PUBLIC SERVICE  
COMMISSION

RE: Public Notice—Public Service Commission of Kentucky  
Case No. 2007-00253 ( The Myhniier Facility)

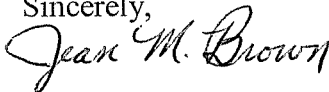

To Whom It May Concern:

We (my mother and I) are opposed to the construction of the cell tower at this location for three reasons:

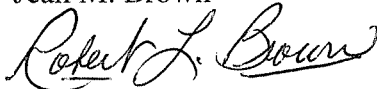

1. It will be an "eyesore". It will set on the hill that we see from our front porch and can be seen from Morehead. The one thing most people like about Morehead is the beauty of our hills and this will destroy that landscape.
2. It could be a health issue. The jury is still out on the effects of cell towers, radio waves, magnetic forces, etc.
3. We are also concerned about electronic interference.

The certified letter we received from McBrayer, McGinnis, Lester, & Kirkland was sent to Luder J. Brown. My father's name is Luster and he has been deceased since August of 1998. The property owner of parcel F is Harold, not Barold Brown. If the law firm representing Verizon cannot obtain the proper names of property owners, what else might be wrong with this project?

Sincerely,

Jean M. Brown
