PUBLIC SERVICE COMMISSION

April 17, 2008

RE: AN EXAMINATION BY THE PUBLIC SERVICE COMMISSION OF THE ENVIRONMENTAL SURCHARGE MECHANISM OF KENTUCKY UTILITIES COMPANY FOR THE SIX-MONTH BILLING PERIOD ENDING OCTOBER 31, 2006 AND FOR THE TWO-YEAR BILLING PERIOD ENDING APRIL 30,2007 - CASE NO. 2007-00379

Dear Ms. Stumbo:

The Commission's Order dated March 28, 2008, in the above-cited proceeding, approved the ECR Roll-in and changes to the customer class base-rate revenues. Kentucky Utilities Company therefore revises and files four copies of the revised rate schedules to its tariff PSC No. 13. These rates are effective with bills rendered on and after May 2, 2008. Also included is the updated calculation of the BESF using 12-month ending revenues as of March 31, 2008.

Please contact me if you have any questions concerning this filing.

Sincerely,

Robert M. Conroy

Kentucky Utilities Company State Regulation and Rates 220 West Main Street PO Box 32010 Louisville, Kentucky 40232 www.eon-us.com

ELECTRIC RATE SCHEDULE

GS General Service Rate

APPLICABLE

In all territory served.

AVAILABILITY OF SERVICE

To general lighting and small power loads for secondary service. It is optional with the customer whether service will be billed under this schedule or any other schedule applicable to this load. Customers executing a one year contract under this schedule will continue to be billed under such schedule for not less than 12 consecutive months unless there shall be a material and permanent change in the customer's use of service.

Service under this schedule will be limited to maximum loads not exceeding 500 KW. Service to existing customers with a maximum load exceeding 500 KW is restricted to those customers being billed under the rate schedule as of its effective date of July 1, 2004. New customers, upon demonstrating an average demand of 500 KW or greater, will be served under the appropriate rate schedule.

RATE

Customer Charge: \$10.00 per month

Plus an Energy Charge of: 6.741 cents per KWH

PRIMARY DISCOUNT

A 5% Primary Discount will be applied to the bill, including the minimum charge, of any primary or voltage delivery customer who has a demand of 50 kilowatts or more during the billing period. This discount does not apply to fuel clause revenue. Primary service under this rate schedule is restricted to those customers being billed under the rate schedule as of its effective date of July 1, 2004.

ADJUSTMENT CLAUSES

The bill amount computed at the charges specified above shall be increased or decreased in accordance with the following:

L

A.E.S. ELECTRIC RATE SCHEDULE **All Electric School** APPLICABLE In all territory served. AVAILABILITY OF SERVICE Service under this rate is available where energy requirement for (I) a complex of school buildings on a central campus, (2) an individual school building, or (3) an addition to an existing school building is served electrically by Kentucky Utilities Company; such energy requirement to include, but not be limited to, lighting, heating, cooling and water heating. Other school buildings not so receiving every energy requirement electrically shall be separately metered from the above defined service and served under another appropriate applicable rate. At those locations where the school owns its distribution system and makes the service connections therefrom to the various buildings and/or load centers, the Company shall be given the option of providing service by use of the existing Customer owned distribution system, or of constructing its own facilities in accordance with the Company's Overhead Construction Standards. In any event, the Company's investment in construction may be limited to an amount not exceeding twice the estimated annual revenue from the service so connected. If the Customer desires, he will be allowed to make a contribution for the remaining requirement, so as to receive service under this schedule. School buildings, as referred to herein, shall be defined as buildings used as classrooms, laboratories, gymnasiums, libraries, cafeterias, school related offices or for other bona fide school purposes by duly constituted school authorities of Kentucky. This Rate Schedule is not available to include buildings of privately operated kindergartens or day care centers. Other fuels may be used as incidental to and for instructional laboratory and other miscellaneous purposes without affecting the availability of this rate. RATE All kilowatt-hours: 5.558¢ per KWH. ELECTRIC RATE SCHEDULE

LP Large Power Service

APPLICABLE

In all territory served.

