#### The complaint of Sun Palace respectfully shows:

That: There are several complaints that I have on this matter. The billed amount of \$4,766.47 and how the debt occurred. This large amount of debt occurred due to the negligence and the negligence per se of the Kentucky Utilities Company, (KU).

Negligence: Law; Failure to use a reasonable amount of care when such failure results in injury or damage to another.

Damage: Law; Money claimed by, or ordered paid to, a person to compensate for injury. Loss, etc. caused by the wrong of the opposite party or parties.

Injury; wrongful or unjust, a violation of rights.

Negligence Per se: Negligence that consist of a violation of a statute.

I was a new customer on this account in May 2003. That's when I purchased the business. The previous owner and myself went into the Middlesboro office and informed them that I had purchased the business. The KU didn't put my social security number on the account .Apparently this resulted in the meter not being checked as it states in the statue for a new customer (807 KAR 5:006) Section 13, 3. This is not the only meter that I have for the business ; That meter wasn't tested either. And according to Mr. Sutton's letter it hasn't been tested since May 1996. That's nine years, and according to the statute (807 KAR 5:041) Section 15, 3 it should have been tested within eight years.

Here is a brief history on the business and the situation. I bought the business in May of 2003. It's a Tanning Salon. A seasonal business. Before purchasing the business I looked at printouts from the KU on how much the bill would be. These printouts went back to 2001. It is important that you know that there are two meters for the business, so there are two bills also. One bill is high, the (034) account, and the other bill was low, the (006) account. I didn't know what was on what meter until the day they said they were doing a random meter change. Then the electricity was off for about six hours and we found out what was on the (006), the account in question. I just assumed the higher bill was for the business. I asked at the office what the small bill was for, they said they didn't know, and no one was sent out to check . (I've sent two bills that I specifically asked about0, It's on the (006) account.

I wasn't given a properly working meter when I purchased the business, so I feel that it's unfair to charge me for this bill. The printouts that I have on this accounts show were the KU has added and subtracted amounts that I have not done. (I've sent some bills and printouts where this has occurred.) How did these calculations come about.? I don't feel that my bill is just based on what the meter reads, I feel that there are other things calculated in , so by the meter not registering properly was not the only way the KU could have caught this problem, before the bill got so high. It's all these questions that concern me. But the estimate that Mr. Sutton done isn't fair either, this is based on a few days use of the new meter that was put in. This is based on our usage now , and we didn't have as many units a year ago . We were closed more due to an illness and a death in the family. None of this was calculated in. I only have a few months out of the year that are busy months for the salon.

We were told on the day the meter was pulled that this was a random meter change. The letter that was sent would lead to believe that the meter wasn't registering properly so they changed it. They didn't have this information until the meter was pulled and saw it was melted.

There was a large deviation on the previous owners bill in May 2000, (on the meter & account in question) it was \$247.68 and then the next month the bill was \$8.88. I got a copy of this from the previous owner, and I gave Mr. Sutton a copy of this. (The KU would not give me any printouts on this account prior to 2001 or prior to where the large deviation occurred so I could estimate how much the bill usually was. There should have been an investigation done when the large deviation occurred according to the statute (807 KAR 5:006) Section 10, 3. The KU had this information and full knowledge of what the consequences and the hardship it would put on a person., especially a new seasonal business owner.

The Relief I Desire:

Is to be exempt from this debt. Based on the facts and statutes stated above, and since the meter didn't show signs of malfunctioning while in my possession, I shouldn't be held responsible.

This account has been neglected for to long and to hold only one person (a new owner) responsible wouldn't be fair. This large amount of debt would really be a hardship on the type of business I have. I feel that the only time the KU should be able to collect on a bill like this would be if the meter malfunctioned while in the same owners pocession. Customers aren't made aware that something like this can occur till their faced with a large bill. The KU is aware of this on a monthly bases. This bill for the (006) account was adjusted each month.

