders of such Bonds.

14. It is expected that the structure and documentation for the issuance of the Refunding Bonds and related agreements would be similar to the structure and documentation of other pollution control financings of KU approved by the Commission in the past, except that First Mortgage Bonds of KU would be omitted and not issued to secure the Refunding Bonds as they have in the past. The Refunding Bonds would be issued pursuant to one or more indentures (each an "Indenture"), between Carroll County and one or more trustees (each a "Trustee"). The proceeds from the sale of one or more series of Refunding Bonds would be loaned to KU pursuant to one or more loan

agreements between Carroll County and KU (each, a “Loan Agreement” and collectively the “Loan Agreements”).

15. The payments to be made by KU under the Loan Agreement for one or more series of Refunding Bonds, together with other funds available for the purpose would be sufficient to pay the principal of, premium, if any, and interest on such Refunding Bonds. The Loan Agreements and the payments to be made by KU pursuant thereto would be assigned by the county to secure the payment of the principal of, premium, if any, and interest on related Refunding Bonds. Upon issuance of Refunding Bonds, KU may issue one or more guaranties (collectively, the “Guaranties”) in favor of the Trustees guaranteeing the payment of all or any part of the obligations under such Refunding Bonds for the benefit of the holders of such Refunding Bonds.

16. Simultaneously with the redemption of any part of the Existing Bonds and the issuance of the related Refunding Bonds, an identical principal amount of the Outstanding First Mortgage Bonds that secure the Existing Bonds to be refunded, will be cancelled. Thus, the issuance of the Refunding Bonds would decrease the outstanding principal amount of the First Mortgage Bonds of KU.

17. Carroll County has the power, pursuant to the provisions of the Industrial Building Revenue Bond Act, Sections 103.200 to 103.285, inclusive, of the Kentucky Revised Statutes, to enter into the transactions contemplated by the Loan Agreements and to carry out its obligations thereunder by issuing and selling negotiable bonds and lending the proceeds from the sale of such bonds to KU to finance the acquisition, construction, and installation at certain pollution control facilities, being within the corporate limits of Carroll County and to refinance existing debt.

18. The Refunding Bonds would be sold in one or more underwritten public offerings, negotiated sales, or private placement transactions utilizing the proper documentation. The price, maturity date(s), interest rates, redemption provisions, and other terms and provisions of each series of Refunding Bonds (including in the event all or a portion of Refunding Bonds initially bear a variable rate of interest, the method of determining the interest rate) would be determined on the basis of negotiations among KU and Carroll County and the purchasers of such bonds. However, the amount of compensation to be paid to underwriters for their services would not exceed 2% of the principal amount of the refunding bonds to be sold. Based upon past experience with similar refinancing, KU estimates the issuance costs, excluding underwriting fees for the Refunding Bonds, will be approximately, \$300,000. KU anticipates that because the Refunding Bonds will be unsecured, the bond rating on this and the Company's other external debt will go from A1/A for secured debt to A2/BBB+ for unsecured debt. Based on historical data and information from remarketing agents, there would be an approximate 10 basis points increase in interest rates on KU's non-insured floating rate debt totaling \$87.1 million, and a 7 basis point increase in annual bond insurance premiums on one series of debt totaling \$96 million. These costs are reflected in the analysis provided in Exhibit 5. Other bonds will not be impacted by this change because their interest rates are based on the rating of the bond insurer.

19. The interest rate or rates (and, if applicable the method of determining the interest rate) applicable to the Refunding Bonds of each such series would be the most favorable rate or method that can be negotiated by KU. KU's Bond Counsel also believes that the Existing Bonds are candidates for extension of maturity, which would

preserve use of this tax-exempt funding source. The extension, which is reflected in Exhibit 5, would allow the continued use of low-cost tax-exempt financing beyond the current maturity of the Existing Bonds, thus reducing costs.

20. Because of the historical spread between long-term fixed interest rates and short-term rates, all or a portion of the Refunding Bonds may be issued initially with an interest rate that fluctuates on a weekly, monthly or other basis as determined from time to time by KU. KU would have the option to convert such Refunding Bonds at a later date to a fixed rate of interest. Refunding Bonds that bear interest at such variable rates (the “Variable Rate Refunding Bonds”) may also be subject to tender by the holders thereof for redemption or purchase. In order to provide funds to pay the purchase price of such tendered Variable Rate Refunding Bonds, KU would enter into one or more remarketing agreements with one or more remarketing agents whereby the remarketing agent would use its best efforts to remarket such tendered Variable Rate Refunding Bonds to other purchasers at a price equal to the purchase price of such Variable Rate Refunding Bonds. Thus, to the extent Variable Rate Refunding Bonds are issued, the documentation will be very similar to previous issues which had a variable interest rate.

