

Case # 2007-007

RECEIVED

FEB 23 2007

PUBLIC SERVICE
COMMISSION

To whom it may concern:

Related to Dolly Creek Production gas
increase notice:

I have already wrote a prior comment
to this notice, but since I have received
another, I chose to write another comment.

I am an elderly women 55 years of age,
who is set on a fixed income. To be
blunt, I only receive \$591.00 a month, have
no medical or home insurance, and do not
receive any assistance from the government.
I can not afford to pay an increase in my
gas bill. I barely make ends me now, and
if there is an increase in gas, then I will
not be able to keep warm in the winter
months. I find this increase a nonsense
because there is no need for it. I feel that
I pay enough already for my heating and
any increase will impair me of making
my basic necessities meet. I am pleading
to you, have mercy on your appreciative
customers & prevent or stop this increase.

Sincerely,
Anna Lou London