I think that customers should be informed that this kind of problem can happen; . It should be posted on their monthly bill.

Sun Palace Sherry Good ....

#### This is a list of the copies I'm sending;

1) Statue about being a new customer.

2) The letter we received about the meter.

3) A copy of the statue on monitoring usage, about drawing the KU attention to unusual deviations.

4) I've sent three bills to show how I was being billed, but the 3/19/04 and the 5/20/04 was the two I

5) After the meter in question was changed, my husband went to pay the bill a few days later, and he was told that the balance was \$896.94. This was the first balance that we got. it's changed several times since then.

6) This is the estimate that Mr. Sutton done. I'm not sure how many days the usage was based on. (3pages)

7) This is the letter that Mr. Sutton sent out about the meter in question.

8) The statue on how often a single phase meter should be tested.

9) The previous owners printout of the bill on the (006) account of when the large deviation occurred. This printout was provided by the previous owner (I gave Mr. Sutton a copy of this.) I was unable to get a copy of this account from the KU dated this far back. I also ask for copies of the bill to see how much the account had been. The previous owner had more units and was opened seven days a week. And now the bills seem to be running about the same. (2 pages)

10) This is a printout of what the bill is now and also part of what it was when the previous owner had it. I purchased it on May  $12^{th} 2003$ . (1 page)

11) I've sent copies of what the (034) account usually runs for me and when the previous owner had it. (10 pages)

12) The last printout is after Mr. Sutton made the adjustments to the bill. (5 pages)

Section 13. Utility Customer Relations. (1) A utility shalt post and maintain regular business hours and provide representatives available to assist its customers.

(a) Available telephone numbers. Each utility shall maintain a telephone, shall publish the telephone number in all service areas, and shall permit at customers to contact the utility's designated representative without charge.

(b) Designated representatives. Each utility shall designate at least one (1) representative to be available to answer customer questions, resolve disputes and negotiate partial payment plans at the utility's office. The designated representative shall be knowledgeable of the commission's administrative regulations regarding customer bills and service and shall be authorized to negotiate and accept partial payment plans.

1. Each major gas or electric utility (as defined by the Uniform System of Accounts) and each water and sewer utility having annual operating revenues of \$250,000 or more shall make the designated representative available durrng the utility's established working hours not fewer than seven (7) hours per day, five (5) days per week, excluding holidays.

2. Each nonmajor gas or electric utility (as defined by the Uniform System of Accounts) and each water or sewer utility having annual operating revenues of less than \$250,000 shall make the designated representative available during the utility's established working hours not fewer than seven (1) hours per day, one (1) day per week. Additionally, during the months of November through March. each previously defined nonmajor utility providing gas or electric service shall make available the -designated representative during the utility's established working hours not fewer than five (5) days per week.

(c) Display of customer rights. Each utility shall prominently display in each office in which payment is received a summary, to be prepared and provided by the commission, of the customer's rights under this section and Section 15 of this administrative regulation. If a customer indicates to any utility personnel that he is experiencing difficulty in paying a current utility bill, that employee shall refer the customer to the designated representative for explanation of the customer's rights.

(d) Utility personnel training. The chief operating officer of each electric and gas utility providing service to residential customers shall be required to certify each year the training of utility personnel assigned to counsel persons presenting themselves for utility service under the provisions of this section. Training is hereby defined as an annual review of commission administrative regulations and policies regarding winter hardship and disconnect administrative regulations, Cabinet for Human Resources policy and programs for issuing certificates of need, and the utility's policies regarding collection, arears repayment plans, budget billing procedures, and weather/health disconnect policies. Certification is defined as written notice to the commission by no- later than October 31 of each year identifying the personnel trained, the date training occurred, and that the training met the requirements of this section.

