O R D E R

On May 23, 2007, Cumberland Valley Electric, Inc. ("CVE") filed an application seeking approval of its proposed tariff setting forth a new rate for an Automated Meter Reading ("AMR") remote disconnect switch fee. The new tariff bears an effective date of June 25, 2007.

Based on a review of the application and the proposed tariff and being otherwise sufficiently advised, the Commission finds that an investigation of the new rate is necessary to determine its reasonableness and such investigation cannot be concluded prior to the effective date. Consequently, pursuant to KRS 278.190(2), the Commission will suspend the effective date of the new rate for 5 months.

IT IS THEREFORE ORDERED that CVE's proposed tariff is suspended for a period of 5 months from June 25, 2007 up to and including November 24, 2007.

Done at Frankfort, Kentucky, this 14th day of June, 2007.
