**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 1

With regard to data request PSC-2-38, please provide the following information:

- a. Considering the fluctuating monthly short term debt balances in the test year, as shown in the response to PSC-1-3, Format 3, Schedule 2, page 1, does Mr. Moul believe it to be reasonable to include in the capital structure the single-point-in-time test year-end short term debt balance of \$2,569,581 for ratemaking purposes? If not, explain why not.
- b. Please confirm that if the Company had chosen a test year ending 8/3/06 rather than 9/30/06, the Commission's suggested approach in PSC-2-38 would result in a \$0 ST debt balance in the capital structure.
- c. Please confirm that if the Company had chosen a test year ending 12/31/05 rather than 9/30/06, the Commission's suggested approach in PSC-2-38 would result in a \$32,171,746 ST debt balance in the capital structure.
- d. As Mr. Moul confirms on page 20 of his testimony, there is a direct correlation between CKY's short term debt balances during any particular year and CKY's Gas Stored Underground inventory. As shown on WPB-5.1, sheet 3 of 4, CKY has proposed a Gas Stored Underground inventory balance of \$47.8 million in this case, based on a 13-month average test year balance, consistent with Mr. Moul's use of a 13-month average short term debt test year balance. Would Mr. Moul agree that this represents a consistent and appropriate rate making approach? If not, explain why not.

Response of Columbia Gas of Kentucky:

- a. No. A thirteen month average of short-term has been proposed for capital structure purposes as shown on Attachment PRM-5.
- b. The response prepared to data request PSC-2-38 requested a schedule based on test year-end short-term debt. While complying with the information requested in data request PSC-2-38, that information is not the Company's proposal in this case. If a different test year was selected, i.e., 8/30/06 (sic), a different thirteen month average of short-term debt would have been proposed.

- c. No. See item (b) above.
- d. *Mr. Moul did not make the statement on page 20 of his testimony as asserted in the question. Mr. Moul has proposed a thirteen month average of short-term debt for rate of return purposes in this case.*

Columbia Gas of Kentucky Respondent: **Paul Moul and Kelly Humrichouse**

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 2

With regard to the response to AG-1-6, please provide the following information:

- a. The response to AG-1-6 part a would appear to say that the Company's test year short term debt balance would have been approximately \$19,414,727 higher (in order to provide complete investor-supplied funding for the claimed test year rate base investment of \$171,447,599) were it not for the fact that approximately \$19,414,727 of temporary non-investor supplied funding was available from GCA and CHOICE program over-collections; and if these over-collected funds had not been available, the Company's short-term debt balance would have been \$19,414,727 higher, thereby resulting in an appropriate reconciliation between the test year-end rate base and capital structure. If you do not agree, explain your disagreement in detail.
- b. In its response to part b, the Company states that if the opposite had been the case, i.e., if there had been GCA under-collections in the test year, the Company's capitalization would have been higher than the rate base. Since temporary GCA under- or over-collections are not funded with permanent capital such as equity or long-term debt, please confirm that the claimed excess of capitalization over rate base under that scenario would necessarily have to consist of additional short-term debt. If you do not agree, explain your disagreement.

Response of Columbia Gas of Kentucky:

- a. As a preliminary matter, Mr. Moul was not the respondent to AG-1-6. Kelly Humrichouse was the original respondent and is in agreement with part a, as described above for the test year ended September 30, 2006, all things remaining equal.
- b. The response to AG-1-6-b speaks for itself. Mr. Moul has no basis to dispute the original response.

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 3

Re. reponse to AG-1-10: What is the nature and purpose of the Intercompany Insurance prepayment balances and why should they be included in rate base?

Response of Columbia Gas of Kentucky:

The Intercompany Insurance prepayments are premium payments made by NiSource Corporate Services as a matter of convenience for Columbia Gas of Kentucky and all other participating NiSource subsidiaries directly to external vendors, such as Traveler's Insurance for policies related to property, casualty, and automobile insurance. Some portion of the insurance coverage is then reissued to re-insurers by the external vendors. A NiSource subsidiary, NiSource Insurance Corporation, LTD. (NICL) is a participating re-insurer. NICL re-insures Commercial insurers to reduce the cost of insurance paid by Columbia Gas of Kentucky by reducing overhead, profit and other charges loaded into commercial insurance premiums.