(2) Partial payment plans. Each utility shall negotiate and accept reasonable partial payment plans at the request of residential customers who have received a termination notice for failure to pay as provided in Section 14 of this administrative regulation, except that a utility is not required to negotiate a partial payment plan with a customer who is delinquent under a previous partial payment plan. Partial payment plans shall be mutually agreed upon and subject to the conditions in this section and Section 14 of this administrative regulation. Partial payment plans which extend for a period longer than thirty (30) days shall be in writing and shall advise customers that service may be terminated without additional notice if the customer fails to meet the obligations of the plan.

(a) Budget payment plans for gas and electric utilities. Each gas and electric utility shall develop and offer to its residential customers a budget payment plan based on historical or estimated usage whereby a customer may elect to pay a fixed amount each month in lieu of monthly billings based on actual usage. Under such plans, utilities shall issue bills which adjust accounts so as to bring each participating customer current once each twelve (12) month period. The customer's account may be adjusted at the end of the twelve (12) month period or through a series of levelized adjustments on a monthly basis if usage indicates that the account will not be current upon payment of the last budget amount. Budget payment plans shall be offered to residential customers but may be extended to other classes of customers. The provisions of the budget payment plan shall be included in the utility's tanffed rules. The utility shall provide information to its customers regarding the availability of such budget payment plans.

(b) Partial payment plans for customers with medical certificates or certificates of need. For customers presenting certificates under the provisions of Sections 14(3) and 15 of this administrative regulation, gas and electric utilities shall negotiate partial payment plans based upon the customer's ability to pay, requiring accounts to become current not later than the following October 15. Such plans may include, but are not limited to, budget payment plans and plans that defer payment of a portion of the arrearage until after the end of the heating season through a schedule of unequal payments.

(3) Utility inspections of service conditions prior to providing service. Each electric, gas, water and sewer utility shall inspect the condition of the meter and service connections before making service connections to a new customer so that prior or fraudulent use of the facilities will not be attributed to the new customer. The new customer shall be afforded the opportunity to be present at such inspections. The utility shall not be required to render service to any customer until any defects in the customer-owned portion of the service facilities have been corrected.

(4) Prompt connection of service. Except as provided in Section 15 of this administrative regulation, the utility shall reconnect existing service within twenty-four (24) hours, and shalt install and connect new service within seventy-two (72) hours, when the cause for refusal or discontinuance of service has been corrected and the utility's tariffed rules and commission administrative regulations have been met.

(5) Advance termination notice. When advance termination notice is required, the termination notice shall be mailed or otherwise delivered to the last known address of the customer. The termination notice shall be in writing, distinguishable and separate from any bill. The termination notice shall plainty state the reason for termination, that the termination date will not be affected by receipt of any subsequent bill, and that the customer has the right to dispute the reasons for termination. The termination notice shall also comply with the applicable requirements of Section 14 of this administrative regulation. http://www.c.state.ky.us/kar/807/005/006..htm 3/12/2006

Dear Sun Palace,

We recently discovered a problem with your electric meter. In accordance with the Kentucky Public Service Commission statutes, we are required to correct the billing on your account.

Since Kentucky Utilities Company greatly values you as a customer, we will work with you to make arrangements to pay this bill in a timely and reasonable manner. In compliance with 807 Kar 5:006, Section 10(2), you have the right to elect to make payment arrangements for this bill for a time period no less than the number of months that it took to incur the charges. This arrangement will be due in addition to your new monthly billing. If you choose to make payment arrangements, please contact us at the number shown on your bill.

The following information explains the reason your account was corrected and the time period covered.

The meter was not registering the correct usage and it has been replaced. Usage has been estimated from September 8, 2003 to August 23, 2005 based on actual use on the new meter, geographical location and weather conditions.

As a result, your account has been billed for this usage. If you have any information which may affect the estimated portion of this bill, please contact our office.

Section 10. Bill Adjustment for Gas, Electric and Water Utilities. (1) If upon periodic test, request test, or complaint test a meter in service is found to be more than two (2) percent fast, additional tests shall be made to determine the average error of the meter. Said tests shall be made in accordance with commission administrative regulations appleable to the type of meter involved.