21. Also, in the event that Variable Rate Refunding Bonds are issued, KU may enter into one or more liquidity facilities (the “Current Facility”) with a bank or banks to be selected by KU (the “Bank”). The Current Facility would be a credit agreement designed to provide KU with immediately available funds with which to make payments with respect to any Variable Rate Refunding Bonds which have been tendered for purchase and not remarketed. The Current Facility is not expected to be pledged for the payment of the Variable Rate Refunding Bonds or to constitute security therefore. The

Current Facility in the present case may consist in whole or part of such liquidity facilities. Pursuant to the Current Facility, KU may be required to execute and deliver to the Bank a note (the “Current Facility Note”) evidencing KU’s obligations to the Bank under the Current Facility.

22. In order to obtain terms and conditions more favorable to KU than those provided in the Current Facility or to provide for additional liquidity or credit support to enhance the marketability of the Variable Rate Refunding Bonds, KU desires to be able to replace the Current Facility with (or to initially use) one or more substitute liquidity support and or credit support facilities (the instrument providing the liquidity support and or credit support and any subsequent replacement support facility thereof, including any replacement facility which replaces a replacement facility is hereinafter referred to as a “Facility”) with one or more Banks, insurance companies or other financial institutions to be selected by KU from time to time (each such financial institution hereinafter referred to as a “Facility Provider”). A Facility may be in the nature of a letter of credit, revolving credit agreement, standby credit agreement, bond purchase agreement, bond insurance or other similar arrangement designed to provide liquidity and or credit support for the Variable Rate Refunding Bonds. It is contemplated that, in the event the Variable Rate Refunding Bonds are converted to bear interest at a fixed rate, the Current Facility (if not already replaced or terminated) or, if applicable, the Facility (unless earlier terminated) will be terminated in whole or in part following the date of conversion of such Variable Rate Refunding Bonds.

23. In connection with any Facility, KU may enter into one or more credit or similar agreements (“Credit Agreements”) with the Facility Provider, or providers of such

facility which would contain the terms of reimbursement or payment to be made by KU to the subject Facility Providers for amounts advanced by the Facility Providers under the particular Facility. Depending on the exact nature of a Facility, KU may be required to execute and deliver to the subject Facility Provider a promissory note (each such note hereinafter referred to as a “Facility Note”) evidencing KU’s repayment obligation to the Facility Provider under the related Credit Agreement; and the Trustee under the Indenture for the Variable Rate Refunding Bonds may be authorized, upon the terms set forth in such Indenture and in any Credit Agreement, to draw upon the Facility for the purpose of paying the purchase price of Variable Rate Refunding Bonds tendered or required to be tendered for purchase in accordance with the terms of the Indenture which are not re-marketed by their marketing agent as provided in their marketing agreement and/or for the purpose of paying accrued interest on the Variable Rate Refunding Bonds when due and paying principal, whether at maturity, upon redemption, acceleration or otherwise.

24. In connection with the issuance of the Refunding Bonds, KU may enter into one or more interest rate hedging agreements (including an interest rate cap, swap, collar, or similar agreement, collectively the “Hedging Facility”) with a bank or financial institution (the “Counterparty”). The Hedging Facility would be an interest rate agreement designed to allow KU to actively manage and to limit its exposure to variable interest rates or to lower its overall borrowing costs on any fixed rate Refunding Bond. The Hedging Facility will set forth the specific terms upon which KU will agree to pay the Counterparty payments and/or fees for limiting its exposure to interest rates or lowering its fixed rate borrowing costs, and the other terms and conditions of any rides or obligations thereunder.

25. The terms of each current Facility, Credit Agreement, Facility, Note, and Hedging Facility will be negotiated by KU with the respective Bank, Facility Provider, or Counterparty and would be the most favorable terms that can be negotiated by KU. The aggregate outstanding principal amount of the obligations of KU at any time under the Loan Agreement, the Guarantees, and the credit facilities and related Notes set forth in the immediately preceding sentence will not exceed the original principal amount of the Refunding Bonds (which will not exceed an aggregate principal amount of \$54,000,000, plus accrued but unpaid interest or premium, if any, on such bonds).

IV. Elimination of Secured Debt and Realization of Administrative Savings

26. Debt secured under the Company Indenture is subject to the Trust Indenture Act of 1939, 15 U.S.C Section 77aaa, et. seq. As a result, KU is subject to extensive filing and reporting requirements pursuant to the Securities Exchange Act of 1934 and certain provisions of the Sarbanes-Oxley Act of 2002, including filing audited quarterly and annual reports, and future compliance with reporting provisions relating to Section 404 of Sarbanes-Oxley which will apply to the Company in 2007. As previously stated, by defeasing one series of outstanding external taxable debt and refunding one series of secured, tax-exempt pollution control debt, KU will be able to eliminate administrative costs of SEC compliance upon the release of the lien under the Company Indenture.

27. Complying with these reporting requirements is also not needed to protect the interests of KU's debt holders. KU's recent pollution control debt contains provisions whereby, on the "Release Date," as defined in the Bond Documents, the Pollution Control Bonds will cease to be secured by First Mortgage Bonds and will be secured solely by payments to be made by KU under the respective Loan Agreements, after which the obligation becomes a general unsecured obligation of the Company. Attached

as Exhibit 6 are copies of relevant sections of the indenture, official statement and loan agreement respecting KU's County of Carroll, Kentucky Environmental Facilities Revenue Bonds, 2005 Series A, due June 1, 2035 (Kentucky Utilities Company Project) evidencing these provisions. Thus, the bond market has determined both that the security provided by the Company Indenture may be released, and that consequently the SEC reporting requirements, which will terminate following such release, are not necessary to protect bond holders.