These prepayments are then amortized over the term of the applicable policy. This prepayment is not unlike other prepayments included in rate base for recognition of the use of funds for future services and/or products.

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 4

With regard to the response to AG-1-14, please provide the following information:

- a. How and where (account title) are Builder Incentives included in rate base?
- b. What represents Non-Conforming State Depreciation and is this type of depreciation reflected for ratemaking purposes in this case? If so, how and in which account?
- c. Explain the nature and purpose of the two ADIT balances in sub-accounts 2951 and 2953, RRA '93 and Rate Base Adjustment and explain why these two items are not property and/or rate base related.

Response of Columbia Gas of Kentucky:

- a. Builder Incentives are costs which were expensed on the books but capitalized to plant for tax purposes and depreciated over a 15-20 year period. Because the costs were capitalized to plant the ADIT for Builder Incentives should have been included in rate base but were inadvertently omitted.
- b. Non-Conforming State Depreciation represents the additional Federal Bonus Depreciation expense allowed on qualifying property placed in service between September 11, 2001 and December 31, 2004. This additional depreciation deduction was disallowed for state income tax purposes creating a deferred state income tax asset (sub-account 4227) on the associated plant. This property and the related deferred taxes are in rate base. Sub-account 4227 offsets an overstated ADIT calculated on federal basis in sub-accounts 2205 and 4205 which are included in rate base. These accounts assume federal and state conformity when calculating deferred taxes.

- c. The ADIT balances in sub-accounts 2951 and 2953 represent a write-up of the federal income tax rate from 34% to 35%. For regulatory purposes current and deferred taxes are reflected at 34%, however, the Company must provide deferred taxes at the statutory rate for GAAP purposes since the Company's income is included in the consolidated return of NiSource Inc. and taxed at the statutory federal income tax rate of 35%. Sub-account 2951 records the write-up of the tax rate on flow through depreciation and sub-account 2953 records the write-up of the tax rate on deferred depreciation, CIAC, Customer Advances, Loss on ACRS and Property Removal Costs. Since we are only recovering in rates a federal income tax rate of 34%, the ADIT on the incremental increase of 1% is not included in rate base.

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 5

With regard to the response to AG-1-19, please provide the following information:

- a. For each of the 5 years prior to 2004, provide the initial annual property tax assessment (annual property tax liability, not the Assessed Value) by the Office of Property Valuation (OPV) and the annual property taxes eventually agreed upon based on negotiations between CKY's representative and OPV.
- b. Provide the initial property tax assessment (annual property tax liability, not the Assessed Value) for tax year 2004 and the eventually settled property tax amount resulting in the tax credit of \$72,688.
- c. Provide the initial property tax assessment (annual property tax liability, not the Assessed Value) for tax year 2005 and the eventually settled property tax amount resulting in the tax credit of \$45,568.
- d. With regard to the 2006 initial property tax assessment attached in response to AG-1-19c, please provide the following additional information:
 - i. What is CKY's annual property tax liability (i.e., annual property tax amount equivalent to the actual test year tax amount of \$1,679,517) associated with this most recent tax assessment for tax year 2006 and where can this annual tax amount be found in the attachment?
 - ii. What is the dollar magnitude of the Company's protest of this initial property tax assessment for 2006, i.e., what is the Company's proposed Assessed Value versus the \$184,360,102 and what would be the Company's proposed associated annual property tax amount in accordance with its protest?
 - iii. When was the protest filed and when is a final resolution of the protest expected?
 - iv. What was the time span between the Company's 2004 and 2005 property tax assessment protests and the eventual settlement date that resulted in the credits of \$72,688 and \$45,568?