(2) If test results on a customer's meter show an average error greater than two (2) percent fast or slow, or if a customer has been incorrectly billed for any other reason, except in an instance where a utility has filed a verified complaint with the appropriate law enforcement agency alleging fraud or theft by a customer, the utility shall Immediately determine the period during which the error has existed, and shall recompute and adjust the customer's bill to either provide a refund to the customer or collect an additional amount of revenue from the underbulled customer. The utility shall readjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period shall be estimated using such data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of similar customer loads shall be used for comparison purposes in calculating the time period. If the customer and the utility are unable to agree on an estimate of the time period during which the error existed, the commission shall determine the issue. In all instances of customer overbilling, the customer's account shall be credited or the overbilled amount refunded at the discretion of the customer within thirty (30) days after final meter test results. A utility shall not require customer repayment of any underbiffing to be made over a period shorter than a period coextensive with the underbilling.

(3) Monitoring usage. Each utility shall monitor customers' usage at least annually according to procedures which shall be included in its tariff on file with the commission. The procedures shall be designed to draw the utility's-attention to unusual deviations in a customer's usage and shall provide for reasonable means by which the utility can determine the reasons for the unusual deviation. If a customer's usage is unduly high and the deviation is not otherwise explained, the utility shall test the customer's meter to determine whether the meter shows an average error greater than two (2) percent fast or slow.

(4) Usage investigation. If the utility's procedure for monitoring usage indicates that an investigation of a customer's usage is necessary, the utility shall notify the customer in writing either during or immediately after the investigation of the reasons for the investigation, and of the findings of the investigation. If knowledge of a serious situation requires more expeditious notice, the utility shall notify the customer by the most expedient means available.

(5) Customer notification. If a meter is tested and it is found necessary to make a refund or back bill a customer, the customer shall be notified in substantially the following form:

On \_\_\_\_\_19\_, the meter bearing identification No. \_installed in your building located at \_(Street and Number) in \_\_\_\_\_ (city) was tested at \_\_\_\_\_(on premises or elsewhere) and found to register (percent fast or slow). The meter was tested on \_\_\_\_\_(Periodic, Request, Complaint) test.

Based upon this we herewith \_\_\_\_\_(charge or credit) with the sum of S., which amount has been noted on your regular bill. If you desire a cash refund, rather than a credit to your account, of any amount overbilled, you must notify this office in writing within seven (7) days of the date of this notice.

(0) Customer accounts shall be considered to be current while a dispute is pending pursuant to this section, as long as a customer continues to make payments for the disputed period in accordance with historic usage, or if that data is not available, the average usage of similar customer loads, and stays current on subsequent bills.

Section 11. Status of Customer Accounts During Billing Dispute. With respect to any billing dispute to which Section 10 of this administrative regulation does not apply, customer accounts shall be considered to be current while the dispute is pending as long as a customer continues to make undisputed payments and stays current on subsequent bills.

Duane Good Sun Palacu

11/30/05

Mr. Good:

I am sending you the information you requested during our site visit yesterday.

When was the meter last tested? Meter M408432 was tested on 5/14/96. This is the meter at account 509026-006

How many times has service been turned off? Our records indicate there have been no turn offs or disconnects on this account (509026-006)

\*\*\* The other account 396480-034 was disconnected for non-pay on 10/8/04 and reconnected on the same date. This is the account that serves the heat pump.\*\*\*

What were our rates from the year 2000 to present? Rate changes have occurred in 1983 and July 2004.

Section 15. Testing of Metering Equipment. (1) Testing of any unit of metering equipment shall consist of a comparison of its accuracy with a standard of known accuracy. All metering equipment shall be in good order, and shall be adjusted to as close to zero error as possible.