28. The Redemption of the Existing Bonds and the defeasance of the Series P First Mortgage Bonds are components of a broader transaction that will allow KU to realize annual savings of approximately \$267,500 by reducing its administrative and accounting costs. Detailed in the following table are costs related to the preparation of the periodic SEC reports, compliance documentation related to Sarbanes-Oxley provisions as well as costs related to the Company Indenture that would be avoided as a result of the proposed actions.

Outside Legal Counsel (SEC Filings)	\$ 30,000
Indenture Legal Work (State Filings)	7,500
First Mortgage Bond Trustee Fee	41,000
Financial Printer Costs	14,000
Internal Accounting Work	100,000
Outside Accounting Costs	25,000
Sarbanes-Oxley Compliance	50,000
TOTAL	\$267,500

Attached to this Application as Exhibit 5, is a financial analysis demonstrating the net present value of the overall transaction. Additionally, the transaction would provide KU operational flexibility by eliminating the Company Indenture. For example, KU currently must obtain lien releases whenever property covered by the lien is sold.

Because the Company Indenture dates back almost 60 years, some of the required documentation and procedures to obtain these releases are antiquated. Moreover, after the Company has complied with the lien release provisions, KU must wire the proceeds to the trustee, and then request that they be wired back to the Company.

V. Continuing KPSC Financial Oversight

29. In Case No. 10296 (In the Matter of: The Application of Kentucky Utilities Company to Enter into an Agreement and Plan of Exchange and to Carry Out Certain Transactions in Connection Therewith), KU agreed to file with this Commission copies of all reports that it was required to file with the SEC, including 10K's and 10Q's. This commitment was subsequently reaffirmed in Case Nos. 97-300, and 2000-095, and most recently in Case No. 2001-104 (The Joint Application of E.ON AG, PowerGen PLC, LG&E Energy Corp., Louisville Gas and Electric Company, and Kentucky Utilities for Approval of An Acquisition). If KU's Application is granted, these SEC reports will no longer be available. Accordingly, KU proposes to file with the Commission its unaudited quarterly reports and audited annual financial statements. The Company will continue to provide the monthly financial statements in the same format made available currently. Also, KU will continue to provide FERC disclosures that include annual reports (Form 1 and Form 2) and the new quarterly Form 3Q disclosure. These will contain the relevant portions of the information currently contained in the 10K's and 10Q's. E.ON US will continue to provide the FERC Form 60, which is the annual financial report of the service company. E.ON will continue to file the SEC Form 20-F annually. Thus, the Commission will continue to receive relevant and comprehensive information on all aspects of KU's operations.

VI. Additional Information

30. No contracts have been made for the disposition of any of the securities which KU proposes to issue, or for the proceeds of such sale.

31. KU shall, as soon as reasonably practical after the issuance of the Refunding Bonds, file with the Commission the statement setting forth the date or dates of issuance of the securities, the price paid therefore, the interest rate(s) (and if applicable, their method of determination), and all fees and expenses, including underwriting discounts or commissions or other commission compensation, involved in the issuance and distribution.

32. KU shall, as soon as reasonably practical after the issuance of each note to Fidelity referenced to herein, file with the Commission a statement setting forth the date or dates of issuance of the notes, the proceeds of such notes, the interest rates, costs or gains with the Intercompany Loan Hedging Facility related to such notes, and all fees and expenses involved in such issuance.

33. Exhibit 7 to this Application contains the financial exhibit required by 807 KAR 5:001, Section 11(2)(a) and described by 807 KAR 5:001, Section 6. It also contains information required by 807 KAR 5:001, Section 11(2)(b).

34. Exhibit 8 to this application is a certified copy of KU's Board of Directors' resolution authorizing the defeasance of the First Mortgage Bonds Series P, the issuance of the notes to Fidelity, as well as KU's obligations under the Loan Agreements, the Guaranties and all transactions related to the Carroll County Bonds as discussed in this Application.

35. Other requirements of the Commission's regulation regarding this Application, 807 KAR 5:001, Section 11, including (1)(i)(b) regarding the amount, kinds

of note, etc. and (1)(i)(c) regarding the use to be made of the proceeds have been supplied in the extensive discussion of in Paragraphs 2 through 25 of this Application.

WHEREFORE, Kentucky Utilities Company respectfully requests that the Commission enter its Order authorizing KU to issue securities and to execute, deliver and perform the obligations of KU under the Loan Agreement with Fidelity and the related notes as set forth in this Application. KU further requests that the Commission authorize it to issue securities and to execute, deliver and perform the obligations of KU under the Loan Agreements and any Guarantees, remarketing agreements and Credit Agreements and the various Credit and Hedging Facilities and other documents and related notes as set forth in this Application as they relate to the Refunding Bonds. Kentucky Utilities Company further requests that the Order of the Commission specifically include provisions stating:

1. KU is authorized to issue and deliver its unsecured notes to Fidelity in an aggregate principal amount not to exceed \$53,000,000 as set forth in the Application.