Response of Columbia Gas of Kentucky:

- a. The company previously responded in AG-1-19(b) "Prior to tax year 2004, a company representative would meet with the Office of Property Valuation and negotiate a value that was acceptable to all parties. Tax bills were issued subsequent to the determination of the acceptable value". As such, there is no initial annual property tax liability for the 5 years prior to 2004. The company's total annual property tax liability is not determined by the Office of Property Valuation (OPV). The OPV determines the Assessed Value of the company's property located in Kentucky and issues an invoice for only the state portion of the company's tax liability. The majority of the company's annual property tax liability is invoiced by the counties and their various jurisdictions in which the company maintains facilities. The counties are advised by the OPV of how much of the total company assessed value is attributable to their jurisdiction(s).
- b. The company initially recorded a liability for tax year 2004 in the amount of \$1,507,000. This liability is an estimate for state, county and other jurisdictional property taxes. At the time the liability is recorded the company does not know the actual amount of the assessed value and the tax rates for the counties and other jurisdictions have not been determined. The company is not aware of the county and other jurisdiction tax rates until the subsequent year when the majority of the tax bills are received. The company's final all inclusive Kentucky property tax liability is \$1,434,312 resulting in a reduction of \$72,688 against the accrued liability.
- c. The company initially recorded a liability for tax year 2005 in the amount of \$1,592,000. This liability is an estimate for state, county and other jurisdictional property taxes. At the time the liability is recorded the company does not know the actual amount of the assessed value and the tax rates for the counties and other jurisdictions have not been determined. The company is not aware of the county and other jurisdiction tax rates until the subsequent year when the majority of the tax bills are received. The company's final all inclusive Kentucky property tax liability is \$1,531,243 resulting in a reduction of \$60,757 against the accrued liability. The tax credit referred to in the question was the adjustment to the base period expenses for October through December 2005 to ensure that they equal three twelfths of the \$1,531,243 liability.
- d.
 - i. The company has recorded an initial liability for tax year 2006 in the amount of \$1,629,502 for Kentucky and \$232,029 for West Virginia on gas storage. These amounts do not relate to the attachment since it is only for the state portion of Kentucky property taxes as previously explained in this response. In addition, the attachment is a preliminary assessment and invoice for which the company has filed protest and

would result in total property tax greatly exceeding the amount the company is requesting to recover in this proceeding.

- ii. The company's proposed assessed value in its protest filing is \$106,000,000 less motor vehicles of \$1,790,945 for a net value of \$104,209,055. This compares with the initial valuation by the OPV of \$186,151,047 less motor vehicles of \$1,790,945 for a net value of \$184,360,102. The net settled value for the 2005 tax year was \$140,752,210. The difference between the OPV and company initial assessed values approximates \$800,000 in tax, however, the company doesn't believe either position will be sustained and records tax expense on its books at management's expected outcome levels.
- iii. The company's protest was filed on January 19, 2007. An initial meeting with the Division of Protest Resolution (DPR) is being scheduled for July 2007. The company cannot forecast the timing of a final resolution to this protest since factors pertinent to its resolution are not in its control. Those factors include whether a successful resolution of the protest can be obtained during the meeting with the DPR. Without a resolution with the DPR, the company will litigate the valuation and be subject to the timetable of the judicial system.
- iv. The tax year 2004 protest was filed on September 30, 2004 while the tax year 2005 protest was filed on October 26, 2005. The settlement agreement for these tax years was executed by the Finance and Administration Cabinet on October 19, 2006.

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 6

Re. response to PSC-2-49: The response indicates that the impacts on annualized and normalized test year gross revenues of using 25-year and 30-year normalized weather data are gross revenue increases of \$900,168 and \$3,161,671, respectively. Please provide the corresponding impacts on annualized/normalized test year net margins (revenues net of associated gas costs) for both of these scenarios.

Response of Columbia Gas of Kentucky:

25 Years:

Net margin revenue changes from \$44,949,681.08 to \$45,125,846.95, an increase of \$176,165.87.

30 Years:

Net margin revenue changes from \$44,949,681.08 to \$45,572,276.99, an increase of \$622,595.91.