(2) No meter or measuring device shall be deliberately set in error by any amount. Because of unavoidable irregularities of work done on a commercial scale, some accuracy tolerance shall be allowed. Meters shall be set as near as practicable to 100 percent accuracy but in no case shall the inaccuracy exceed one (1) percent. Further, meters with defective parts shall be repaired regardless of their accuracy.

(3) Metering equipment, including instrument transformers and demand meters, shall be tested for accuracy prior to being placed in service, periodically in accordance with the schedule below, upon complaint, when suspected of being in error, or when removed from service for any cause.

Per	iod Test Schedule								
	Self-Contained Meters								
	Single phase	8 years

### Question 1

Case No. 2006-00496 RECEIVED i.

MAR 6 2007 PUBLIC SERVICE COMMISSION

State the number of tanning beds in service by month at Sun Palace from
 February 1, 2003 to August 23, 2005.

I didn't own Sun Palace in February 1, 2003. When I purchased Sun Palace on May 12, 2003 there were 9 beds and 1 stand - up Dome.

From May 12, 2003 to August 11, 2004 there were 9 beds and 1 stand-up Dome (15 months)

From August 11, 2004 to August 23 2005 there were 12 beds and 1 stand-up Dome (12 months)

Attached is 2 pages with the beds listed that were in Sun Palace when we purchased it on May 12, 2003.

Sherry Good will be responsible for responding to this question,

# BILL OF SALE

For and in consideration of the sum of **JANICE JONES**, of P.O. Box 927, Harrogate, receipt of which is hereby acknowledged, **JANICE JONES**, of P.O. Box 927, Harrogate, Tennessee (Seller) does hereby grant, bargain, sell, release, and transfer to **JOEY DEWAYNE GOOD** and his wife, **SHERRY ANN GOOD**, of Route 7, Box 274-N, Pineville, Kentucky 40977 (Buyer), the following described items of real property:

- 1. Sun Quest Pro 24 XLF Model: Top Serial: 0139602 Model/Type: 1200
- 2. Wolfe System Serial: 210158 Model/Type: 6-24XH
- 3. Wolfe System Serial: 210109 Model/Type: E-24 56 XH
- 4. Hex (Not in working order)
- 5. SunVision 28 LX Model: H-28LXB Serial: SPID58324
- 6. SunVision 28LX Model: H-28LXB Serial: SPID58325
- 7. SunVision 28LX Model: H-28LXB Serial: SPID58326
- 8. KLAFSUN CALiente Model: 180-181 Serial: 3675-011

at the second

9. KLAFSUN CALiente Model: 180-181 Serial: 3675-010

  $^{\circ}\gamma$ 

.

~ 2

.

10. KLAFSUN CALiente Model: 180-181 Serial: 365-012

 Dome – Sun Dome XL48 Model: J-48 Sun Dome Date: February 2000 Serial: SPIF36928

.

.

4

2. Provide copies of receipts recording the purchase of any new tanning beds

i.

-

From February 1, 2003 to August 23, 2005.

Attached is a copy from the bank when we purchased the beds.

They were purchased on August 11, 2004, but they were not in use untill August 17, 2004.

A These beds were new additions.

B. 220 Volts 25 amp 3600 watts 30 amp breaker

Dwayne Good will be responsible for responding to this question.

3. State the month (s) that Sun Palace was closed for business and the reason (s) for Closure. Provide documentation proving the month (s) of closure.

There were no months that Sun Palace was closed, They were only some days we were closed, and some nights we had to close early.

2

My father-in-law got sick in October 2003, he was in and out of the hospital for over a year and a half, he died in May 2005.

There is no documentation of when we closed.

When we needed to close I would put a sign on the door. Stating we were closed due to

illness.

Sherry Good will be responsible for responding to this question.

4. Provide documentation establishing the date Sherry Ann Good became the legal owner

. Lei

Of Sun Palace, and state the method of acquisition ( I.e., stock purchase, asset sale, etc.)

Attached is a copy from the bank where Dwayne and Sherry Good purchased

Sun Palace.