2. KU is authorized to execute, deliver and perform the obligations of KU under, inter alia the Loan Agreements with the Fidelity Corporation, the Notes and such other agreements and documents as set forth in this Application, and to perform the transactions contemplated by such agreements, and

3. KU is authorized, with regard to the Refunding Bonds, to execute, deliver and perform the obligations of KU under, inter alia the Loan Agreements with Carroll County, Kentucky and under any Guarantees, remarketing agreements, hedging agreements, auction agreements, bond issuance agreements, Credit Agreements, Facilities

and such other agreements and documents as set forth in this Application and perform the transactions contemplated by such agreements.

4. That the Commission find that the financial information that KU proposes to file with the Commission is sufficient and that KU be released from its obligation to file with the Commission copies of Securities Exchange Commission reports that will no longer be available.

Subject to certain conditions, including provision of an opinion of Bond Counsel that a change in the redemption provisions of the 1994 Series A Bonds will not adversely affect the exclusion from gross income of interest on the 1994 Series A Bonds for federal income tax purposes, the redemption periods and redemption prices may be revised, effective as of the Conversion Date, the date of a change in the Long Term Rate Period or a Purchase Date on the final Interest Payment Date during a Long Term Rate Period, to reflect prevailing market conditions on such date.

Extraordinary Optional Redemption in Whole During Annual or Long Term Rate Period. Whenever the Interest Rate Mode for the 1994 Series A Bonds is either an Annual Rate or a Long Term Rate, the 1994 Series A Bonds may be redeemed by the County in whole at any time at 100% of the principal amount thereof plus accrued interest to the redemption date upon the exercise by the Company of an option under the Loan Agreement to prepay the loan if any of the following events have occurred:

(i) if in the judgment of the Company, unreasonable burdens or excessive liabilities have been imposed upon the Company after the issuance of the 1994 Series A Bonds with respect to the Project or the operation thereof, including without limitation federal, state or other ad valorem property, income or other taxes not imposed on the date of the Loan Agreement, other than ad valorem taxes levied upon privately owned property used for the same general purpose as the Project;

(ii) if the Project or a portion thereof or other property of the Company in connection with which the Project is used has been damaged or destroyed to such an extent so as, in the judgment of the Company, to render the Project or such other property of the Company in connection with which the Project is used unsatisfactory to the Company for its intended use, and such condition continues for a period of six months;

(iii) there has occurred condemnation of all or substantially all of the Project or the taking by eminent domain of such use or control of the Project or other property of the Company in connection with which the Project is used so as, in the judgment of the Company, to render the Project or such other property of the Company unsatisfactory to the Company for its intended use;

(iv) in the event changes, which the Company cannot reasonably control, in the economic availability of materials, supplies, labor, equipment or other properties or things necessary for the efficient operation of the Generating Station have occurred which, in the judgment of the Company, render the continued operation of the Generating Station or any generating unit at such station uneconomical; or changes in circumstances after the issuance of the 1994 Series A Bonds, including but not limited to changes in clean air or other air and water pollution control requirements or solid waste disposal requirements, have occurred such that the Company determines that use of the Project is no longer required or desirable;

(v) the Loan Agreement has become void or unenforceable or impossible of performance by reason of any changes in the Constitution of the State or the Constitution of the United States of America or by reason of legislative or administrative action (whether state or federal) or any final decree, judgment or order of any court or administrative body, whether state or federal; or

(vi) a final order or decree of any court or administrative body after the issuance of the 1994 Series A Bonds requires the Company to cease a substantial part of its operation at the Generating Station to such extent that the Company will be prevented from carrying on its normal operations at the Generating Station for a period of six months.

Extraordinary Optional Redemption in Whole or in Part. The 1994 Series A Bonds are also subject to redemption in whole or in part at 100% of the principal amount thereof plus accrued interest to the redemption date at the option of the Company in an amount not to exceed the net proceeds received from insurance or any condemnation award received by the County, the Company or the First Mortgage Trustee in the event of damage, destruction or condemnation of all or a portion of the Project, subject to receipt of an opinion of Bond Counsel that such redemption will not adversely affect the exclusion of interest on any of the 1994 Series A Bonds from gross income for federal income tax purposes. See "THE LOAN AGREEMENT --Maintenance; Damage, Destruction and Condemnation." Such redemption may occur at any time, provided that if such event occurs while the Interest Rate Mode for the 1994 Series A Bonds is the Daily Rate, Weekly Rate, Flexible Rate or Semi-Annual Rate, such redemption must occur on a date on which the 1994 Series A Bonds are otherwise subject to optional redemption as described above.