See response to PSC-2-49 attached Schedule M-2.2 affected by both the 25-year (Attachment 1) and 30-year (Attachment 2) normalizations.

Columbia Gas of Kentucky Respondent: **Kelly Humrichouse**

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 7

In response to PSC-2-64, the Company states that the PSC assessment rate used in the development of the revenue requirement represents the most recent assessment rate for the period 7/1/06 through 6/30/07. As shown on Schedule D-2.1, Sheet 6 and Schedule H-1, Sheet 1, the rate that has been used is .1898%. However, in the response to AG-1-32, the Company states that the most recent assessment rate, effective for 7/1/06 through 6/30/07 is .1643%. Please reconcile these two numbers and indicate which is the correct one.

Response of Columbia Gas of Kentucky:

The most current assessment rate is .1643%; please see 2007-00008 Set 2-007 Attachment 1. The assessment rate of .1898% was used in the Kentucky Rate Case No. 2002-00145. The .1898% was not updated and as a result the PSC expense was overstated by \$40,360.

=====

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 8

The response to AG-1-34a,b shows that the Company's uncollectible ratio experiences upward and downward fluctuations from year to year. Given these annual fluctuations, please explain why the Company believes it to be appropriate to base the uncollectible ratio in this case on the experience of one year rather than the average experience over a number of years.

Response of Columbia Gas of Kentucky:

One major driver of uncollectible accounts is customer bill level. Bill level is materially driven by usage and rate. Columbia's ability to normalize volumes mitigates fluctuation in uncollectible levels caused by usage. However, gas cost rates were volatile over the period included in the response to AG-1-34a,b and gas costs are beyond Columbia's control. Gas costs have recently stabilized at a level higher than historic average rates. Columbia used the most current uncollectible ratio available at the time of filing in an effort to reflect current gas cost levels.

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED May 8, 2007**

Question No. 9

With regard to the response to AG-1-37, please provide the following information:

- a. Explain the consistently declining trend in the Company's total employee level, from 177 in 2003 to 125 in February 2007. In addition, explain whether this trend will continue in the remaining months of 2007 and thereafter.
- b. Actual total employees for the months of March and April 2007.
- c. Explain why it is reasonable to annualize the payroll expenses in this case based on 134 employees given that the employee level has already further declined to 125 in February, 2007.
- d. To what extent is the continuing decline in CKY's level of employees (down to 125 employees in February 2007) a result of the implementation of the IBM Contract?

Response of Columbia Gas of Kentucky:

- a. The declining trend in employee level from 177 in 2003 to 125 in February 2007 can be attributed to a combination of attrition and reorganization to support a centrally led but geographically dispersed workforce. While some employees may physically remain in Kentucky and continue to perform services for Kentucky, their functional group alignment in the corporation was changed to report through other NiSource companies, such as Columbia Gas of Pennsylvania or NCSC. One specific example of this is the operational Standards and Compliance function which was considered Columbia direct in 2003 and now is an NCSC function. Other employees have left the company entirely, and as such, have been removed from the test year labor. One specific example is in November 2005, the phone center operation was closed in Kentucky and over the next several months those employees left the organization, which resulted in a decline of 31 employees from 2004 to 2006. There is no expectation that employee levels will drop over the balance of 2007 and thereafter.
- b. The total number of Columbia Gas of Kentucky employees as of March 31, 2007 was 123 and as of April 30, 2007 it was 124.

Columbia Gas of Kentucky Respondent: **Kelly Humrichouse**

- c. Columbia adopted a historic test year in developing its revenue requirement. Consistent with past practice approved by this Commission, labor was annualized based on employee levels at the end of the test year. If all components of the company's cost of service could be updated for actual information within the suspension period, then it would be reasonable to update labor for the actual employees known at that time. However, Columbia is unaware of an update procedure allowed by the Commission within the suspension period. To update one component without considering others would be inappropriate.
- d. As previously stated, in November 2005, the phone center operation was closed in Kentucky and over the next several months those employees left the organization, which resulted in a decline of 31 employees from 2004 to 2006. This work was absorbed by a centralized customer phone center operation located in Pennsylvania as a result of the IBM contract.

