**Auto forwarded by a Rule**

Delta Gas wants an increase in order that it can earn an additional 5.5 million in profits. It claims that it cannot encourage conservation if it sales are based on volume.

This company is allowed by law to take people's property by eminent domain solely to reduce its costs and make more profits. This is for the public good?

If the PSC gives Delta the increase, it should make Delta use the total 5.5 million for gas conservation efforts and not allow the increase to line the shareholders' pockets.