Mandatory Redemption; Event of Taxability. The 1994 Series A Bonds are subject to mandatory redemption by the County at 100% of the principal amount thereof plus accrued interest to the redemption date if the Company is required to prepay the amounts due under the Loan Agreement after a final determination by a court of competent jurisdiction or an administrative agency to the effect that, as a result of a failure by the Company to perform or observe any covenant or agreement or the inaccuracy of any representation by the Company contained in the Loan Agreement or any other agreement or certificate delivered in connection therewith, the interest payable on the 1994 Series A Bonds is included for federal income tax purposes in the gross income of any owner (other than any owner who is a "substantial user" of the Project or a "related person" as such terms are used in Section 147(a) of the Internal Revenue Code of 1986, as amended (the "Code")). Such mandatory redemption will take place within 180 days after such final determination.

Such redemption is not obligatory unless the Company, at its expense, has participated in or had the opportunity to participate, to a degree the Company reasonably deems sufficient, in the proceeding which resulted in such determination, either directly or through an owner. No determination will be considered final until the conclusion of any appellate review or the expiration of the time for seeking such review. Further, no redemption obligation will arise unless such owner permits the Company to participate in such proceedings to the degree the Company reasonably deems sufficient and gives the Company prompt written notice of the commencement of such proceedings. The 1994 Series A Bonds will be redeemed in whole, unless the Trustee receives an opinion of Bond Counsel that partial redemption would result in the interest payable on the remaining 1994 Series A Bonds outstanding after such redemption not being included in the gross income of any owner (other than an owner who is a "substantial user" of the Project or a "related person" as such terms are used in Section 147(a) of the Code).

If the Internal Revenue Service or a court of competent jurisdiction determines that the interest paid or to be paid on any 1994 Series A Bond (except to a "substantial user" of the Project or a "related person" within the meaning of Section 147(a) of the Code) is or was includable in the gross income of the recipient for federal income tax purposes for reasons other than as a result of a failure by the Company to perform or observe any of its covenants, agreements or representations in the Loan Agreement, the 1994 Series A Bonds are not subject to mandatory redemption. In such circumstances, owners would continue to hold their 1994 Series A Bonds, receiving principal and interest at the rate or rates otherwise then applicable, as and when due, but would be required to include such interest payments in gross income for federal income tax purposes. Also, if the lien of the Indenture is discharged or defeased prior to the occurrence of a final determination of taxability, 1994 Series A Bonds will not be redeemed as described herein.

General Redemption Terms. Notice of redemption will be given by mailing a redemption notice by first class mail to the registered owners of the 1994 Series A Bonds to be redeemed not less than 30 days but not more than 60 days prior to the redemption date. Any notice mailed as provided in the Indenture will be conclusively presumed to have been given, irrespective of whether the owner receives the notice. Failure to give any such notice by mailing or any defect therein in respect of any 1994 Series A Bond will not affect the validity of any proceedings for the redemption of any other 1994 Series A Bond. No further interest will accrue on the principal of any 1994 Series A Bond called for redemption after the redemption date if funds sufficient for such redemption have been deposited with the Paying Agent as of the redemption date. So long as the 1994 Series A Bonds are held in book-entry-only form, all redemption notices will be sent only to Cede & Co.

Issuer will cooperate fully with Company in any such contest. In the event Company shall fail to pay any of the foregoing items required by this Section to be paid by Company, Issuer or Trustee may (but shall be under no obligation to) pay the same and any amounts so advanced therefor by Issuer or Trustee shall become an additional obligation of Company to the one making the advancement, which amounts, together with interest thereon Company agrees to pay at a rate which shall be one percent above the lowest minimum lending rate publicly quoted at such time as being charged by any commercial bank which is a member of the New York Clearing House on ninety-day commercial loans to its prime commercial borrowers or the maximum rate permitted by law, whichever is lesser, until paid; provided, however, that no such advancement shall operate to relieve the Company from any default hereunder. Company may at its expense and in its own name and behalf apply for any tax exemption or exemption from payments in lieu of taxes allowed by the Commonwealth of Kentucky, or any political or taxing subdivision thereof under any existing or future provision of law which grants or may grant any such tax exemption or exemption from payments in lieu of taxes.

Section 5.4. Obligations of Company Unconditional. The obligation of Company to make the payments pursuant to this Agreement and to make any payments required in respect of the Rebate Fund as provided in Section 6.07 of the Indenture shall be absolute and unconditional. Until such time as the principal of, premium, if any, and interest on the 2005 Series A Bonds shall have been fully paid or provision for the payment thereof shall have been made in accordance with the Indenture, Company (i) will not suspend or discontinue any payments pursuant to this Agreement and (ii) except as provided in ARTICLE X hereof, will not terminate this Agreement for any cause including, without limiting the generality of the foregoing, failure of title to the Project or any part thereof, any acts or circumstances that may constitute failure of consideration, destruction of or damage to the Project, commercial frustration of purpose, any change in the tax or other laws of the United States of America or of the Commonwealth of Kentucky or any political subdivision thereof or any failure of Issuer or Trustee to perform and observe any agreement, whether express or implied or any duty, liability or obligation arising out of or connected with this Agreement. Nothing contained in this Section shall be construed to release Issuer from the performance of any of the agreements on its part herein contained; and in the event Issuer should fail to perform any such agreement on its part, Company may institute such action against Issuer as Company may deem necessary to compel performance so long as such action shall be in accordance with the agreements on the part of Company contained in the preceding sentence. Company may, however, at its own cost and expense and in its own name or in the name of Issuer, prosecute or defend any action or proceeding or take any other action involving third persons which Company deems reasonably necessary in order to secure or protect its right of ownership, possession, occupancy and use of the Project, and in such event Issuer hereby agrees to cooperate fully with Company.