AVAILABILITY OF SERVICE

This rate schedule is available for secondary, primary or available transmission line service on an annual basis for lighting and/or heating and/or power.

It is optional with the customer whether service will be billed under this schedule for the entire requirements, or under various other schedules applicable to the various services. The customer having selected this schedule will continue to be billed under it for not less than 12 consecutive months, unless there should be a material and permanent change in the customer's service.

Service under this schedule will be limited to minimum average secondary loads of 200 KW and maximum average loads not exceeding 5,000 KW.

Customers with average single phase loads less than 200KW receiving service under this rate schedule as of July 1, 2004, will continue to be served under this rate schedule.

RATE

Customer Charge: \$75.00 per month

Maximum Load Charge:

Secondary Service

\$7.40 per kilowatt of the maximum load in the month.

ELECTRIC RATE SCHEDULE LP
Large Power Service
DETERMINATION OF MAXIMUM LOAD
The load will be measured and will be the average KW demand delivered to the customer during the 15-minute period of maximum use during the month.
The Company reserves the right to place a KVA meter and base the billing demand on the measured KVA. The charge will be computed based on the measured KVA times 90 percent of the applicable KW charge.
In lieu of placing a KVA meter, the Company may adjust the measured maximum load for billing purposes when power factor is less than 90 percent in accordance with the following formula: (BASED ON POWER FACTOR MEASURED AT TIME OF MAXIMUM LOAD).
Adjusted Maximum KW Load for Billing Purposes = <u>Maximum Load Measured X 90%</u> Power Factor (in percent)
MINIMUM ANNUAL CHARGE
Service under this schedule is subject to an annual minimum of \$88.80 per kilowatt for secondary delivery, \$84.12 per kilowatt for primary delivery and \$80.04 per kilowatt for transmission delivery for each yearly period based on the greater of (a), (b), (c), (d), or (e) as follows:
 (a) The highest monthly maximum load during such yearly period. (b) The contract capacity, based on the expected maximum KW demand upon the system. (c) 60 percent of the KW capacity of facilities specified by the customer. (d) Secondary delivery, \$888.00 per year; Primary delivery, \$2,103.00 per year; Transmission delivery, \$4,002.00 per year. (e) Minimum may be adjusted where customer's service requires an abnormal investment in special facilities.
Payments to be made monthly of not less than 1/12 of the Annual Minimum until the aggregate payments during the contract year equal the Annual Minimum. However, payments made in excess of the amount based on above rate schedule will be applied as a credit on billings for energy used during contract year. A new customer or an existing customer having made a permanent change in the operation of electrical equipment that materially affects the use in kilowatt-hours and/or use in kilowatts of maximum load will be given an opportunity to determine new service requirements in order to select the most favorable contract year period and rate applicable.
DUE DATE OF BILL Customer's payment will be due within 10 days from date of bill.
TERM OF CONTRACT For a fixed term of not less than one year and for such time thereafter until terminated by either party giving 30 days written notice to the other of the desire to terminate.
TERMS AND CONDITIONS Service will be furnished under Company's Terms and Conditions applicable hereto.

