RE: Docket Number: 2007-00110
Proposed Construction of Wireless Communications Facility

Dear Reader:

I am responding in relation to a notice of a proposed cell tower; to be built within a 500' radius of my property. I received a letter addressed to my parents, Harvey E. and Sue B. Elder regarding this issue. Both my parents are now deceased, and I am the current owner and resident of this property, located at 274 Jimtown Road, Mayfield, Ky 42066. This property is in a residential neighborhood. I am strongly opposed to the construction of said tower, as I feel it will significantly lower the value of my property and interfere with my enjoyment of my house and yard. There is already a radio tower directly behind my property. My family has lived at this address for nearly 40 years. It is the nicest and most expensive property on this road, as both my parents, and my husband and I have invested a great deal of money in renovating, and maintaining it over the years. The house is nearly 4000 square ft, 4-5 bedrooms, 2 1/2 baths, with formal living and dining rooms, large family room with stone fireplace, and hard wood floors; on just under 2 acres of land. We have had our house on the market recently, but without success. We have had comments from potential buyers about the radio tower, and a close by cell tower will only add to this situation. We certainly don't want to have our view spoiled by another tower. Please let me know what I can do to prevent this monstrosity from being built in my neighborhood. If I can provide any further information, or comment on this situation; I can be reached at home, at (270)247-4788.

Sincerely,

Angela C. Williamson