Section 5.5. Rebate Fund. Company agrees to make all payments to the Trustee and rebate all amounts to the United States of America as are required of it under Section 6.07 of the Indenture. The obligation of Company to make such payments shall remain in effect and be binding upon Company notwithstanding the release and discharge of the Indenture.

The County of Carroll, Kentucky, Environmental Facilities Revenue Bonds, 2005 Series A (Kentucky Utilities Company Project) (the "Bonds") will be special and limited obligations of the County of Carroll, Kentucky (the "Issuer"), payable by the Issuer solely from and secured by payments to be received by the Issuer pursuant to a Loan Agreement with

Kentucky Utilities Company

(the "Company"), except as payable from proceeds of such Bonds or investment earnings thereon. The Bonds will not constitute general obligations of the Issuer or a charge against the general credit or taxing powers thereof or of the Commonwealth of Kentucky or any other political subdivision of Kentucky.

Until the Release Date (generally, the date upon which the Bond Insurer (as hereinafter defined) consents to the release of first mortgage bond collateral of the Company as security for the Bonds, provided that in no event shall that date be later than the date that all of the prior first mortgage bonds of the Company (other than the First Mortgage Bonds securing the Bonds and the First Mortgage Bonds, Pollution Control Series Nos. 11, 12, 13, 14, 15, 16, and 17) have been retired), principal of, and interest on, the Bonds will be further secured by the delivery to the Trustee of First Mortgage Bonds of the Company. See "SECURITY; RELEASE DATE; LIMITATION ON LIENS" and "SUMMARY OF THE FIRST MORTGAGE BONDS" for a description of the circumstances in which the First Mortgage Bonds will be released. On the Release Date, the Bonds will cease to be secured by First Mortgage Bonds and will be secured solely by payments to be made by the Company under the Loan Agreement, which will become an unsecured general obligation of the Company, and will rank on a parity with other unsecured indebtedness of the Company. From and after the Release Date, the Company will covenant not to incur, assume or guarantee any secured indebtedness other than as permitted in the Loan Agreement. See "SECURITY; RELEASE DATE; LIMITATION ON LIENS."

The Bonds will accrue interest from the date of original issuance, will initially be issued in a seven-day Auction Period, and will initially bear interest at a Dutch Auction Rate determined pursuant to the Dutch Auction Procedures described in APPENDIX B hereto. The first Auction will occur on July 13, 2005 and the first Interest Payment Date on the Bonds will be July 14, 2005. The Bonds will continue to bear interest at the Dutch Auction Rate until their Conversion to a different Interest Rate Mode or until maturity. While the Bonds bear interest at the Dutch Auction Rate, the Bonds will not be subject to purchase on demand of the owners thereof. Prospective purchasers of the Bonds should carefully review the Dutch Auction Procedures and should note that such procedures provide that (i) a Bid or Sell Order constitutes a commitment to purchase or sell Bonds based upon the results of an Auction, (ii) Auctions will be conducted through telephone communications and (iii) settlement for purchases and sales will be made on the Business Day following an Auction. Beneficial interests in Bonds bearing interest at a Dutch Auction Rate may be transferred only pursuant to a Bid or Sell Order placed in an Auction or to or through a Broker-Dealer.

The Bonds, when issued, will be registered in the name of Cede & Co., as registered owner and nominee for The Depository Trust Company ("DTC"), New York, New York. DTC will act as securities depository. Purchases of beneficial ownership interests in the Bonds bearing interest at the Dutch Auction Rate will be made in book-entry only form in denominations of \$25,000 and integral multiples thereof; provided that one Bond may be in the denomination of, or include an additional, \$16,950. Purchasers will not receive certificates representing their beneficial interest in the Bonds. See the information contained under the caption "SUMMARY OF THE BONDS—Book-Entry-Only System" herein. The principal of, premium, if any, and interest on the Bonds will be paid by Deutsche Bank Trust Company Americas, as Trustee, to Cede & Co., as long as Cede & Co. is the registered owner of the Bonds. Disbursement of such payments to the DTC Participants is the responsibility of DTC, and disbursement of such payments to the purchasers of beneficial ownership interests is the responsibility of DTC's Direct and Indirect Participants, as more fully described herein.

PRICE: 100%

Subject to the conditions and exceptions set forth under the caption "TAX TREATMENT," Bond Counsel is of the opinion that, under current law, interest on the Bonds offered hereby will be excludable from the gross income of the recipients thereof for federal income tax purposes, except that no opinion will be expressed regarding such exclusion from gross income with respect to any Bond during any period in which it is held by a "substantial user" or a "related person" of the Project as such terms are used in Section 147(a) of the Internal Revenue Code of 1986, as amended (the "Code"). Interest on the Bonds will be an item of tax preference in determining alternative minimum taxable income for individuals and corporations under the Code. Such interest may be subject to certain federal income taxes imposed on certain corporations, including imposition of the branch profits tax on a portion of such interest. Bond Counsel is further of the opinion that interest on the Bonds will be excludable from the gross income of the recipients thereof for Kentucky income tax purposes and that, under current law, the principal of the Bonds will be exempt from ad valorem taxes in Kentucky. Issuance of the Bonds is subject to receipt of a favorable tax opinion of Bond Counsel as of the date of delivery of the Bonds. See "TAX TREATMENT" herein.

