Re: Intervention of tower and access road;
P.S.C. Case #2007-00124

Sirs:

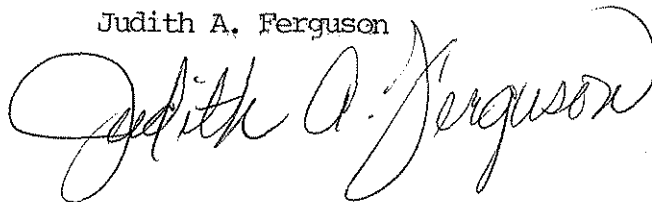

Let it be known I am seeking intervention of this tower and access road construction.

The access road and tower is going to be put on a slopping hillside. At the base of the hill is a large creek. The road and tower will even further erode the hillside and push the creek and water even further toward my house.

I am also concerned of the many problems associated with towers, TV and Telephone reception, property devaluation, eyesore and the numerous other problems that arise along with the threat of flooding.

Thank You,

Judith A. Ferguson