Large Commercial/Industrial Time-of- Day Service
DETERMINATION OF MAXIMUM LOAD The load will be measured and will be the average KW demand delivered to the customer during the 15-minute period of maximum use during the appropriate rating period each month.
The Company reserves the right to place a KVA meter and base the billing demand on the measured KVA. The charge will be computed based on the measured KVA times 90 percent, at the applicable KW charge.
In lieu of placing a KVA meter, the Company may adjust the measured maximum load for billing purposes when power factor is less than 90 percent in accordance with the following formula: (BASED ON POWER FACTOR MEASURED AT TIME OF MAXIMUM LOAD)
Adjusted Maximum KW Load for Billing Purposes = <u>Maximum KW Load Measured x 90%</u> Power Factor (in percent)
RATING PERIODS The rating periods applicable to the Maximum Load charges shall be as follows:
On-Peak Period during Summer Billing Months of June through September is defined as weekdays from 10:00 a.m. to 9:00 p.m., Eastern Standard Time, throughout the Company's service area
On-Peak Period during Winter Billing Months of October through May is defined as weekdays from 8:00 a.m. to 10:00 p.m., Eastern Standard Time, throughout the Company's service area.
Off-Peak Period – All hours Monday through Friday not included above, plus all hours of Saturday and Sunday.
MINIMUM ANNUAL CHARGE Service under this schedule is subject to an annual minimum of \$60.84 per kilowatt for primary and \$58.56 per kilowatt for transmission on-peak delivery for each yearly period based on the greater of (a), (b), (c), (d) or (e), as follows:
 (a) The highest monthly on-peak maximum load during such yearly period. (b) The contract capacity, based on the expected on-peak maximum KW demand upon the system. (c) Sixty percent of the KW capacity of facilities specified by the customer. (d) Primary delivery, \$304,200 per year; transmission delivery \$292,800 per year.
 (e) Minimum may be adjusted where customer's service requires an abnormal investment in special facilities.
Payments to be made monthly of not less than 1/12 of the Annual Minimum until the aggregate payments during the contract year equal the Annual Minimum. However, payments made in excess of the amount based on above rate schedule will be applied as a credit on billings for energy used during contract year.
DUE DATE OF BILL: Customer's payment will be due within 10 days from date of bill.

ELECTRIC RATE SCHEDULE MP
Coal Mining Power Service
(a) \$65.04 for primary delivery and \$63.60 for transmission delivery for each yearly period for each kilowatt of capacity reserved by the customer's application.
(b) \$65.04 per kilowatt for primary delivery or \$63.60 per kilowatt for transmission delivery, for each yearly period based on highest monthly maximum load during such yearly period.
(c) No less than an amount to be determined by any special investment required to serve.
DETERMINATION OF MAXIMUM LOAD The load will be measured and will be the average KW demand delivered to the customer during the 15-minute period of maximum use during the month.
The Company reserves the right to place a KVA meter and base the billing demand on the measured KVA. The charge will be computed based on the measured KVA times 90% of the applicable KW charge.
In lieu of placing a KVA meter, the Company may adjust the measured maximum load for billing purposes when power factor is less than 90% in accordance with the following formula:
Adjusted Maximum KW Load for Billing Purposes = <u>Maximum KW Load Measured x 90%</u> Power Factor (in percent)
MONTHLY PAYMENTS Each bill shall be computed at the Maximum Load and Energy Charge set forth, however, in no event shall the aggregate payments at the end of any month during the contract year, including the current month's bill, be less than the sum obtained by multiplying the number of months elapsed during the contract year by 1/12 of the annual minimum set forth. During subsequent months should the sum of the computed bills be less than the aggregate payments made, and greater than the minimum payments set forth above, adjustment shall be made on the basis of the sum of the computed bills, provided such adjustment shall not reduce the aggregate payments below the minimum payments set forth above.
DUE DATE OF BILL Customer's payment will be due within 10 days from date of bill.
POWER FACTOR CLAUSE All the customer's apparatus shall be selected and used with reference to securing the highest practicable power factor. The Company shall have the right at all times to make an examination of the installation of motors and other apparatus of the customer and it may refuse to make connection or to give service unless the installation is in proper condition to receive and is operated in such manner as to utilize safely and efficiently the energy furnished by the Company. The customer shall not make any changes in his installation which will affect the operation of the