The Bonds are offered when, as and if issued and received by the Underwriter, subject to prior sale, withdrawal or modification of the offer without notice, and to the approval of legality by Harper, Ferguson & Davis, a division of Ogden Newell & Welch PLLC, Louisville, Kentucky, as Bond Counsel and upon satisfaction of certain conditions. Certain legal matters will be passed upon for the Company by its counsel, Jones Day, Chicago, Illinois and John R. McCall, Esq., Executive Vice President, General Counsel and Corporate Secretary of the Company, for the Issuer by its County Attorney, and for the Underwriter by its counsel, Winston & Strawn LLP, Chicago, Illinois. It is expected that the Bonds will be available for delivery to DTC in New York, New York on or about July 7, 2005.

Revision of Book-Entry-Only System; Replacement Bonds. In the event that DTC determines not to continue as securities depository or is removed by the Issuer, at the direction of the Company, as securities depository, the Issuer, at the direction of the Company, may appoint a successor securities depository reasonably acceptable to the Trustee. If the Issuer does not or is unable to appoint a successor securities depository, the Issuer will issue and the Trustee will authenticate and deliver fully registered Bonds, in authorized denominations, to the assignees of DTC or their nominees.

In the event that the book-entry-only system is discontinued, the following provisions will apply. The Bonds may be issued in denominations of \$25,000 and integral multiples thereof, if the Interest Rate Mode is the Dutch Auction Rate; in denominations of \$5,000 and integral multiples thereof, if the Interest Rate Mode is the Semi-Annual Rate, the Annual Rate or the Long Term Rate; in denominations of \$100,000 and integral multiples of \$5,000 in excess thereof, if the Interest Rate Mode is the Flexible Rate; and in denominations of \$100,000 and integral multiples thereof, if the Interest Rate Mode is the Daily Rate or the Weekly Rate; provided that, if the Bonds bear interest at (i) the Dutch Auction Rate, one Bond may be in the denomination of, or include an additional, \$16,950, (ii) the Flexible Rate, Semi-Annual Rate, Annual Rate or Long Term Rate, one Bond may be in the denomination of, or include an additional, \$1,950, and (iii) the Daily Rate or Weekly Rate, one Bond may be in the denomination of, or include an additional, \$66,950. Bonds may be transferred or exchanged for an equal total amount of Bonds of other authorized denominations upon surrender of such Bonds at the principal office of the Bond Registrar, accompanied by a written instrument of transfer or authorization for exchange in form and with guaranty of signature satisfactory to the Bond Registrar, duly executed by the registered owner or the owner's duly authorized attorney. Except as provided in the Indenture, the Bond Registrar will not be required to register the transfer or exchange of any Bond during the fifteen days before any mailing of a notice of redemption, after such Bond has been called for redemption in whole or in part, or after such Bond has been tendered or deemed tendered for optional or mandatory purchase as described under "Purchases of Bonds on Demand of Owner" and "Mandatory Purchases of Bonds." Registration of transfers and exchanges will be made without charge to the owners of Bonds, except that the Bond Registrar may require any owner requesting registration of transfer or exchange to pay any required tax or governmental charge.

SECURITY; RELEASE DATE; LIMITATION ON LIENS

Payment of the principal of and interest and any premium on the Bonds will be secured by an assignment by the Issuer to the Trustee of the Issuer's interest in and to the Loan Agreement and all payments to be made pursuant thereto (other than certain indemnification and expense payments). Pursuant to the Loan Agreement, the Company will agree to pay, among other things, amounts sufficient to pay the aggregate principal amount of and premium, if any, on the Bonds, together with interest thereon as and when the same become due. The Company further will agree to make payments of the purchase price of the Bonds tendered for purchase to the extent that funds are not otherwise available therefor under the provisions of the Indenture.

Until the Release Date, the payment of the principal of and interest and any premium on the Bonds will be further secured by a principal amount of First Mortgage Bonds of the Company which will equal the principal amount of the Bonds. In the event of a default under the

Loan Agreement or default in payment of the principal of or interest or any premium on, or purchase price of, the Bonds, and upon receipt by the First Mortgage Trustee of a written demand from the Trustee for redemption of the First Mortgage Bonds, such First Mortgage Bonds will bear interest at the same interest rate or rates borne by the Bonds and the principal of such First Mortgage Bonds, together with interest accrued thereon from the last date or dates to which interest on the Bonds has been paid in full, will be payable in accordance with the Supplemental Indenture. See "SUMMARY OF THE FIRST MORTGAGE BONDS."