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 10

Regarding the response to PSC-2-35a, please explain how the percentage increases shown on WPD-2.2, Sheet 2 change as a result of the fact that the actual merit increase for exempt was 3.0% rather than the anticipated 3.5%, i.e., it obviously changes the exempt merit increase in column (3), but will it also change the clerical increase in column (2) from 3.5% to 3.00% and the overtime and premium increase in column (4) from 3.50% to 3.00%?

Response of Columbia Gas of Kentucky:

Please see response to 2007-00008 PSC Set 3-016. Columns (2) and (3) have been updated on this response to include an actual 3.0% exempt and 2.5% clerical increase. Column (4) was not updated because this rate would go from 3.5% to 5.575%. This is because the 3.5% was selected because the overtime/premium in the test year of (\$1,026,733) is 83.9% union employee related and 16.1% clerical related. We did not weight the compounding increases using the originally submitted percentages but instead used a conservative increase. At this time, both increases are known and measurable via contract ratification or are known because they are now actual. The 5.575% is derived by taking a $1.025 (2.5\% \text{ 12/1/2006}) \times 1.03 (3.0\% \text{ 2007 increase}) = 1.05575$ or a 5.575% increase.

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 11

In response to AG-1-40e, the Company confirms that during the test year ended 9/30/06, the Company did not book any incentive compensation. The response then goes on with the statement that "The Company did have a payout for 2006 performance with the accrual booked in December 2006." In this regard, please provide the following information:

- a. Was the incentive compensation accrual booked in December 2006 \$113,893, as shown in the response to AG-1-39c? If not, please reconcile the 2006 amount of \$113,893 to the accrual that was presumably booked in December 2006.
- b. Was the accrual booked in December 2006 the result of the fact that the Board of NiSource decided in 2006 to lower the financial EPS trigger for 2006 in order to still be able to have an incentive payout to its employees for 2006, as described in the response to AG-1-39a, pages 13, 14 and 15? If so, provide details regarding the lowering of the EPS target.
- c. If the 2006 incentive compensation accrual was \$113,893, explain how the Company arrived at the pro forma test year \$227,789 incentive compensation amount described in the response to AG-1-40a which, presumably, was based on reaching the 2006 financial trigger. If not based on the actual 2006 financial trigger of \$1.50 EPS, does this mean that the \$227,789 is purely a hypothetical incentive compensation number the Company used for ratemaking purposes in this case?

Response of Columbia Gas of Kentucky:

- a. The \$113,893 incentive accrual was booked in December 2006.
- b. The incentive compensation amount booked in December 2006 was the result of the NiSource Board of Directors' decision to lower the financial EPS trigger for 2006 in order to still be able to have an incentive payout to its employees for 2006. All information on the incentive payout was provided in response to AG-1-39 and AG-1-40.

Columbia Gas of Kentucky Respondent: **Kelly Humrichouse**

- c. The Company expects that performance in the future will achieve, on average, incentive compensation payout levels no lower than at the trigger level. As shown in response to AG-1-39 (c), Columbia has achieved incentive compensation payouts around the \$227,789 level in past years. Therefore, Columbia reflected the 2006 trigger level of \$227,789 as a going forward incentive compensation amount for ratemaking purposes.

Question No. 12

With regard to Workers Compensation expenses, please provide the following information:

- a. Please reconcile the actual test year net Workers Compensation expenses of \$240,869 ($\$123,420 + \$172,116 - \$54,667$) on Schedule D-2-9 to the actual per books test year Acct 925 I&D expenses of \$720,513 shown in the response to PSC-1-20.
- b. Please reconcile the actual annual I&D expenses for the years 2001 through 2005 that are shown in the response to AG-1-56 to the actual per books Account 925 I&D expenses for the corresponding years in the response to PSC-1-20.
- c. Please provide the actual annual I&D expenses that are equivalent to the Account 925 I&D expenses shown in the response to PSC-1-20 (for the years 2001 through the test year) for the years 1997 through 2000.