ELECTRIC RATE SCHEDULE LMP-TOD			
Large Mine Power Time-of-Day Rate			
APPLICABLE In all territory served			
AVAILABILITY OF SERVICE Available to, and mandatory for, all mine power service customers served on primary or transmission voltage, with demands of 5,000 kilowatts or greater, subject to the following guidelines:			
(1) Mine power service under this rate is restricted to coal mining, coal cleaning, coal processing or other related operation and for power, lighting and/or heating incidental to such operation.			
(2) Customers being served on this rate whose average demands have subsequently been reduced below 5,000 kilowatts over a period of twelve (12) months or who have had a material and permanent change in operations which will undoubtedly reduce demands below this level will be placed on the appropriate non-time-differentiated rate at the Company's discretion.			
(3) It is the responsibility of the customer to keep the Company fully informed of any change or expected change in operations which will affect the customer's qualifications to be served on this rate.			
(4) Service under this schedule will be limited to maximum loads not exceeding 50,000 KW. Customers with new or increased load requirements that exceed 50,000 KW will have a rate developed as part of their contract based upon their electrical characteristics.			
RATE			
Customer Charge: \$120.00 per month			
Maximum Load Charge:PrimaryTransmissionOn-Peak Demand\$5.77\$5.23Off-Peak Demand\$1.11\$1.11			
Energy Charge: 3.082 cents per KWH			
DETERMINATION OF MAXIMUM LOAD			
The load will be measured and will be the average KW demand delivered to the customer during the 15-minute period of maximum use during the appropriate rating period each month.			
The Company reserves the right to place a KVA meter and base the billing demand on the measured KVA. The charge will be computed based on the measured KVA times 90 percent, at the applicable KW charge.			
In lieu of placing a KVA meter, the Company may adjust the measured maximum load for billing purposes when power factor is less than 90 percent in accordance with the following formula: (BASED ON POWER FACTOR MEASURED AT TIME OF MAXIMUM LOAD)			
Adjusted Maximum KW Load for Billing Purposes = <u>Maximum KW Load Measured x 90%</u> Power Factor (in percent)

	IC RATE SCHEDULE STOD Small Time-of-Day Service
APPLICA	
In all te	erritory served by the Company.
	BILITY OF SERVICE
	ble to commercial customers whose average maximum monthly demands are greater than 250 d less than 2,000KW.
	STOD shall be available as an optional pilot program for three years effective 14 weeks
ц,	following the Final Order in PSC Case No 2003-00434 for existing customers on Rate LP,
	Original Sheet No 20, PSC No 13.
b)	As an optional pilot program, STOD is restricted to 100 customers. The Company will notify
•	all eligible customers of STOD and accept applications on a first-come-first-served basis with the beginning of business 6 weeks following the Final Order in PSC Case No 2003-00434.
c)	For each year or partial year of the pilot program, programming costs plus lost revenues will
0)	be recovered from customers served under Rate LP by a program cost recovery mechanism.
d)	No customers will be accepted for STOD following the end of the second year of the pilot
	program.
e)	The Company will file a report on STOD with the Commission within six months of the end of the third year of the pilot program. Such report will detail findings and recommendations.
f)	STOD shall remain in effect until terminated by order of the Commission.
•7	
RATE	
	ner Charge: \$90.00 per month
	Demand Charge:
	econdary Service - \$7.40 per KW per month imary Service - \$7.01 per KW per month
	ansmission Service - \$6.67 per KW per month
	n Energy Charge of:
	n-Peak Energy - \$0.03879 per KWH f-Peak Energy - \$0.02596 per KWH
01	f-Peak Energy - \$0.02596 per KWH
W	here the On-Peak Energy is defined for bills rendered during a billing period as the metered
	insumption from:
a)	10 A.M. to 9 P.M., Eastern Standard Time, on weekdays for the four consecutive billing
b)	months of June through September or 8 A.M. to 10 P.M., Eastern Standard Time, on weekdays for the eight consecutive billing
5)	months from October through May.
Aľ	l other metered consumption shall be defined as Off-Peak Energy.
	INATION OF MAXIMUM LOAD
	ad will be measured and will be the average KW demand delivered to the customer during
11. AP	i-minute period of maximum use during the appropriate rating period each month.
the 15	Company reserves the right to place a KVA meter and base the billing demand on the
The C measu	ured KVA. The charge will be computed based on the measured KVA times 90 percent, at
The C measu	pplicable KW charge.