The First Mortgage Bonds are not intended to provide a direct source of liquidity to pay the purchase price of Bonds tendered for purchase in accordance with the Indenture. The Company is not required under the Loan Agreement or Indenture to provide any letter of credit or liquidity support for the Bonds unless the Bonds are converted to an Interest Rate Mode in which owners of the Bonds are entitled to tender Bonds to the Company for purchase. The First Mortgage Bonds are secured by a lien on certain property owned by the Company. In certain circumstances prior to the Release Date, the Company is permitted to reduce the aggregate principal amount of its First Mortgage Bonds held by the Trustee, but in no event to an amount lower than the aggregate outstanding principal amount of the Bonds. See "SUMMARY OF THE BONDS — Remarketing and Purchase of Bonds."

The Release Date will be the date that the Bond Insurer, at the request of the Company, consents to the release of the First Mortgage Bonds as security for the Bonds, provided that in no event shall that date be later than the date as of which all first mortgage bonds of the Company issued prior to the date of the Bonds (other than the First Mortgage Bonds and the First Mortgage Bonds, Pollution Control Series Nos. 11, 12, 13, 14, 15, 16, and 17) have been retired through payment, redemption or otherwise (including those first mortgage bonds "deemed to be paid" within the meaning of that term as used in Article XII of the First Mortgage Indenture). Excluding the First Mortgage Bonds and the First Mortgage Bonds, Pollution Control Series Nos. 11, 12, 13, 14, 15, 16, and 17 as of March 31, 2005, four series of first mortgage bonds in an aggregate principal amount of \$193.0 million currently are outstanding under the First Mortgage Indenture. In June 2005, one of those series of bonds, totaling \$50 million, was redeemed. As of the date of this Official Statement, the earliest date that all of such first mortgage bonds could be redeemed is May 15, 2007. The Bond Insurer's consent to a release of the First Mortgage Bonds may be given without the consent of any holder of Bonds.

On the Release Date, the Trustee will deliver to the Company for cancellation all First Mortgage Bonds and the Company will cause the Trustee to provide notice to all holders of Bonds of the occurrence of the Release Date. As a result, on the Release Date, such First Mortgage Bonds shall cease to secure the Bonds, and the obligations of the Company under the Loan Agreement will become unsecured general obligations of the Company.

In the Loan Agreement the Company will covenant that, from and after the Release Date and so long as any Bonds are outstanding, it will not issue, assume or guarantee any debt for borrowed money secured by any mortgage, security interest, pledge, or lien ("mortgage") on any of the Company's operating property (as defined below), whether the Company owns it at the date hereof or acquires it later, unless the Company similarly secures its obligations under the Loan Agreement to make payments to the Trustee in sufficient amounts to pay the principal of, premium, if any, and interest required to be paid on the Bonds. This restriction will not apply to:

- mortgages on any property existing at the time the Company acquires the property or at the time the Company acquires the corporation owning the property;
- purchase money mortgages;
- specified governmental mortgages; or
- any extension, renewal or replacement (or successive extensions, renewals or replacements) of any mortgage referred to in the three clauses listed above, so long as the principal amount of indebtedness secured under this clause and not otherwise authorized by the clauses listed above, does not exceed the principal amount of indebtedness secured at the time of the extension, renewal or replacement.

In addition, the Company can also issue secured debt so long as the amount of the secured debt does not exceed the greater of 10% of net tangible assets or 10% of capitalization.

The Company will not, from and after the Release Date, issue, assume, guarantee or permit to exist any debt of the Company secured by a mortgage, the creditor of which controls, is controlled by, or is under common control with, the Company.

For purposes of this limitation on liens, "operating property" means (i) any interest in real property owned by the Company, and (ii) any asset owned by the Company that is depreciable in accordance with generally accepted accounting principles.

THE BOND INSURANCE POLICY AND THE BOND INSURER

The information relating to Ambac Assurance contained herein has been furnished solely by Ambac Assurance. No representation is made by the Underwriter, the Remarketing Agent, the Issuer or the Company as to the accuracy or adequacy of such information or as to the absence of material adverse changes in the condition of Ambac Assurance subsequent to the date hereof. The following discussion does not purport to be complete and is qualified in its entirety by reference to the Bond Insurance Policy, a specimen of the form of which is attached hereto as APPENDIX D.

Payment Pursuant to Bond Insurance Policy

Ambac Assurance has made a commitment to issue the Bond Insurance Policy relating to the Bonds effective as of the date of issuance of the Bonds. Under the terms of the Bond Insurance Policy, Ambac Assurance will pay to The Bank of New York, in New York, New York, or any successor thereto (the "Insurance Trustee"), that portion of the principal of and interest on the Bonds which shall become "Due for Payment" but shall be unpaid by reason of "Nonpayment" by the Issuer (as such terms are defined in the Bond Insurance Policy). Ambac Assurance will make such payments to the Insurance Trustee on the later of the date on which such principal and interest becomes "Due for Payment" or within one Business Day following the date on which Ambac Assurance shall have received notice of Nonpayment from the Trustee. The insurance will extend for the term of the Bonds and, once issued, cannot be cancelled by Ambac Assurance.
