RE: Case No. 2007-00082
Filing Deficiencies

On February 23, 2007, the Commission received your application. That filing, however, was deficient. On February 28, 2007 the Commission issued a letter stating the deficiencies and requesting the information be filed no later than 15 days from the date of that letter. Apparently you were not able to furnish the information by March 15, 2007. On March 16, 2007 a reminder letter was sent requesting you file the needed information within 10 days. Again nothing has been received.

The information requested is required by the Commission to process your application and it is important that the information relied upon be current. Since some of the information the Commission will review was compiled for your February filing, there is concern that it may no longer be valid. Therefore, unless the information is filed within 10 days of the date of this letter the application will be dismissed.

If you are unable to file the requested information at this time and prefer not to have the application dismissed, you may request that the application be withdrawn. In either event, you will be able to file a new application at any future time that is convenient for you.

Sincerely,

A handwritten signature in black ink that reads "Michael F. Burford".

Michael F. Burford
Director
Division of Filings
