RE: Application of Louisville Gas and Electric Company for
Approval of a Revised Collection Cycle for Payment of Bills
Case No. 2007-00410

Dear Ms. O'Donnell:

During the January 15, 2008 informal conference in the above-referenced proceeding, representatives from Louisville Gas and Electric Company ("LG&E") discussed with Commission Staff possible changes to the Behavioral Scoring System LG&E uses as part of its billing and collection process. Specifically, Commission Staff stated a concern that LG&E's proposal to move its bill-due date from fifteen to ten days after the date of bill issuance could adversely impact a customer's standing in its Behavioral Scoring System. After consulting with those responsible for the Behavioral Scoring System, LG&E can confirm that, if the Commission issues an order granting the relief requested in its Application, LG&E will configure the system not to impact a customer's score for late payment until at least fifteen (15) days after the bill issuance date. LG&E believes that this proposal should fully address Commission Staff's concern. If the Commission has any additional questions or needs any further information, please contact me at your first convenience.

Sincerely,

Sidney L. "Butch" Cockerill
