Case No. 2006-00415

Dear Sirs:

I would like to strongly object to the Enten-
bounty Energy base Rate hike because —

1. My bill this month of \$125.42, adequate for the use of
19" TV, Refrigerator, Stove, Small microwave, washer + Dryer.
(no Computers or Internet)
2. I heat 2 rooms, bath + Laundry room with Propane
I close off remainder of house in winter.
3. After years of members reading their meters and sending
it in to SCE at no expense to them, they now employ
a driver to read each meter each month at their expense
4. They had a building that was adequate and more
handy to get to than the gigantic expensive new builds
they now have. A larger lot and luxury meeting rooms
do not help Cooperative members happy to pay more.
5. Many members are on fixed low incomes, and will
have to sacrifice medicine and food to pay electric.
How can they be asked to pay more?
6. I am 90 years old and have been in business
for many years. I know you don't spend
first and then try to collect.

Thank you for your consideration,

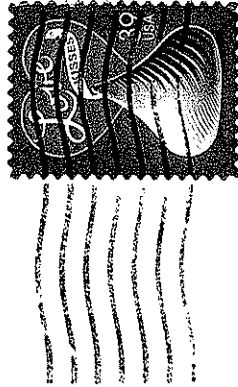

Sincerely,

Elona Lee Sanders

(a member since the Beginning)
