Re: In the Matter of The Annual Cost Recovery filing for Demand Side Management by Duke Energy Kentucky, Inc. Case No. 2007-00369

Dear Ms. O'Donnell:

I have enclosed for filing the original and eleven copies of Duke Energy Kentucky, Inc.'s Motion to Amend DSM Application to Include Home Energy Assistance Program.

Please file-stamped the extra copy of the motion and return in the enclosed, return-addressed envelope.

Sincerely,

Shu Thonigan

RECEIVED

THE ANNUAL COST RECOVERY FILING FOR DEMAND SIDE MANAGEMENT BY DUKE ENERGY KENTUCKY, INC.

CASE NO. 2007-00369

FEB 1 1 2008

PUBLIC SERVICE COMMISSION

# MOTION OF DUKE ENERGY KENTUCKY, INC. TO AMEND DSM APPLICATIONS TO INCLUDE HOME ENERGY ASSISTANCE PROGRAM

Pursuant to KRS 278.285, Duke Energy Kentucky, Inc. ("DE-Kentucky") moves the Commission for an Order to amend its application to re-institute its Home Energy Assistance ("HEA") program for a three-year period (2008-2010) to be administered under the umbrella of its WinterCare program. In support of this Motion, DE-Kentucky states as follows:

1. The Commission approved DE-Kentucky's one-year HEA pilot program in 2006.<sup>1</sup> The present HEA proposal is structured in the same manner as the original HEA pilot program.

2. For the past several years, DE-Kentucky has operated a voluntary financial assistance program known as WinterCare. The WinterCare program provides financial assistance to low income DE-Kentucky customers to help pay their gas and/or electric bill. Eligibility is based upon need and does not necessarily follow government assistance guidelines. Eligible customers can receive up to \$300.00 in assistance for their utility bill. WinterCare is completely funded by DE-Kentucky employees, customers,

<sup>&</sup>lt;sup>1</sup> In the Matter of: the Annual Cost Recovery Filing for Demand Side Management by The Union Light,

and shareholders. Beginning in the 2005 winter season, DE-Kentucky matched \$1.00 for every \$1.00 donated by employees and customers, up to \$25,000 in contributions, resulting in a potential total contribution from employees, customers and shareholders of up to \$50,000 (or more if employee and customer contributions would exceed \$25,000). Previously, DE-Kentucky matched \$1.00 for every \$2.00 donated.

3. DE-Kentucky is concerned that, with high energy costs, low income customers may need additional assistance to be able to pay their energy bills during the next few years. In addition to the programs described in its original application, DE-Kentucky proposes a new DSM energy assistance program under the umbrella of the WinterCare program. DE-Kentucky has consulted with the Residential DSM Collaborative to seek its support for this program.

4. This program would be eligible to customers who meet an income qualification level of up to 200% of the federal poverty level. DE-Kentucky estimates that approximately 24,700 customers could be eligible for this program (based on the number of single family owner-occupied households within DE-Kentucky's service area that have qualifying income levels). Program participants must be current DE-Kentucky customers.

5. DE-Kentucky proposes to charge residential electric customers and residential gas customers \$0.10 per account per month for the twelve-month period following Commission approval. Customers who receive electric and gas service have two accounts and would pay a total of \$0.20 per month. As of the end of December 2007, there were 20,344 gas only customers, 58,840 electric only customers, and 75,303 combination gas and electric customers. This is expected to generate approximately

Heat and Power Company, Case No. 2005-00402 (Opinion and Order) (April 4, 2006).

\$24,413 annually in revenues from gas only customers; \$70,608 from electric only customers; and \$180,727 from combination gas and electric customers for a total of \$275,748. The total annual bill cost impacts to customers are expected to be approximately \$1.20 for gas customers and approximately \$1.20 for electric customers. The worksheet at Attachment A shows the estimated bill impacts and the estimated revenues.

6. DE-Kentucky would notify customers of these charges through a bill message to be included on customers' bills during the time period these charges would be in effect. The funds generated would not be administered under the purely discretionary basis as are the current WinterCare funds, but rather would be used to provide bill credits for eligible customers, and would initially target customers at the 150-200% federal poverty guideline level, as these low income customers are not eligible for assistance under existing financial aid programs. The funds DE-Kentucky raises through the current voluntary component of the WinterCare program will continue to be administered by Northern Kentucky Community Action Commission ("CAC") on a discretionary basis, to allow CAC the flexibility to address the particular hardship situations they may encounter.

7. DE-Kentucky started an additional \$25,000 in new shareholder funding for the 2005 winter season's WinterCare program, also administered by CAC on this discretionary basis. This could result in up to \$75,000 in total voluntary WinterCare funding, if customers and employees would donate at the maximum matching level. DE-Kentucky made this additional contribution to support the one-year HEA pilot program in Case No. 2005-00402. If the Commission approves the current HEA proposal, DE-

3

Kentucky commits to continue this level of funding through the duration of the three-year HEA program proposed herein.

8. The new program would also be administered by the CAC, which also administers DE-Kentucky's current Home Energy Assistance Plan known as "Payment Plus." The CAC would income qualify the participants and provide the relevant information to DE-Kentucky. DE-Kentucky would apply the bill credits to eligible customer bills and notify the customers of the credits through a bill message. A formula will be used for calculating the bill credit. The formula may be based on factors such as the size of the participants' household and income, the amount of the household's utility bills, the amount of arrearages, the number of heating degree days versus normal heating degree days for the billing period under consideration, and any significant changes in costs of utility service. CAC's additional cost for administering this program would be included as part of the DSM program administration costs.

The Collaborative's review is pending, and DE-Kentucky will notify the Commission of the outcome as soon as the Collaborative reaches its decision. If approved, DE-Kentucky will report on the results of this program as part of its next annual DSM report in November 2008. Attachment B-1 consists of the proposed Rider DSMR tariff sheets for gas and electric services based on the currently applicable DSM rates but with the residential portion of the riders modified to include the Heat Fund incremental rates of \$0.10 per account. Attachment B-2 contains the DSMR gas and electric riders which DE-Kentucky filed on or around November 15, 2007, which have now been modified to likewise include the incremental Heat Fund charges shown above.

DE-Kentucky submits that the above circumstances constitute good cause and

4

therefore requests the Commission to approve this application after 20 days notice, as provided in KRS 278.180(1). Additionally, DE-Kentucky requests that the Commission issue an interim order approving this DSM program after 20 days notice, so that DE-Kentucky can implement this program while the Commission completes its review of the remainder of DE-Kentucky's pending DSM application.

WHEREFORE, DE-Kentucky respectfully requests that the Commission grant the relief requested in this Motion.

Respectfully submitted,

DUKE ENERGY KENTUCKY, INC.
