**APPLICANT’S MOTION TO SUBMIT
FOR EXPEDITED DECISION WITHOUT PUBLIC HEARING**

Cellco Partnership, a Delaware General Partnership, d/b/a Verizon Wireless (“Applicant”), by counsel, moves to Submit for Expedited Decision Without Public Hearing and requests that the Kentucky Public Service Commission (“PSC”) grant a Certificate of Public Convenience and Necessity (“CPCN”) forthwith in this case, based on the following facts and circumstances:

1. On March 20, 2007 Applicant filed an application requesting the issuance of a CPCN to construct, maintain, and operate a wireless telecommunications facility at 416 Jimtown Road, Mayfield, Kentucky.
2. By Commission Order dated May 9, 2007, Angela Williamson was granted full intervention.
3. By Commission Order dated June 5, 2007, any Intervenor who intends to appear at the hearing scheduled for July 17, 2007 and present evidence against

construction of the proposed Cell Facility is required to file, within 10 days of the date of the Order, a statement of intent to appear at the hearing in opposition. If no statement is filed within 10 days of the date of the Order, then the hearing is to be canceled and the matter submitted to the Commission on the existing record.

4. No Intervenor has filed with the Commission an intent to appear in opposition at the hearing scheduled for July 17, 2007 and the hearing should therefore be canceled and the matter submitted to the Commission on the existing record in accordance with this Commission's June 5, 2007 Order.

5. By Commission Order dated June 5, 2007, any Intervenor who intends to propose suitable and acceptable alternative locations to the proposed site must submit a list with supporting technical radio frequency information, evidence, and technical rationale, where the proposed Cell Facility might be located or constructed within 10 days of the date of the Commission's Order. The Order also excludes any evidence regarding alternative sites at the hearing except as to those locations of record, properly identified.

6. The sole Intervenor, Angela Williamson, has failed to submit a list of proposed suitable and acceptable alternative locations to the proposed site within 10 days of the Commission Order, or to otherwise comply in any respect with the Commission Order, and therefore is precluded from presenting any evidence on the subject. Consequently, there are no material issues for the Commission to consider at a public hearing on the Application.

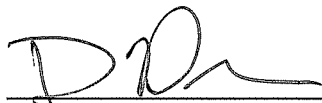

7. Because no Intervenor has timely filed an intent to appear at the scheduled public hearing, and because there are not material issues for the

Commission to consider at a public hearing, the hearing should be canceled and the matter submitted to the Commission on the existing record in accordance with this Commission's June 5, 2007 Order.

8. The wireless communications facility that is the subject of the Application for a CPCN filed in this case remains a vital element of the Applicant's wireless communications network, and is necessary to provide service in accordance with the provisions of Applicant's Federal Communications Commission license.

WHEREFORE, the Applicant, by counsel, urges the PSC to grant a CPCN forthwith in accordance with the terms of the Application in this proceeding and without public hearing.

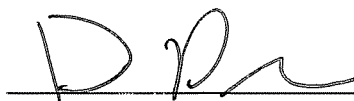

Respectfully submitted,

David A. Pike