Response of Columbia Gas of Kentucky:

- a. Please see 2007-00008 Set 2-012 Attachment 1a.
- b. Please see 2007-00008 Set 2-012 Attachment 1b and 1c.
- c. Please see 2007-00008 Set 2-012 Attachment 1b and 1c.

**BEFORE THE PUBLIC SERVICE COMMISSION OF KENTUCKY
PSC CASE NO. 2007-00008
INFORMATION REQUESTED BY THE ATTORNEY GENERAL
DATED MAY 8, 2007**

Question No. 13

The determination of the annualized property and liability insurance expenses proposed by the Company are shown on WPD-2.9 sheet 1 of 3. In this regard, please provide the following information:

- a. Where is the monthly oil insurance of \$1,231 shown on WPD-2.9, page 2 of 3? If not shown there, please provide the actual monthly oil insurance from September 2006 through April 2007.
- b. Where is the monthly Non-Affiliate WC insurance of \$3,996 shown on WPD-2.9, page 2 of 3? If not shown there, please provide the actual monthly Non-Affiliate WC insurance from September 2006 through April 2007.
- c. What is the basis for the \$82,897 St. Paul's travelers WC insurance? Where is this insurance reflected on WPD-2.9, page 2 of 3? If not, provide the actual monthly St. Paul's travelers WC insurance for the annual period May 2006 through April 2007.
- d. Confirm that the updated annualized Affiliate WC insurance amounts to \$170,148 (12 x actual monthly expense of \$14,179) rather than the amount of \$174,588 (12 x \$14,549) assumed by the Company. If you do not agree, explain your disagreement.
- e. Confirm that the updated annualized Miscellaneous Other Non-Affiliate insurance amounts to \$424,656 (12 x \$35,388) rather than the amount of \$480,432 (12 x \$40,036) assumed by the Company. If you do not agree, explain your disagreement.
- f. Explain why, in calculating the Miscellaneous Other Non-Affiliate insurance, the Non-Affiliate WC insurance of \$3,996 is subtracted.

Response of Columbia Gas of Kentucky:

- a. The \$1,231 is not shown on WPD-2.9 page 2 of 3. The only additional expense for OIL, Ltd. that occurred from September 2006 through April 2007 was \$12,752 for a withdraw premium. This was a premium incurred to withdraw from this policy. This property insurance was replaced with policies with two other carriers: AON and JLT. The monthly costs associated with these replacement policies began in January 2007 and are for \$52 and \$225, respectively.

- b. See WPD-2.9 Sheet 2 of 3, column titled Misc Corporate Insurance Premiums Amortization Account 925 for September, 2006.

Workers Compensation – Non-Affiliate	\$ 3,996
Miscellaneous Other – Non-Affiliate	\$ <u>36,040</u>
Total	\$ 40,036

- c. The \$82,897 represents an adjustment that is made annually. Other than this annual adjustment, Worker's Compensation premiums are recorded on a monthly basis and these are reflected on WPD-2.9 Sheet 2 of 3 in the Misc. Corporate Insurance Premium and Amortization column. Since this \$82,897 represents an annual adjustment which fell within the test year, it has been reflected on WPD -2.9 Sheet 1 of 3 and not annualized at the September 2006 level on WPD-2.9 Sheet 2 of 3. The next annual adjustment is not expected to be made until May 2007. There is no monthly activity to provide.
- d. Columbia adopted an historic test year in developing its revenue requirement. Consistent with past practice approved by this Commission, Property & Liability Insurance expense was annualized based on payment levels at the end of the test year September 30, 2006. If all components of the company's cost of service could be updated for actual information within the suspension period, then it would be reasonable to update Property & Liability Insurance expense for the actual expense levels known at that time. However, Columbia is unaware of an update procedure allowed by the Commission within the suspension period. To update one component without considering all elements would be inappropriate.
- e. See the response to item d.
- f. See the response to item b.
